PHOTO. NO.

334 B/17-1

Pierced Ladel censer frag. with remnants of 5 holes and one entire hole. The entire hole appears pierced from both sides because the hole narrows to the centre; this isn't evident on the parts of holes, although the holes have lips on both sides (surfaces); unlike some other sherds that only have a lip on one side.

Paste is fine but grainy with inclusions of various sizes appearing white; dk. grey; orange; and mica or quartz.
