SUBSTANCE: Ceramic

OBJECT: Censer lid fragment

CAT. NUMBER	FULL DESCRIPTION	SS.	PHOTO/DWG NUMBER
3D/2-1 <i>Rim diam 32cm</i>	<p>Censer lid fragment - The fragment contains part of the edge of the lid and has some fairly shallow incision that seems to have been made with a single pronged instrument. There are shiny and white inclusions of small to med size visible on the interior and exterior surfaces but both surfaces are seem to have been smoothed/finished to some degree. The paste is med course and looks to have been partially burnt. The surface color is dark and may be partially due to smoke or burning.</p> <p>The incision seems to consist of horizontal line with diagonal lines running out from or in some cases over them. This seems to indicate that the horizontal lines were probably made first.</p> <p>Color:</p> <ul style="list-style-type: none"> exterior surface: 2.5 YR 3/0 very dark gray interior surface 7.5 YR 4.5/2 brown paste 7.5 YR 3/0 very dark gray
