12.8/m

- cross section: 12 meters 10 cm, orientation 3W 220°
- Lot 01: 1st meter from NE corner ~~measuring~~ measuring down 10 cm from north corner
 - dirt: tan, few rocks or pebbles, some roots
 - few shards found
- Lot 02: 20 cm down, 1st meter square in cross section
 - shards
 - NE corner one rock starting to show, soil same as before
- Lot 03: 30 cm down from N corner measurement
 - increasing # of shards
 - few pieces bajareque
- Lot 04: 40 cm down from N corner
 - still few rocks, more shards
 - one obsidian blade ~ 2 cm + 2 more
 - 2 bags of shards
 - line of rocks appearing on SW side
- Lot 05: 50 cm down from N corner
 - ~ 4 inch by 4 inch stone for grinding corn, etc.
 - more shards - huge bag
 - face of a ocorina - maybe frog or fish
- Lot 06: 60 cm down from N corner
 - line of rocks appearing in NE corner
 - broken face
 - few pieces bajareque
- Lot 07: 10 cm down in 2nd meter measuring from N corner 2nd m. ~~W~~ W
 - dirt still light brown, easy to dig
 - lots of small roots
- Lot 08: 20 cm down, 2nd meter ~~W~~ from N corner
 - shards

18-0P

12:14 PM

- lot 09: 2nd meter W from N corner, 30 cm down
 - shards
- lot 10: 2nd meter W from N corner (datum), 40 cm down
 - foot of a pot, large rim
 - Many large rocks showing
 - start screening / removed ~~5~~ ^{1st} rocks  - tumble
- lot 11: edge of ~~second~~ ^{1st} meter, beginning from 18 cm down

measuring from N corner datum

 - removing rocks until can find a defined feature
 - find large shards, small bird face from ocoriola
 - screening
 - Many large shards between rocks we are removing
 - going down to current bottom level of 60 cm, clearing rocks Right to left (South to North)
- ~~lot~~ lot 12: starting at second meter W, starting at ~

36 cm down to 60 cm down

 - clearing rock, tumble, dirt, shards back to west
 - one huge rock + lots of small fist size ones
 - finding bajareque on ground level ~ 50 cm
 - maybe remnants of basal ~ from beginning of trench
 - fallen wall sequence
 - chip rock, smooth square edges
 - 135 to basal structure from E edge
 - 50 cm length of lot 12 from start of 2nd meter
 - 104 cm to start of bajareque from North corner datum
 - 39 cm from start of bajareque to basal rocks

8-28

128/M

LOT 13: 3rd meter W from N corner datum 10 cm down

- digging new square to get a better view of tumble
- & decide which can be taken out

- soil lots of roots, shards

LOT 14: starting from 153 cm from edge of 1st meter

moving W, depth originating at 34 cm to

- systematically removing rocks

- Nice corner piece of bajareque

- bajareque on ~ 55 cm level found, similar to bajareque found at 1 cm, also maybe burned

- carbon sample found in S side of trench at 56 cm down, measured from N datum, 154 cm from start of trench

- found at edge of 1st defined feature

- going to follow wall in, see what hits

- LOT continues to 204 cm down from 34 to 62 cm on N side & 34 cm to 56 cm on South side

LOT 15: continuing west from 204 cm ~ edge of second meter

- still removing rocks & moving along possible feature 1

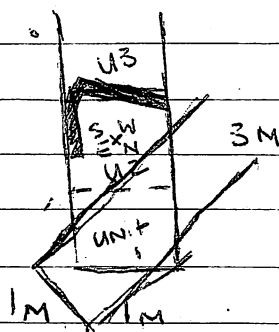

- LOT continues from end of unit 1 (200 cm) to 224 cm

- reorienting trench, still same length

- hit corner of 2 features

trench was $\begin{array}{c} \text{W} \quad \text{N} \\ \text{S} \quad \text{E} \end{array}$ NOW $\begin{array}{c} \text{N} \\ \text{W} \quad \text{E} \\ \text{S} \end{array}$ trench heading

due west instead of SW

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

2. In the second part of the paper, the author discusses the question of the structure of the nucleus. It is shown that the structure of the nucleus is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

3. In the third part of the paper, the author discusses the question of the structure of the molecule. It is shown that the structure of the molecule is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

4. In the fourth part of the paper, the author discusses the question of the structure of the crystal. It is shown that the structure of the crystal is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

5. In the fifth part of the paper, the author discusses the question of the structure of the liquid. It is shown that the structure of the liquid is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

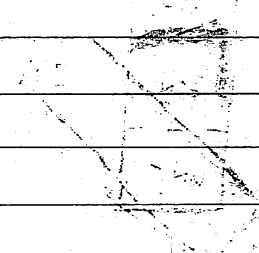

6. In the sixth part of the paper, the author discusses the question of the structure of the gas. It is shown that the structure of the gas is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

7. In the seventh part of the paper, the author discusses the question of the structure of the plasma. It is shown that the structure of the plasma is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

8. In the eighth part of the paper, the author discusses the question of the structure of the solid. It is shown that the structure of the solid is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

9. In the ninth part of the paper, the author discusses the question of the structure of the liquid crystal. It is shown that the structure of the liquid crystal is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

10. In the tenth part of the paper, the author discusses the question of the structure of the polymer. It is shown that the structure of the polymer is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are in agreement with the experimental facts.

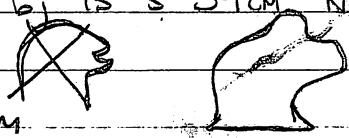

128 M

LOT 16 area cut out of first meter of trench to
reorient trench due West.

- piece of figure, shards
- small chip stone

LOT 17: 2nd square meter unit along new trench heading due
West from 0 cm to 63 cm where b₁ is 54 cm near wall

- some sort of head or spout
- shards • obsidian blade 4 1/2 cm

LOT 18: new unit #3 along new orientation of trench
1 meter square starting at 0 cm digging to 10 cm
looking to define features more

- animal bone at 53 cm down right next to line
of feature #1 () SPAIN?

LOT 19: 3rd square unit heading west, digging from 10 cm to 20 cm

- huge root going through front of feature one

LOT 20: 4th square unit going west 0 to 20 cm deep

- rain from weekend makes the trench a little dirty,
cow walked across feature 1

- shards, rocks starting to show, no clear order

LOT 21: 4th square unit west, 20 cm to

- obsidian
- large chunks of bajareque
- part of a encinario

LOT 22 from low far side of San Juan feature moving
West removing rocks

- bone

LOT 23

LOT 24

- bone 50 cm

THEORY OF THE EARTH
AND ITS HISTORY

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE EARTH WAS FORMED BY THE
CONDENSATION OF A GASEOUS
MASS. THE FIRST STATE OF
THE EARTH WAS A GASEOUS
MASS, WHICH WAS CONDENSED
BY THE ACTION OF GRAVITY
INTO A SOLID MASS. THE
FIRST STATE OF THE EARTH
WAS A GASEOUS MASS, WHICH
WAS CONDENSED BY THE
ACTION OF GRAVITY INTO A
SOLID MASS.

2/6 LOT ~~24~~ 25 starting at 82 west of San Juan feature

- removing tumble, initial depth 32 cm from Datum
- huge number of shards, few pieces of bajareque
- getting closer to a wall, finding line once tumble is gone
- unit finishes at hisote feature which is 132 cm from San Juan

LOT 26: 6th square meter unit heading West, 0 to 10 cm

- trying to get better view of hisote feature, basically directly on top of mound, half way over
- only 3 shards

LOT 27: 6th unit W, 10 cm to ~~down to 40 cm~~ 40 cm

- very few rocks or ~~shards~~
- taking it down to same level as on other side of hisote feature

LOT 28: 6th unit W, ~~down to 40 cm~~ 40 cm to ~~down to 63 cm~~ 63 cm

- shards
- chip stone (?) obsidian blade about 1 1/2 cm in length
- shards, continuing looking for bajareque floor like in SE corner
- bajareque at 63 cm, along S edge of unit
- second feature named hisote
- possible line of rocks \perp to hisote of N side of unit

(7) / LOT 29: 1st square meter unit running east 0 to 10 cm

- no shards, no nothing but dirt

LOT 30: 1st square meter unit running east 10 cm to 20 cm down

- shards / many large roots to cut out

LOT 31: 1st square meter unit running east 20 cm to 30 cm

- shards
- small obsidian chip

LOT 32: 1st 2nd meter unit going east, 30 cm to 40 cm

- changing feature names for simplicity if other people work on 128M - now country names

1945

2/8 LOT 32 CON.

- SAN JUAN = Spain | Visote = Italy
- NAME 2 NEW features France (corner structure w/ Spain)
- England = feature near start of trench in north corner

LOT 33: heading east, first unit 50 cm to 60 cm 45 cm

- finding large shards, possible surface or floor

LOT 34: same unit 45 cm to 60 cm

- trying to find surface
- obsidian blade,  w/ point ~ 3 cm
- 1/2 of a face w/ a large nose

(8) 2/9 LOT 35: 2nd square unit moving east along 12 m 10 cm trench, 0 cm to 20 cm

- shards, very few
- finding tumble, going deeper to remove

LOT 36: 2nd square meter unit moving east, 20 cm to 30 cm

-  stone head 4 cm across top 2 1/2 cm on sides
- shards

LOT 37 2nd square meter unit moving east, clearing from 30 cm to 40 cm, only in first ~50 cm of unit, 2nd 50 cm rocks, tumble of a feature

- shards

LOT 38 2nd square meter unit moving east, clearing rocks from 40 cm down to same base as 1st unit (63 cm)

- nice large shard embedded in fallen rock

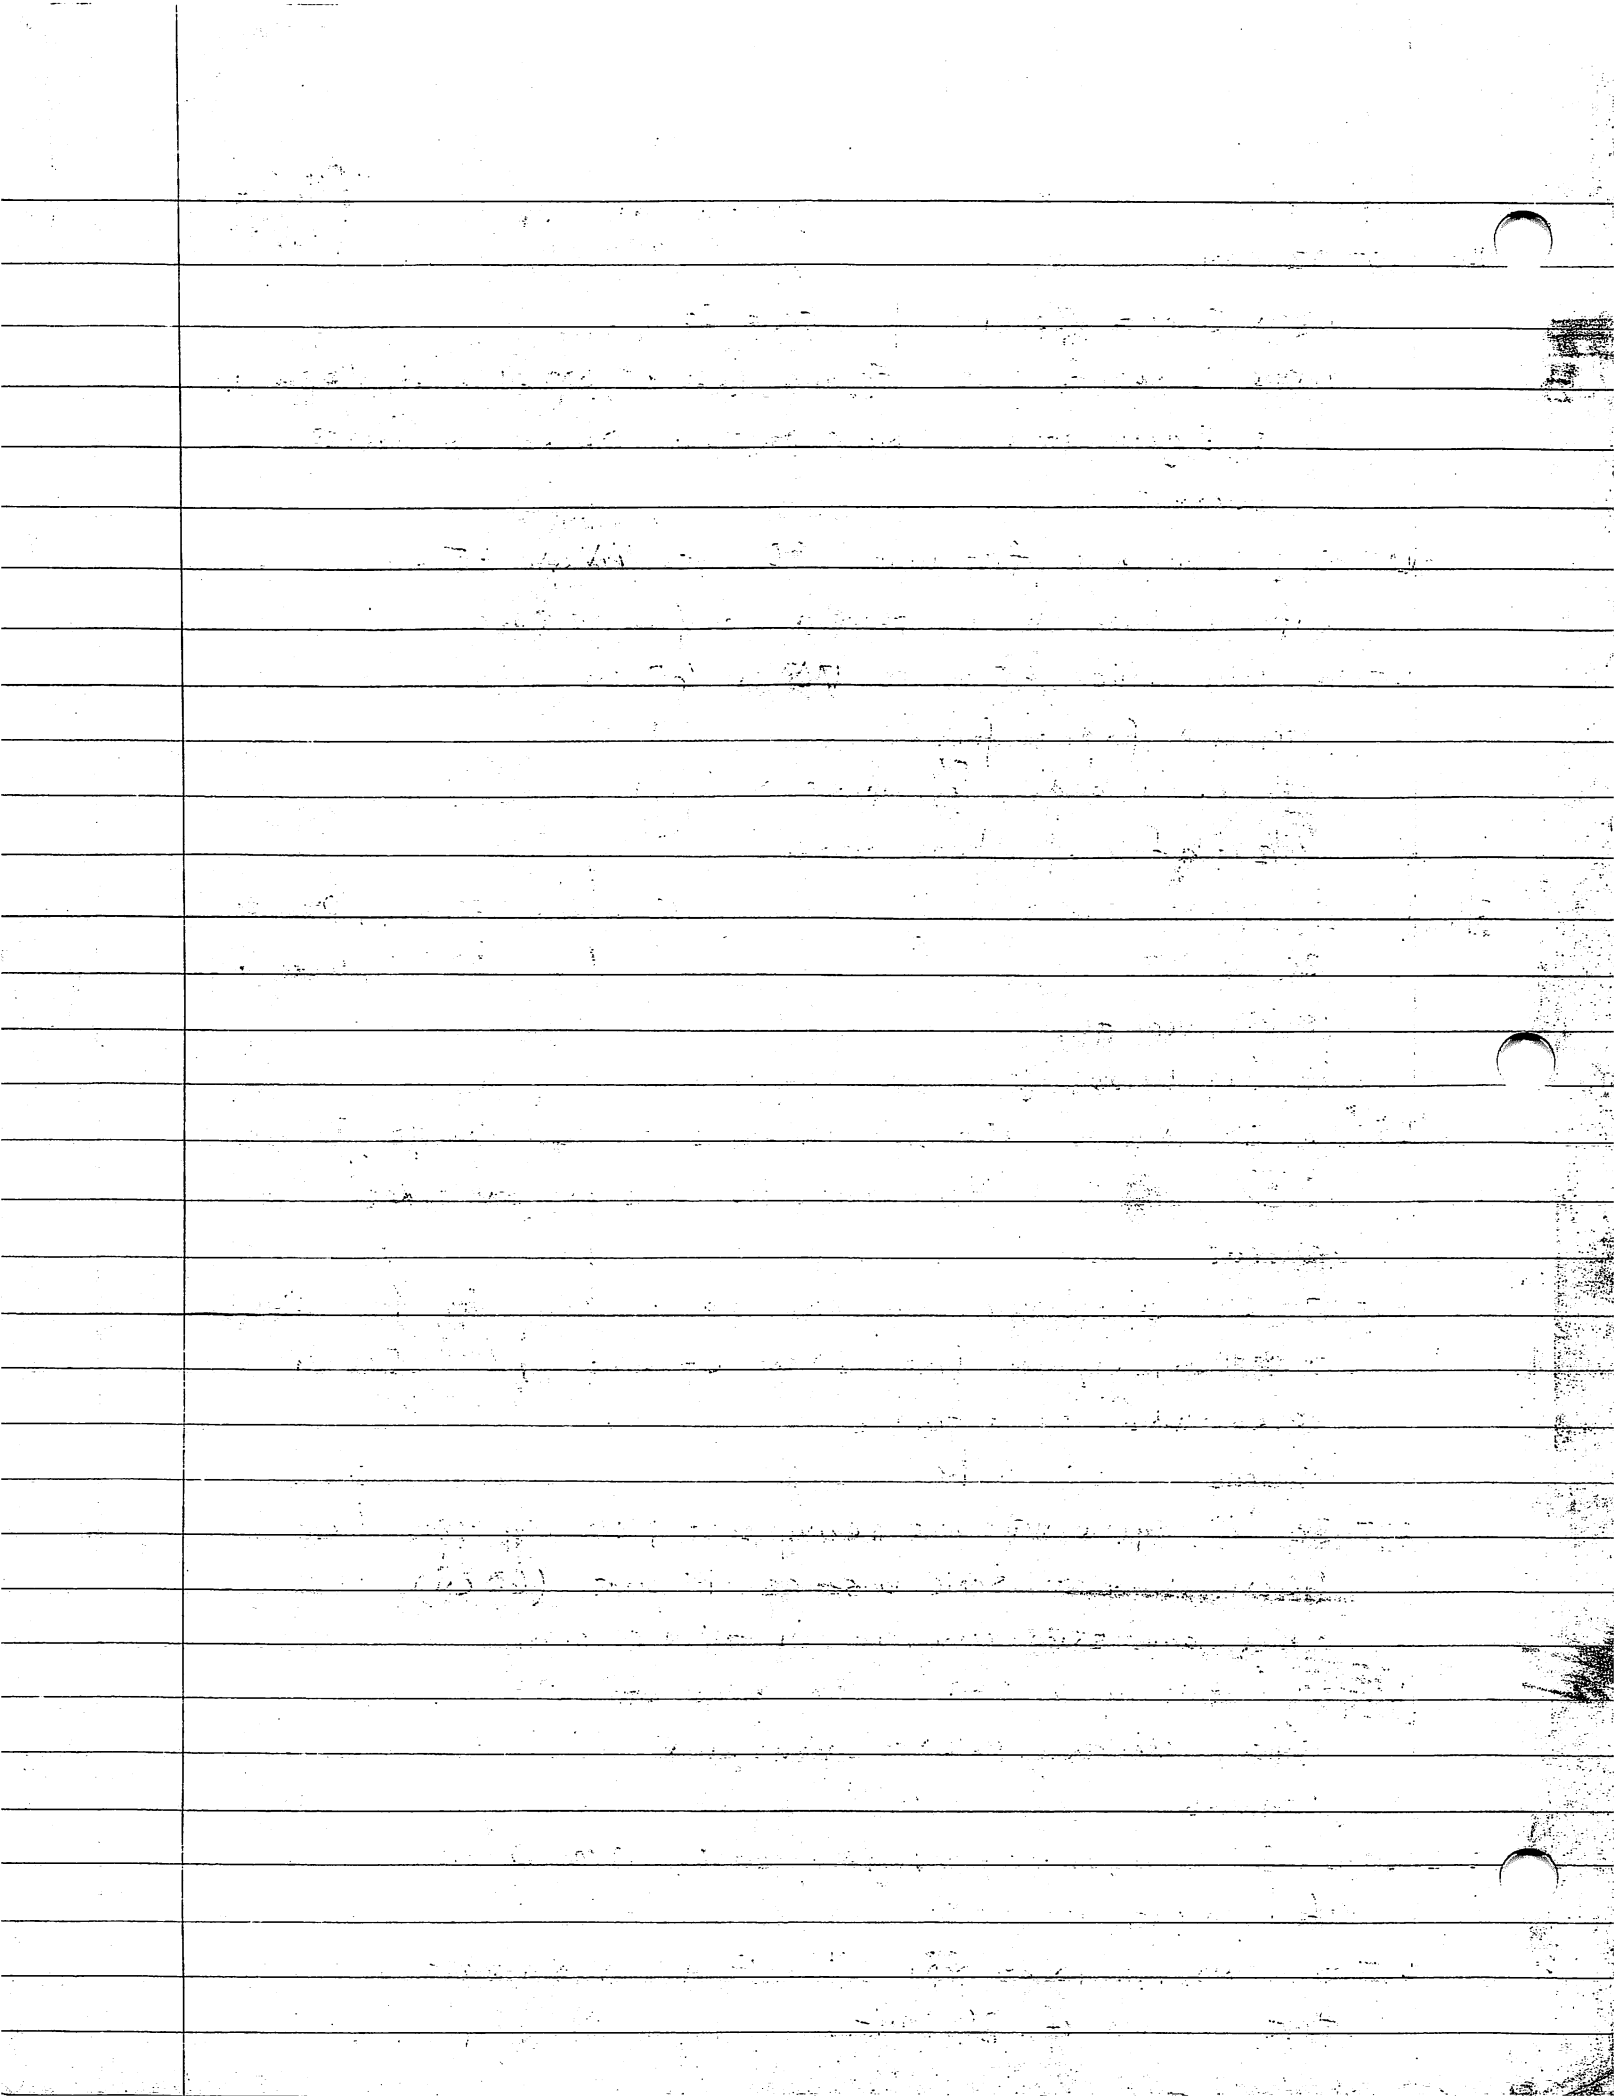

LOT 39: starting at 47 cm from edge of 2nd square unit, clearing rock to base level

- shards

(9) 2/12 LOT 40: 3rd square meter unit going east, 0 to 10 cm

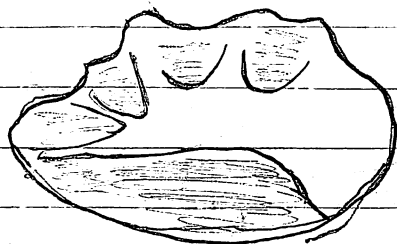

- few shards

LOT 41: removing rocks from 2nd 22 m moving east & first cm of 3rd unit

2/12 LOT 41 CON.

- large chunks of obsidian ~~tumble~~, undefined shape

- shards

- still no clear feature, rocks not in pattern, crazy, still finding shards, obsidian in tumble

LOT 42: 3rd square meter unit moving east, 10 cm to 30 cm depth

- shards, still removing rocks, found 2 large flat rocks

LOT 43: starting at 205 cm from edge of trench measuring east & 25 cm depth going to 221 cm

- removing rocks systematically looking for face of wall / feature

LOT 44: 2 large rocks, flat look like fallen maybe held up & support rotted out first one at 221 cm^E from edge of trench, other at 245 cm

- further one larger lays overlapping corner of first one

- corner of first one broken in two, lying still in place where belong

- moving back from 30 cm deep, 221 cm to

- clearing rock

- both rocks over 1/2 meter long about 8 cm deep

(10)

LOT 45: 4th square meter unit moving east,

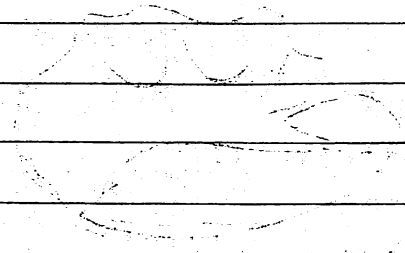

- rain slowing work

- 0 cm to ~ 30 cm hard to measure

LOT 46: 4th meter unit

- removing rocks from 30 cm, moving from front

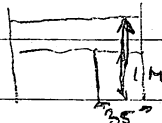

NO apparent shape about 3 1/2 cm
 piece of green obsidian
 smaller 1 1/2 cm blade
 found at 25 cm down

2/12 LOT 46 CON.

found new feature "India", strange wall b/c North side
built w/ small rocks & South w/ large on lowest level

↓ LOT 47: 230 cm from start of trench going east
removing 35 cm starting on south side of trench
1 meter back to India

possible surface b/c many large shards

(4) LOT 48: 5^m square meter east along trench 0 to 20 cm

2/13 rain in early morning, NO major disturbances

Not many shards

LOT 49: 5^m square unit east, 20 cm to 30 cm

many unclear rocks, moving back to last meter in
trench

(12) LOT 50: 6^m unit east dimensions = 100 cm on S, 110 cm on N,
100 cm on W & E 0 cm to 30 cm

very few shards, NO visible rocks yet

datum disappeared over night

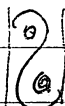

LOT 51: 6^m unit east, meeting w/ west, 30 cm to 43 cm

new datum established by using depth measured by
original North corner datum in unit ~~to~~ going west
west ~~between Spain & Italy~~ depth = 63 cm

new datum in middle of trench

LOT 52: 6^m square meter unit going east cleaning 43 cm
to 63 cm, same level as 6^m unit going west

part of a bird face, possible ocuringa

nice handle w/ S  figure on it

piece of red shirt (SP?)

piece of insinorio

LOT 53: cleaning rock moving west towards India
starting 175 cm west of face of India

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom.

2. In the second part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

3. The third part of the paper is devoted to a discussion of the question of the influence of the external electric field on the energy levels of the atom.

4. In the fourth part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

5. The fifth part of the paper is devoted to a discussion of the question of the influence of the external electric field on the energy levels of the atom.

6. In the sixth part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

7. The seventh part of the paper is devoted to a discussion of the question of the influence of the external electric field on the energy levels of the atom.

8. In the eighth part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

9. The ninth part of the paper is devoted to a discussion of the question of the influence of the external electric field on the energy levels of the atom.

10. In the tenth part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

11. The eleventh part of the paper is devoted to a discussion of the question of the influence of the external electric field on the energy levels of the atom.

12. In the twelfth part, we shall consider the question of the influence of the external magnetic field on the energy levels of the atom.

LOT 53 con. . . lot goes to 65 cm width of India

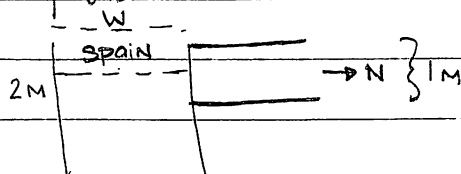

• obsidian blade ~ 3 1/2 cm

2/14

LOT 54

(13)

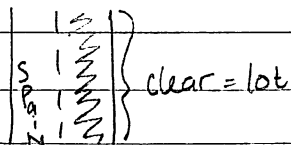

starting new trench going north from Spain feature,
exploring wall

E

• first meter unit N along Spain, 0 cm to 20 cm

LOT 55: first unit N, clearing 20 cm to 50 cm along
Spain from edge of Spain to 50 cm out, 1/2 meter

• piece of INSINARIO

• shards, bajareque

LOT 56: first unit N, 2nd half from 20 cm to 70 cm
deep along Spain 30 cm east

• continuing along Spain looking for corner

• top (small piece) of acorina  looks like a
Mohawk

(14)

LOT 57: continuing north along Spain, 2nd square meter
unit, 0 cm to 20 cm:

• shards

• large rocks looks like marks corner of Spain

LOT 58: 20 cm to (70 cm)?, along Spain clearing
30 cm to east

• small piece of skull found at 46 cm depth,
56 cm east of Spain on edge of unit 1;
unit 2 in tumble of trench going north

10th March 1954

Dear Mr. [Name]

I have received your letter of the 10th March 1954 regarding the [Subject]

I am sorry that I cannot give you a more definite answer at this time, but the matter is still under consideration.

Yours faithfully,
[Signature]

I am sure you will understand the need for this delay.

to 50 cm

p 968410

2/14 Lot 38 con...

possible to find small piece of bone, all mixed in dirt

• handle

LOT 39 : 124 cm by 50 cm starting 50 cm deep mostly

unit 2, north partly unit 1 (24 cm)

• obsidian blade

(15) LOT 40 - 3rd unit north along trench, Spine, only

1/2 meter 0 cm to 35 cm

looking for corner, still in.

• early morning, going to be hot

• obsidian ~ 2 cm long

• trench moving along spine feature of structure 12 going

north from original E-W trench over top of structure 12

LOT 41 - 3rd unit north along Spine, only 1/2 m by m, 35 cm

to 60 cm depth

• small chip - dark

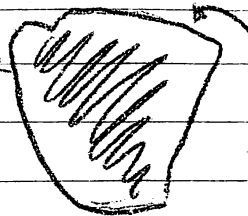

a blade

• shards

• line of wall crumbling

• obsidian blade ~ 2 1/2 cm

within in top

extremely sharp edge, like

| 2nd obsidian blade, long w/

(16)

LOT 42 4m = spine meter unit north along spine of structure 12

0 cm to depth

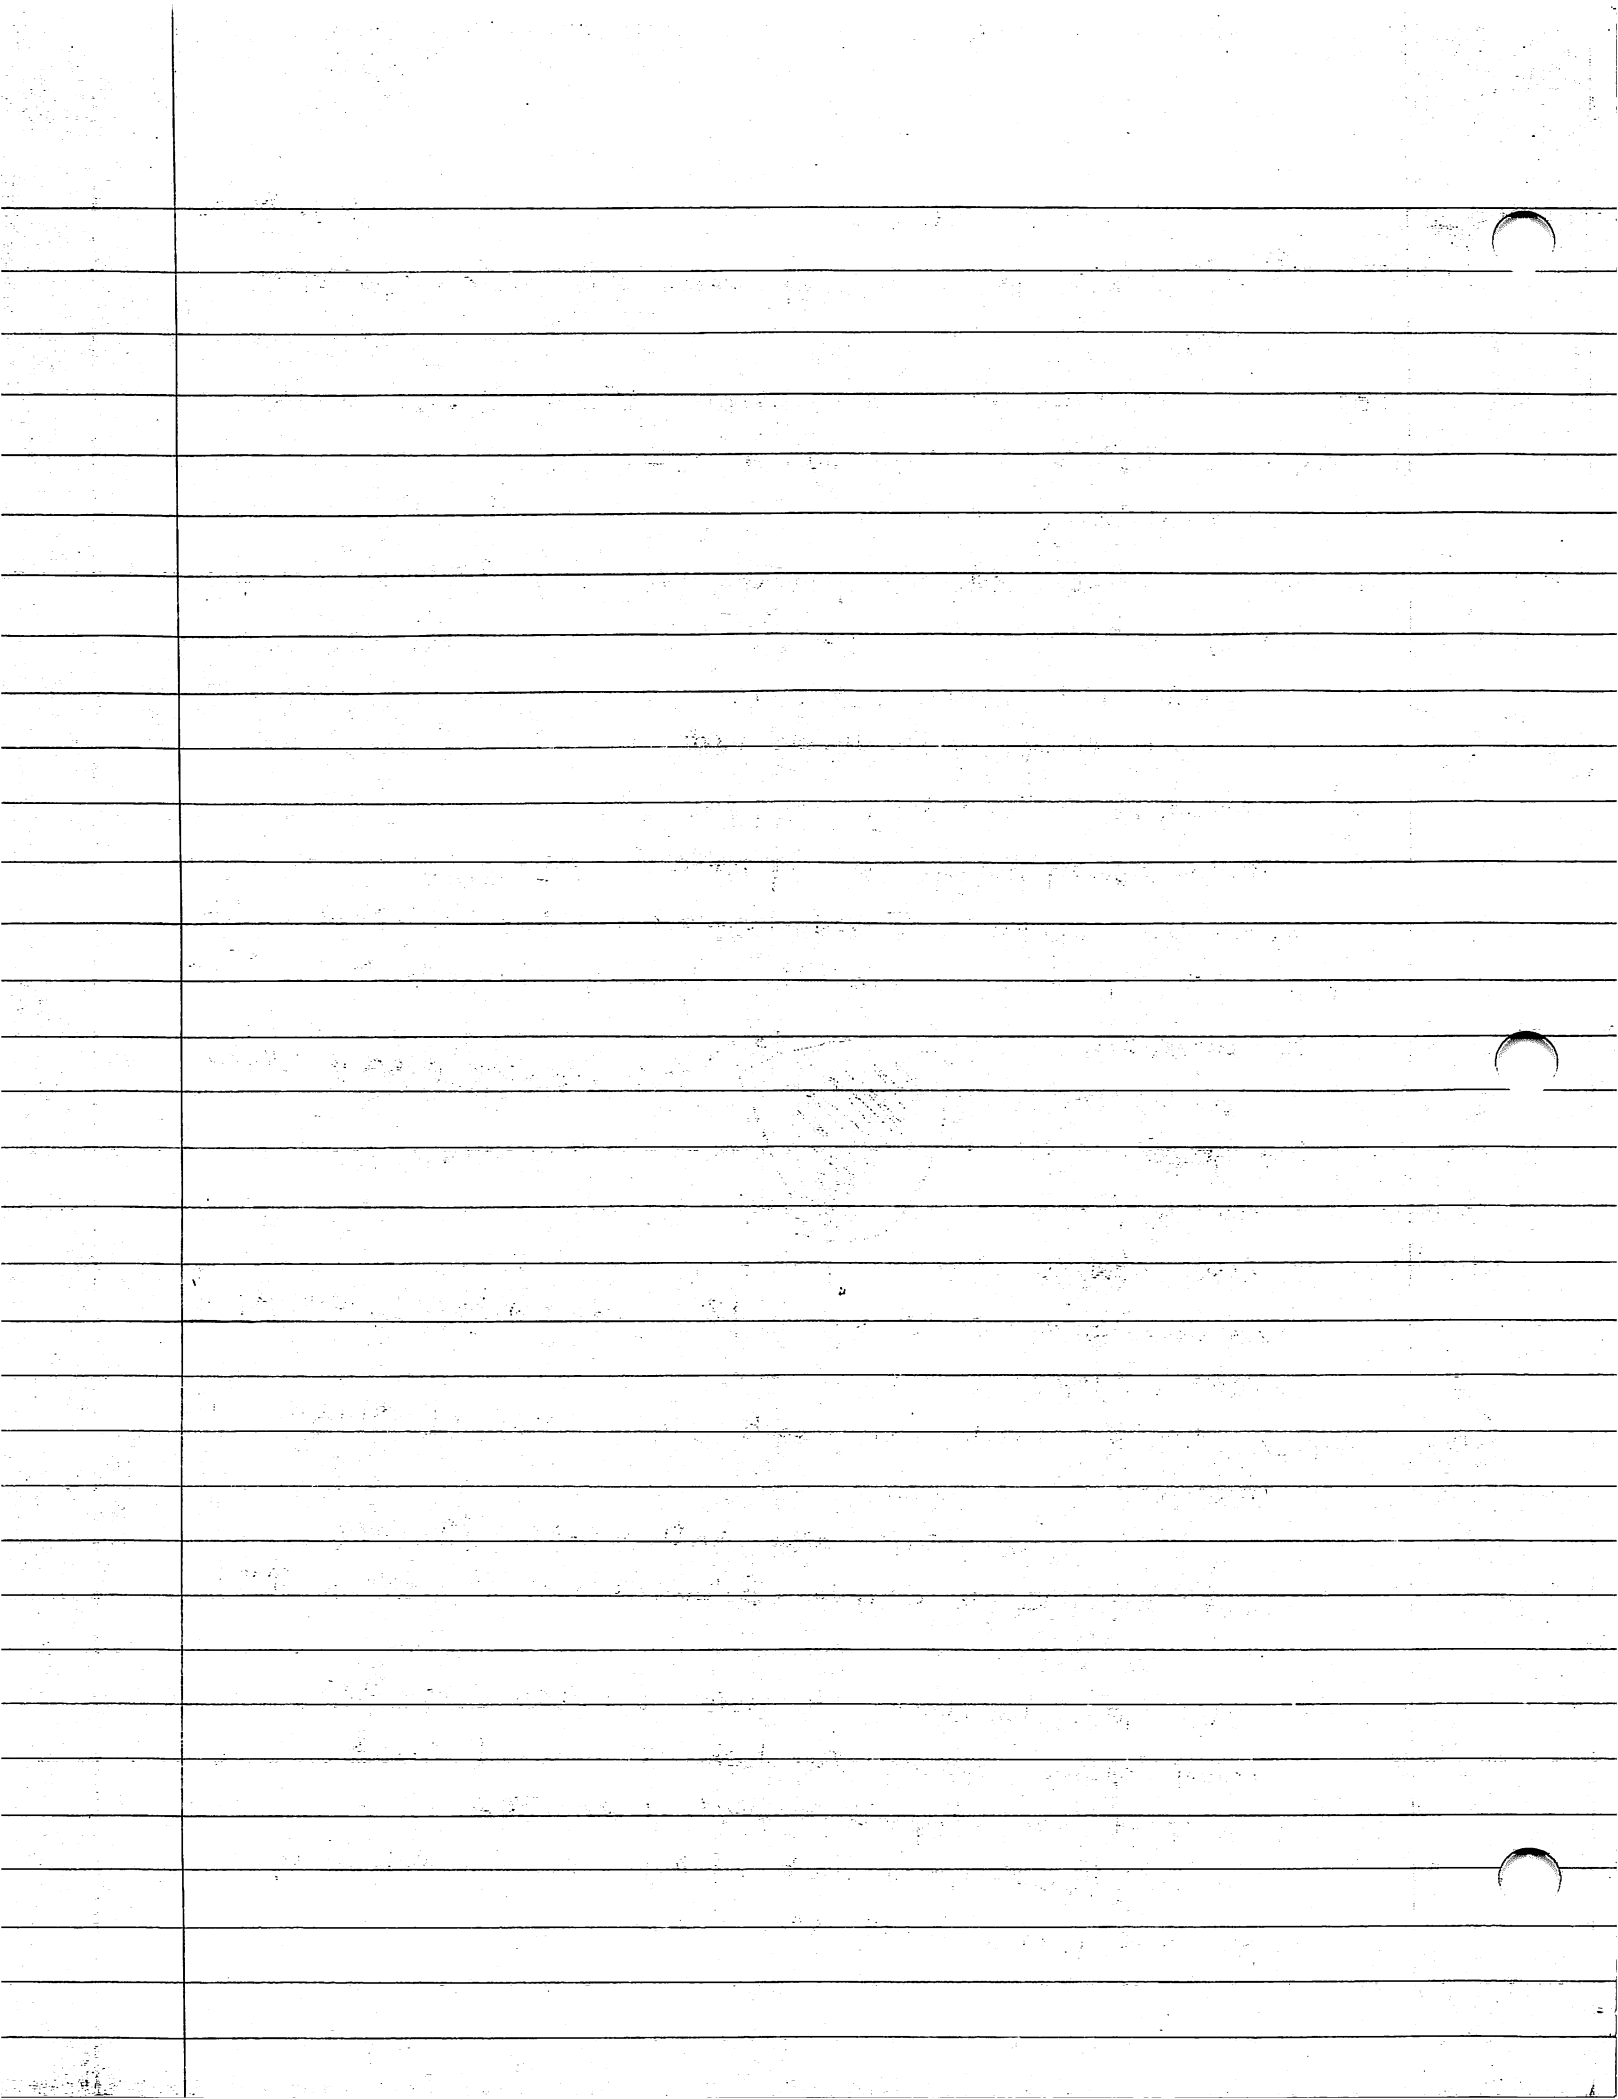

going to clear this meter & then one towards

west to make sure can follow corner, assuming find it

also going to clear 1/2 meter on east of this trench along spine to look at line of rocks

that start in original trench over top

carbon, found within first 20 cm deep, most likely recent, not from original structure

p 96 84 11

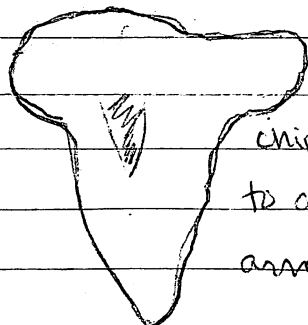

4/5 LOT 62 CON...

removing huge roots, not finding any large wall rocks yet but only at about 20 cm

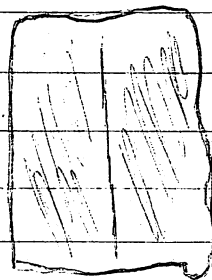

• small obsidian point, 2 blades, provenience unknown, mixed with fill ~ 30 cm deep

• small animal bone

• nice thick chunk of obsidian

chip stone; shaped to a point like an arrow = projectile point

4cm

3cm

thickness = ~ 5mm

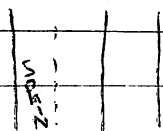

• another (#5) small obsidian chip

• possibly hit a small midden, just on edge of structure

• lot goes to ~~depth~~ depth of 46 cm

(17)

LOT 63 unit 5 on northern trench running along Spain, extension of 50 cm from unit 1

dimensions = 50 cm by 100 cm

new unit

• tracing possible line found in 2nd square meter unit in trench E → W over structure 12

• depth 0 cm to 30 cm

• shards

LOT 64: UNIT 5, extending down 30 cm to 60 cm

• one huge rim of a pot, rim = 4 cm, section found of rim = 20 cm, whole shard about 8 cm across

• chunk of a mill/grinding stone

• 2nd bag of shards (2nd day)

• bajareque on floor

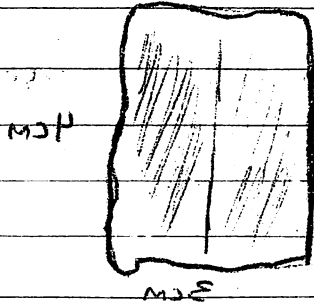

2/16

11 Feb 11

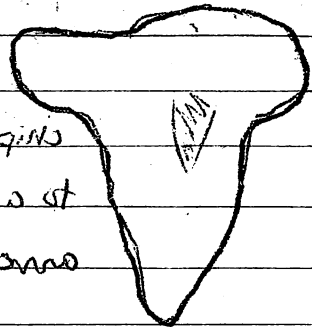

the lot is con.

removed large roots, not found any large roots
 let out soil at about 20 cm
 small operation point, 5 places, distance unknown,
 mixed with fill ~ 30 cm deep
 small animal bones

mm 2 ~ 22 cm

chip zone, not given
 to a point like a
 known = projecting point

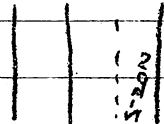

small operation chip (#2) unknown

located in a small within, not on edge of
 structure

lot goes to edge of 40 cm

lot is unit 2 on northern fence remaining ground
 again, extension of 20 cm from unit 1

dimensions = 20 cm by 100 cm

unit 1

found possible line found in 2nd edge within
 unit in front of structure is

depth 0 cm to 30 cm

lot is unit 2, extension about 30 cm to 60 cm

one side of a lot, rim = 4 cm, section found
 of rim = 50 cm, whole area about 8 cm across

chunk of a well/round stone

2nd part of stone (5th part)

projecting on floor

2/16 LOT 64 CON.

- bajareque floor at 56 cm deep

LOT 65

(18)

- 6^m unit north, 50 cm extension to unit 2 of north trench along Spain feature of structure 12
- 0 cm ~~to~~ to 30 cm depth
- following bajareque floor is possible line

- shards

LOT 66: 6^m unit north, ~~50~~⁴⁶ cm extension to unit 2 along Spain following Poland, 30 cm to ~~40~~⁴⁶ cm depth or bajareque if we ~~will~~ find some

- just learned that "bajareque floor" is not a floor made of bajareque but is burnt earth, "bajareque" color & texture from having fire over it
- in lot 65 found ~~burnt~~ burnt earth, not bajareque floor

- obsidian blade

- shards

- rocky, no continuation of burnt earth, unclear finish to Poland

(19) LOT 67: unit 1A west, following Spain at ^N corner, 1 square meter going west over structure 12, 0 cm to 30 cm

- shards

- obsidian chip

LOT 68: unit 1A west, following Spain from N corner, west along outside of structure 12, 30 cm to 45 cm

- obsidian blades (2)

- nice piece of a red slip w/ black paint cup ring
- perfect for afternoon tea

- shards

- found corner is followed wall

(20?)

Page 1, line 10, "The first part of the paper is devoted to a discussion of the problem of the existence of a solution of the system of equations (1) for a given set of initial conditions."
 Page 2, line 10, "The second part of the paper is devoted to a discussion of the problem of the existence of a solution of the system of equations (1) for a given set of initial conditions."

$\frac{1}{\sqrt{2}} \begin{pmatrix} 1 & -i \\ 0 & 1 \end{pmatrix}$ is unitary because $\left(\frac{1}{\sqrt{2}} \begin{pmatrix} 1 & -i \\ 0 & 1 \end{pmatrix} \right)^H = \frac{1}{\sqrt{2}} \begin{pmatrix} 1 & 0 \\ i & 1 \end{pmatrix}$

2/19 LOT 69: 1 meter square unit extending north from India
in structure 12

- unsure about wall & what seems to be a line of rocks ~~was~~ || right in front of India

- 0 cm to 20 cm depth
- shards

LOT 70: 1 meter square unit, extending north along India,
20 cm to 50 cm

- removing tumble, following line of wall

- monkey head, hand on nose (?)

- shards

- large shards near base of wall, caught in tumble

- still have a possible line running ||

- small monkey face, looks like was part of a pot, maybe decoration - could be bird

LOT 71: 2nd square meter unit going north along India
0 cm to 24 cm

- shards

- nothing thrilling

LOT 72: 2nd square meter unit north along India,
24 cm to 50 cm

- taking it to same level as 1st unit along India

- large rock at corner of unit, maybe built addition to wall, going to go 1/2 m more to look

- shards

LOT 73: 1/2 meter unit, heading north along India
looking to meet up with Bosnia, 0 cm to ~~15 cm~~ 50 cm

- shards

2/20 LOT 74: ~~1/2 meter unit, 15 cm to 50 cm~~

- shards

~~LOT 75~~

- one square meter unit, from corner of India along Bosnia - east 0 cm to 15 cm

- ~~2 bags of debris~~ shards

LOT 79: same unit working from 163 cm to 159 cm from Spain & France corner in structure 12, 30 cm depth to see next page

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 1, 1861. It is a very important document, as it sets out the President's policy for the new year. The President states that he is pleased to see the Congress assembled, and that he is confident that the country is in a good position to meet the challenges of the future. He also states that he is committed to the principles of liberty and justice for all, and that he will do everything in his power to protect these principles.

2. The second part of the document is a report from the Secretary of the Treasury, dated January 1, 1861. It provides a detailed account of the financial state of the country, and includes information on the national debt, the federal budget, and the state of the economy. The Secretary states that the country is in a sound financial position, and that the government is committed to maintaining this position.

3. The third part of the document is a report from the Secretary of the Interior, dated January 1, 1861. It provides a detailed account of the state of the public lands, and includes information on the land survey, the land sale, and the management of the public lands. The Secretary states that the public lands are in a good state of preservation, and that the government is committed to protecting these lands for the benefit of the people.

4. The fourth part of the document is a report from the Secretary of the War, dated January 1, 1861. It provides a detailed account of the state of the military, and includes information on the army, the navy, and the militia. The Secretary states that the military is in a good state of readiness, and that the government is committed to defending the country against any threat.

5. The fifth part of the document is a report from the Secretary of the State, dated January 1, 1861. It provides a detailed account of the state of the foreign relations, and includes information on the diplomatic corps, the treaties, and the international law. The Secretary states that the country is in a good position to maintain its international relations, and that the government is committed to promoting peace and stability in the world.
