PROYECTO VALLE DE CACAULAPA
CATALOG FORM

DATE: 15 July 2005

LOT NUMBER: PVN 202 AB/Ø12

SUBSTANCE: Ceramic

OBJECT: Worked sherd

CATALOG #: 202 AB/Ø12 - 2

MULTIPLES? no

DRAWN BY: GG

PASTE GROUP (for ceramics):

EXCAVATOR:

CATALOGED BY: GG

MAXIMUM--HGT/LENGTH: 2.6 cm

WIDTH: 2.0 cm

THICKNESS: .6 cm

VERBAL DESCRIPTION: This worked sherd is intact (y) - n. (minus ^{one} the champed point)

If no, approximately what percentage is preserved (give a number):

The shape of this object is approximately triangular - square - rectangular - oval - tear-drop - other (describe):

A scribed/lightly incised line demarcating the circumference is visible: y - n

The margin/edge was chipped to form the item: y - n (probably though if has all been smoothed)

The margin/edge was deliberately ground to smooth it: (y) - n

The margin/edge is smoothed from use: (y) - n

There is other use wear visible: (y) - n

Trace the item on the reverse, both frontal view and profile, and show where there is use.

Describe the use: (2) under the overhang there is ~~the~~ made by smoothing

(4) as you approach the chomp, the ~~point~~ top recedes from smoothing

(3) Also, under the knob of there is a rounded groove that does not appear to be from

The type-variety from which this was made is: PN

Comments: This is definitely worked, but it is also very eroded, on both exterior and interior surfaces; however, the use wear is present ~~the~~ over the erosion (not though).

At one point this was obviously a tongue
