PROYECTO SANTA BARBARA

LOT: 3K/4

~~ring~~

CATALOG NUMBER: PSB 3K/4-2

SUBSTANCE: ceramic

OBJECT: scored censer lid frag

CAT. NUMBER

PSB 3K/4-2

The scored side is blackened probably from use.

rim diam 2.8cm

This is a fragment of a scored censer lid. The paste is medium coarse w/ lots of visible inclusions of white, black, red + mica. There is a fairly good sized firing core. The inclusions are also visible on the surfaces. The non scored surface has been smoothed. There is a red/orange point on part of this side of the shard. The scored side seems to have been smoothed before being scored. The scorings are not very deep and of med width looking somewhat like grooves. They run both horizontally and vertically creating square/rectangular areas of varying sizes. There are a few stray scoring marks disrupting the pattern. ~~There~~ There does not seem to be a pattern to which order the lines were made in. Both sides also have cracks on them.

Colors: Paste 10YR 6/5 - light yellowish brown  
Rim 2.5YR 4/8 light red  
Paint 2.5YR 4/8 light red

Thickness: Max 1.83cm Min -1.22cm
