This strap censor handle fragment is 6.50cm long, 3.09cm wide, and 1.10cm thick. The paste is fine with few visible inclusions. There is a very dark firing core. The paste color is (5YR5/6) yellowish red. The surface is smoothed and there is evidence of this on the surface (marks as if a hard object was rubbed on the surface). The right end of the fragment seems to be where the handle was joined to another part of the censor.
