SUBSTANCE: Ceramic

OBJECT: Censor Fragment

LOT: 5C/22-1

CAT. NUMBER	FULL DESCRIPTION	CAT. BY	PHOTO/DRAWING
PSB 5C/22-1	<p>Censor fragments: Large flat fragment. The top is incised with six lines on it. The incisions run parallel to each other (3 and 3) marking the sherd face off into rectangular (roughly) quadrants. The incisions were made with some sort of fasceted tool this makes little grooves in the incision and makes one side of the incision steeper than the other, most of the grooves are on this steeper side. Next to one of the length wise incisions there is a deep gouge about an inch long. This causes the nearby incision to bend off its straight path. (See drawing)</p> <p>The backside of the sherd is pretty smooth and is unadorned. There are some <del>small</del> small inclusions, some white and many shiny (possibly mica). Fairly coarse paste</p> <p>Colors: inner surface (back): reddish yellow 5YR 7/8          outer surface (top): yellowish red 5YR 5/6          paste: yellowish brown 10YR 5/4</p>	SS	AEC
