PSB106C/33-2	<p>This is a fragment of a scored censer lid rim. It does not join with but is possibly from the same censer as 106C/33. It has med coarse to coarse paste w/ visible white and black inclusions and a firing core. The interior surface has been smoothed. The exterior surface also seems to have been somewhat smoothed before being scored. The scoring is not very deep and a little wide looking a bit like grooving. The lines run both horizontally and vertically but in one place there is a vertical (diagonal) line running in the opposite direction of the others forming an X.</p> <p>Thickness: 0.95cm.</p> <p>Colors: Paste: 10YR 7.5/6 yellow Unscored surface 10YR 6.5/2 light brownish gray Scored surface 7.5YR 3/0 very dark gray</p>	6	6
