BRONZE BYZANTINE BUCKLE

The buckle, cast in one piece, consists of a pointed openwork plate in the form of an enclosed cross, with an oval loop. A curved tongue is attached to the loop; on the back are three rings for attachment to a belt.

The borders of the plate are decorated with an incised wreath; in the center of the cross is an incised dot-and-circle surrounded by 'rays.'

Length: 2 1/8"

5th-6th c.

Purchased from Tetragon, London, on October 24, 1992, for \$82.
