SUBSTANCE: Ceramic

OBJECT: Used sherd

CATALOG #: 202 Au/619 - 20

MULTIPLES? no

DRAWN BY: 66

PASTE GROUP (for ceramics):

EXCAVATOR:

CATALOGED BY: 66

MAXIMUM-HGT/LENGTH: 2.7 cm

WIDTH: 2.5 cm

THICKNESS: 0.6 cm

VERBAL DESCRIPTION:

NOTE: this catalog sheet is *not* to be used for sherds that were deliberately shaped; this is for *opportunistically used* items only!

The shape of this object is approximately: triangular - square - rectangular - oval - tear-drop - other (describe):

crappy pentagon formed by large fresh break

The margin/edge was chipped to form the item: y-n

The margin/edge was deliberately ground to smooth it: y-n

The margin/edge is smoothed from use: y-n

There is other use wear visible: y-n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: ① exterior edge is rounded over smooth; the smoothing also wraps around the margin and interior lip. especially at the "↓" for the wrap-around FX.

The type-variety from which this was made is: ② the use is interrupted by the fresh break, starting at the top corner the interior edge has slight rounding and wear that becomes more pronounced just below the break. The entire margin is worn soft and smooth.

Comments:

③ ← ④ are rough, unsmoothed edges + margins
