MT. UNION DEFEATS KENONY ON TRACK

Gambier Team Takes Several Firsts, But Loses By Ten Points, Score 58-48

Lack of Runners to Take Second and Third Places Is Cause of Kenyon's Defeat

Mr. Union defeated Kenyon's track team in the first meet of the season, May 5, by a score of 58 to 48. The meet was closely contested, and Kenyon won several firsts, but Mr. Union placed enough men in seconds and thirds to win out.

Kenyon took first place in the hundred-yard dash, the mile run, the 220-yard dash, the 120-yard hurdles, and the broad jump and two mile run, but got only four second places, and one third.

A number of new men were in Kenyon's uniform, and won several points for the team. By special agreement, the pole vault and javelin throw were omitted.

A wet track and bad weather slowed up the runners considerably and the time was slow in all the events.

The results:
100 yard dash—Gallberech, Kenyon, first; Mt. Union, second and third.
Shot Put—Mt. Union, first; F. R. Gunn, Kenyon, second; Mt. Union, third.
High Jump—Mt. Union, first and second; N. F. Slaborn, Kenyon, third.
Mile Run—Gunn, Kenyon, first; Mt. Union, second.
Discus Throw—Mt. Union, first; Gunn, Kenyon, second; Mt. Union, third.
220 yard dash—Gallberech, Kenyon, first; Mt. Union, second and third.
120 yard hurdles—Gunn, Kenyon, first; Mt. Union, second and third.
440 yard dash—Mt. Union, first; Dudley, Kenyon, second; Mt. Union, third.
Half-mile—Mt. Union, first, F. Young, Kenyon, second.
Broad jump—Gallberech, Kenyon, first; Mt. Union, second and third.

Wood Named President of Assembly Over Four Rivals in Close Race

Fourth Ballot Brings Decision By Vote of 56 to 49—Catt Vice-President—Remy Is Chosen as Secretary By Acclamation as May Assembly Chooses Committee Members for Coming Year

Earl M. Wood, '18, was elected President of the Kenyon Assembly in an extremely close race on May 7. Four ballots were necessary to pick a winner from the five candidates in the field.

Warren H. Catt, '18, is the new Vice-President of the Assembly, and A. A. Remy, '18, the Secretary. Members of the Honor, Executive, and Dormitory Committees and the Senior Council were also named by the Assembly.

The five candidates for the presidency were Wood, W. H. Catt, R. H. Slaborn, M. D. Douglass, and L. H. Tate. Before the balloting commenced, President Catt announced that, according to a ruling of the Senior Council, written proxies would be received for students who have left college in the service of the government. A number of such proxies were presented.

The voting was close and exciting. A summary of each ballot is printed on another page. As the low man dropped each time, until a majority was reached, interest increased with each succeeding vote. Catt led on the first ballot, Wood on the second, Catt again on the third, and finally, with all others eliminated, the two candidates ran a neck and neck race. Wood finally winning by a majority of seven, three votes above the 53 needed for a choice. Catt as runner-up, became Vice-President.

President Wood in giving up the chair, thanked the Assembly for the support he had received during the year, stating that the duties he had shouldered had proved real pleasures. He congratulated his successor, and urged that the Assembly yield him full support during his term of office.

President Wood assumed the chair amid cheers for himself and his predecessor. He thanked the Assembly for the office bestowed upon him, and pledged his best efforts in the duties devolving upon him.

A. A. Remy was then elected Secretary by acclamation, being unopposed, and the members of the Honor Executive, and Dormitory Committees and the Senior Council were ratified in the same way.

The new committees are composed as follows:

Senior—T. M. Frazier, '18; A. A. Remy, '18.

NOTED FRENCHMAN SPEAKS AT KENYON

M. Ferdinand Bouisson, a Distinguished Educator, Speaks on the "Spiritual Family"

Lecturer Depicts France United By War, and Lauds Wilson's League of Nations

Deploring a France united by war, and lauding President Wilson's plea for a peaceful league of nations based on democracy, M. Ferdinand Bouisson delivered a striking lecture in Philo Hall on May 4.

M. Bouisson has been for many years prominent in the educational and political circles of France. More than forty years ago he was sent to this country to study the system of free schools and as a result he succeeded in reorganizing primary education in France. He has held a number of high government posts, and is a member of the Legion of Honor.

M. Bouisson spoke of France as a spiritual family, united through conflict. The religious and political differences of the past are forgotten, and Catholic and Protestant, rabbi and priest, fight side by side for their fatherland. The socialists, too, he stated, are fighting in order to destroy war.

As examples of the spirit of France, the lecturer read letters written by soldiers wounded in the fight, letters full of simple heroism and indomitable will.

The speaker paid tribute to the United States as the originator of the common school system, on which the educational system of France is based.

M. Bouisson endorsed heartily the plan of a league of nations to enforce peace. He spoke enthusiastically of President Wilson's outline of such a league; and he declared that such a league of nations, founded upon the firm base of democracy, and supported by liberty, would be, not only desirable, but practicable.

After the lecture a reception was held in East Wing for the lecturer. A number of college songs were sung, in which M. Bouisson expressed great interest. He addressed a few words of thanks to the students, and called forth enthusiastic applause when he said, "As we are now brothers in arms, I hope we may soon also be brothers in victory."

STUDENTS IN CIVIL WAR WENT TO MEET INVAaders

Interesting Incident of Kenyon Life During Conflict Between North and South

Kenyon students during the Civil War once left college hurriedly to repel a threatened invasion of Ohio at Cincinnati, which, however, never occurred.

It was during the early days made by General Morgan, that the alarm was given, and nearly all the students who were left in college by the war rushed to the supposed scene of battle. The incident is mentioned in the Kenyon Book, and a report on it made to the Philanthesian Society immediately after the event was recently found.

TENNIS SCHEDULE IS HIT BY WAR AND RAIN

No Matches Yet Played, Owing to Bad Weather and Unusual Causes By War

The tennis team has as yet been unable to play a single match, owing to a combination of bad weather and the unsettled conditions brought about by the war.

So far, four matches have been cancelled, including one local one with the faculty. Decision cancelled all matches for the next few dates, including the tennis match with Kenyon on April 20; the faculty match on April 25 was not played; bad weather spoiled the meeting with Ohio Wesleyan on April 30.

VOL. XLIII  GAMBIER, OHIO, MAY 9, 1917  NO. 12
CONDITIONS OF RIFLE CLUB SHOOT

Record Shooting for Medal to be Under These Rules

Attention of members of the Rifle Club is called to the following statement of the conditions under which the medal, for which the members of the Club are eligible to compete, may be shot for. The statement has just been received from Washington.

The medal is made of gold and bronze. No member can win the medal twice, and ten or more members must compete in each contest. The medal is not awarded until a report of the contest is made to the N. R. A. The shooting conditions call for ten shots for record at 200 yards, kneeling from standing, rapid fire, time limit 1 and one-half minutes, target D, battle sight; 10 shots for record, slow fire at 300 and 500 yards, prone; target A for 300 yards, and target B for 500 yards. Service rifle, ammunition and targets. Small Arms Manual, U. S. A., 1913, to govern. One-half minute additional time allowed for rapid fire if Krag rifle is used.

It is highly desirable that the medal be awarded to the Kenyon club; a beginning has been made in rapid fire and at the 500 yard range; but unless at least ten enter, no one may compete. Men who hope to qualify as officers, or who may later enlist in any branch of the service, may qualify on the Club range, providing they are members here and now, for the grades of marksman, sharpshooter or expert. No training camp can offer the individual advantages of the Club.

The following scores were shot:

OFFICER LECTURES ON SCIENCE OF WAR
Major P. S. Bond Addresses Audience in Philb Hall, Advocating Universal Service

A lecture on the engineering problems of modern warfare, coupled with a strong plea for universal military training, was delivered recently in Philb Hall by Major P. S. Bond of the United States Army Engineers. The lecturer was brought to Gambier by the joint action of the Science Club and the Lawll lecture committee.

Major Bond urged universal service as the only safe defense for the nation. He showed the past ineffectiveness of the volunteer system, and urged its abandonment.

Numerous pictures were shown to illustrate the work of engineers in an army. Poston bridges, trenches, and trenches were shown under construction, with photographs of heavy artillery and airplanes.

Major Bond stated that the present war has brought forward few successful surprises. Gas attacks, liquid fire, and tanks were characterized as more spectacular than effective.

After the lecture a reception was held for the speaker in West Wing.

CAMPUS GROWS GREEN SLOWLY

Trees Fear Cold Weather, But Grass Gets First Hair-Cut

Cold weather has made the foliage unusually slow in appearing on Gambier Hill and it seems as though the trees will not yet green as long as students continue to wear their overcoats. However, buds are appearing, and the campus authorities are doing all that is in their power to bring about the mild weather.

For instance, the college's one horse power lawn mower was recently overhauled, and made the first trip of the year. At the same time, new trees have been planted along the Path in place of the dead ones which were removed last fall, and a final removal has been made of dead leaves and rubbish. Superintendent Parker reports that everything is in readiness for some warm sunshine.

STUDENTS IN CIVIL WAR

(Continued from Page 1)

The writer of the report tells of the hurried alarm, and the rush to Cincinnati.

He relates a pathetic story of muddy camps, rain, and little food; and tells how in the battle, which never took place, the student heroes returned to their books, having made a campaign of three days and nights.

WIDELY DISCUSSED BOOK IS PLACED IN LIBRARY

"Student in Arms" Tells of College Man's War Experience—Books On England Presented

"The Student in Arms," by Donald Haxey, has recently been put in the college library. This book has attracted wide attention since its recent publication, and is of especial interest to college men. It is a series of essays, telling of the experiences and sensations of an English student in the British army. The book contains unanswerably opinions on war and Christianity, the war and the church, and the personal side of war.

Other books received are:

- The Japanese Nation—Ingo Nitobe.
- To Verdun from the Somme: an American glimpse of the great advance, with an introduction by J. M. Beck—H. E. Brittain.

In addition the library has received a valuable historical set of thirty volumes, the "Historical Memoirs of John Henegro Jese." These books are the gift of the Hon. T. P. Linn, '72, of Columbus. They include the following subjects:

- The Court of England during the Reigh of the Saars—6 volumes.
- The Reigns of William and Mary, Anne, and the Second Georges—4 volumes.
- The Pretenders and their Adherents—9 volumes.
- Historical and Literary Memorials of the City of London—2 volumes.
- King Richard III.
- King George III—5 volumes.
- George Selwyn and his Contemporaries—4 volumes.
- Celebrated Britons—2 volumes.
- The City of London and its Celebritys—3 volumes.

Out of the Past

Below is printed, as being more fully applicable now than when it was first written, an editorial from the Collegian of June, 1898:

"At no time during our college course have the words of the old song, 'Oh, contades, let us now be thinking of those who go forth from these halls,' been so forcibly brought to our minds. The events of the past few weeks have awakened our deepest sympathies from our peaceful academic slumber and have taken away the feeling of calm security.

"When the President issued a call for troops, Kenyon, as in times before, promptly offered her share of the number of men. Though the number sent out be small, in proportion to the total enrollment of the college it is large. Kenyon gave as many as she was able, not grudgingly but freely.

"The students in the larger colleges and universities do not know the effort required to give up our men, who are almost brothers. One does not realize how close to each other the students of Kenyon grow, how great a portion they make up in our daily life, until those come the time of parting.

"It is true that at graduation there is a feeling of regret, but that is tempered by the knowledge that it is possible to meet again upon the Old Hill. To send our men forth to fight for our country is different, we know not what the future may have in store for them. However, it is necessary for us now to keep them in mind, to follow their example if needful, and to show that Kenyon stands ready in pressing times to give the best of her sons. Not actuated by that bravado or self-centered patriotism our men leave, but because they know that they were called, that it was their duty, and that their love for their country should precede all other things."

Business As Usual

During the past month quite a few men have left Kenyon for their government service. We praise them for the fine spirit which prompted them to enter the service of their country at the first moment that need was felt. Doubtless others will leave in the near future.

It has been no easy task in times past for a small college like Kenyon to maintain all the various forms of college activities which the larger institutions enjoy. It has, however, always been done. Under present and future circumstances it will be a harder task than ever, but it is highly in keeping with Kenyon spirit that we keep all the departments of college in activity as long as possible.

The sophomore class is to be complimented upon their effort to have a pep despite difficulties. The baseball team have also shown fine spirit in attempting to keep up organization, despite the drill which interferes with the game.

In the future it is conceivable that we will have more drill, in which case it might be impossible to have athletic teams and to enjoy regular college activities. We all feel that these activities should be subordinated to anything we can do for our country. But we also have a duty to perform for our alma mater, in keeping it going full strength as long as possible.

Buy a Revellie

It is the real duty of every student, more so than ever before, to buy a copy of the Revellie when it appears. The problem of getting financial support for the Kenyon year-book is always great, but it will be even greater this year, owing to the number of men who have left college. It involves upon those who remain to give their full support, and prevent a large defect in the funds of the Junior Class.

The duty will, moreover, be a pleasant one. The coming Revellie is going to be a good one, and will be worth the price. It is to be hoped that every student in college will buy a copy.

The Old Order

The usual number of editorials does not appear in this issue of the Collegian, and the cause can be found in the national situation. In times like these, college men are not in the mood to discuss their student affairs and projects. Few, even three months ago, undergraduates were busy writing appeals for better singing, better paths, better literary societies. Such thoughts no longer fill our minds, nor, in consequence, the columns of this journal.

At the same time, college men are not writing much about patriotism, or kindred topics. There is going to be plenty of service for every student to do for the country; but until it is begun, those same men are not talking much about it, if for no other reason, because they are too busy. And so, college men are writing about nothing at all.

JOINT LUNCHEON ARRANGED

Philoamerican and Nu Pi Kappa To Unite at Commencement

Arrangements have been made for a joint luncheon of the Philoamerican and Nu Pi Kappa literary societies at noon on the Tuesday of Commencement week, June 19.

This rather unusual event is the outcome of the amicable relations that have existed between the two organizations throughout the present year. The innovation may well establish a precedent, as it is looked upon as a forward step in maintaining a well-attended reunion of the literary societies at Commencement.

SOIL EXPERTS TEST GROUNDS

Ohio State University Professors Advise Cultivation

An inspection of the college domain was made recently by Prof. Charles S. Plumb and Prof. Bachel of the school of Agriculture at Ohio State University. The inspectors took samples of the soil back to Columbus with them, stating that, by employing correct methods, the value of the land can be nearly doubled. The college authorities are very pleased to hear this and, in accordance with it, will be glad to receive helpful suggestions which the O. S. U. professors may offer.

Muskingum College has adopted compulsory military drill.

Civil War Veteran Is Taken by Death

Col. Emory W. Muenscher, '50, Passes Away--Brilliant in Service in Civil War

Colonel Emory W. Muenscher, '50, A. M., 53, a distinguished graduate of Kenyon College, and a veteran of the Civil War, died at his home in Mansfield, Wis., on April 15. He was stricken by apoplexy while mailing invitations to a patriotic celebration.

Colonel Muenscher was 83 years of age. He was born in Fall River, Mass., in 1834, his father being the Rev. Joseph Muenscher, and his mother Ruth Washburn Muenscher, of Mt. Vernon.

In 1850 Colonel Muenscher graduated from the classical department of Kenyon College, and later, in 1856, from the scientific department of Union College.

On the first call for defenders of the Union, Mr. Muenscher enlisted and was appointed sergeant of Company H, Fourth Ohio Infantry. In 1862 he became a captain, and in January, 1865, lieutenant colonel. Colonel Muenscher served in West Virginia and Maryland, and at the battle of Vicksburg. He commanded the troops that opened the battle of Missionary ridge, and was on the march to the sea. He was wounded but once, at Antietam.

After the surrender of Vicksburg, Col. Muenscher obtained leave of absence, and was married at Gambier to Miss Sarah E. Johnson, of New York City.

After the war Col. Muenscher gained great success as a civil engineer. He was a resident of Minster, Mich., for 32 years, and at the time of his death was serving his seventh term as county surveyor.

Colon. Muenscher was a member of the American Society of Civil Engineers, and the Michigan Society of Civil Engineers, and had served for two years as president of the latter organization. He was a Mason, and was the commander of James F. McGinley post, G. A. R., in 1893, 1895, and from 1903 until the time of his death.

Col. Muenscher is survived by his widow and by two daughters, Miss Josephine and Miss Luther Muenscher.
THE KENYON COLLEGIAN

SOPHOMORE HON EVENING OF MAY 11

Plans to Discontinue Dance Drapped and Original Arrangements Will Be Carried Out

Unless the unexpected happens the annual Sophomore Hop will be held on May 11. It is planned to make this the best dance which has ever been given at Kenyon, and no pains will be spared to carry out the plan.

The general scheme of decoration will be the same as last year. However, there will be a few minor changes. In place of the black and white of last year, the colors will be mauve and white. Evergreen boughs will be used for the decorations at the side, but the arrangement will be somewhat different from last year.

Julius Fischer has been engaged as usual, and will conduct Johnstown's seven-piece orchestra. A program of twenty dances has been arranged and will probably be completed at the last minute.

Refreshments will of course be served, but their exact nature has not yet been determined. The program will be of a green-brown leather, and will be about the snappiest which has yet been used at a Kenyon dance. Those of the ladies will be arranged for use as picture frames and those of the men as cigarette cases.

The Puff and Powder Club has been engaged to put on a play, "The Aviator," to take the place of the minstrel show which was to have been put on at the Informal. The play will begin at a quarter of eight, so that there will be more time for dancing afterward. Since the Informal will be on Saturday night, dancing can only last till twelve and the change in the time of the play should add greatly to the pleasure of the evening. Another innovation is also planned for the Informal, namely, the engagement of Sapp's Orchestra which is "there" when it comes to "pay" in music. The men around college who have heard this orchestra say that it is second only to that of Johnstown even when conducted by Fischer. In addition to the music which we have already heard them play, the orchestra have worked out several surprises or rather sensations, for the occasion.

There was some agitation to discontinue the Hop this year because of the war, but it has been decided to carry out the original plans. There was some talk also of cutting down on expenses but the Class has voted in favor not only of the original plans or music, but also to have the best dance yet. It is now up to them not to disappoint the College.

KErNOX COX SPEAKS ON THE "VENETIANS"

Distinguished American Painter Delivers Lecture on Works of Venetian School

An interesting lecture on "The Venetians" was delivered in Philo Hall on April 25, by Kenyon Cox, the well-known American painter and artist. The lecture was illustrated with lantern slides of famous paintings.

Mr. Cox traced the development of the Venetian school, which, he stated, began and ended later than the other great art periods. His first poetic dreamy period passed into the harsh, cold characteristics of his later life; but in his last years a new, strange spirit of genius flamed up again.

In Tintoretto the lecturer found as much to admire as Rubens, and he pointed out the artist's many shortcomings; yet at the same time he admitted the picture to be a great and beautiful artist.

In Veronese, Mr. Cox found much to admire, stating that his high fame as a decorator had detracted unjustly from his reputation as a painter.

Among the later artists of the school Mr. Cox singled out Tiepolo as prominent. In a time of triviality, he said, this painter showed such genius that in a more worthy age he could have done anything.

LETTERS RECEIVED FROM FRANCE

J. A. Gregg, '14, Writes of Experiences As Ambulance Driver

Several letters have been received by students from J. A. Gregg, '14, who is serving as an ambulance driver on the French front. Mr. Gregg reached France last winter, and has been in active service for some time.

The letters describe work under bombardment, and tell of several thrilling experiences and narrow escapes.

Mr. Gregg is in the private ambulance service of Richard Norton of Cleveland. The French government recently awarded the Cross of the Legion of Honor to Mr. Norton for his services in this capacity.

Oberlin girls numbering 800 will receive college credit for Red Cross work.

ALUMNUS BRINGS FORTH REBUS ON THE KAISER

The Rev. J. B. Myers, '00, Sees War End on January 31, 1918

According to a rebus explained by the Rev. Benjamin Myers, Kenyon, '00, and rector of St. Paul's Episcopal Church, Mattins Ferry, Ohio, says the Cleveland Leader, the world war will end January 31, 1918. The reckoning also brings out Kaiser Wilhelm as the omnipotent beast-man referred to in the thirteenth chapter of Revelations. The verse reads: "Here is wisdom. Let him that hath understanding count the number of the beast; for it is the number of a man: and his number is six hundred thirty score and six."

To get the number 666 as mentioned in the Bible the Reverend Mr. Myers numbers the letters of the alphabet. He numbers "A" as one, "B" as two, and so forth. "K" is the eleventh letter, "A" the first, "I" the ninth, "S" the twentieth, "E" the sixth and "R" the eighteenth. Add six to the right side of each of the numbers and their total is 666. The six is added because there are six letters in "Kaiser."

The columns arranged would be:

<table>
<thead>
<tr>
<th>K</th>
<th>116</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>16</td>

</tr>
<tr>
<td>S</td>
<td>196</td>
</tr>
<tr>
<td>E</td>
<td>56</td>
</tr>
<tr>
<td>R</td>
<td>186</td>
</tr>
</tbody>
</table>

Total: 666 = Kaiser

In the fifth verse of the same chapter it is stated: "And there was given unto him a mouth speaking great things and blasphemies; and power was given unto him to continue forty and two months." Since the war really began August 1, 1914, when Germany declared war on Russia and attacked Luxembourg, the Reverend Mr. Myers claims that the war will end in 1918 when the three and one-half years will have been ended.

COMMUNICATIONS FROM WAR DEPARTMENT ARE ANNOUNCED

President Peirce Reads Military Notices at Commons

Announcement that enlistments in the auxiliary naval forces had been suspended was made by President Peirce at the Commons on April 28, according to a notice from Washington. Dr. Peirce stated that this was in accordance with government plans, which were not yet ready to take care of this branch of the service.

A request was also read, urging that all students who could do so should enter into farm work.

President Peirce stated that the Council of National Defense, excluding nearly all the college presidents in the country would meet in Washington on May 4 and 5, and that he would attend the meeting. The questions of getting college men into the branch of service in which they can do the most good will be discussed by the council.

Four hundred girls have enrolled in the Red Cross training classes at the University of Indiana, and at the University of Oregon 300 girls have responded to the call.

Columbia Ambulance Unit

Columbia is planning to equip and maintain an ambulance unit of the American Red Cross. The unit will be composed exclusively of Columbia men and the cost will be met by subscription from the students.

Many Edits

The University of Michigan has over 400 enlisted students. One hundred and sixty of these have enlisted in the Michigan naval militia, and the remainder are divided among the coast guard, the signal corps, the hospital corps, and the national guard.

Training Corps

At the University of Iowa, between 300 and 400 men have applied for admission to the Officers' Reserve Corps. Recently 63 members of the faculty and administrative staff lined up at the armory and took their first instruction in movements of the soldier.

FISHING BECOMES POPULAR

Welders of Red and Lime Insect
Banks of Kukosing

Fishing has undergone a great re-

vival at Kenyon with the advent of

Spring; and large catches of bass have

been made, or at least reported.

Fish seem to be plentiful in the

river, and this has encouraged the
disciples of St. Isaac. The old dam

and several wagon bridges are the fa-
vorite spots for the pursuit of the

sport.

RELIGIOUS BOARD AT BEXLEY

Diocesan Education Committee Meets
—Reception for Postulants

A meeting of the Board of Religious
Education of the Diocese of Ohio was

held in Gambier on April 25. Papers

were read, and an address was made

by Dr. Prince.

A reception for all postulants in

the college was held at Bexley on April

25, to enable them to meet the mem-

bers of the Board.

Bishop Leonard and Bishop Reese

were recently in Gambier, lecturing to

classes at Bexley.

War Saves Harvard $50,000 on Sports

Harvard Athletic Association is

fifty thousand dollars to the good, as

a result of the bugle call that has sum-
mmoned the nation to war. This large

surplus, due to receipts from last sea-

son’s football, remains as a conse-

quence of the abandonment of inter-
collegiate athletics, occasioned by the
entrance of the United States into the

world conflict.

It has been suggested that this sum
be invested in government bonds or
be used in some other way to aid
the nation in the present emergency.
Harvard’s football receipts last fall
were over one hundred and fifty thou-
sand dollars. Out of the remaining
balance, sixty thousand or more has
been expended upon sports which are
not self-sustaining, such as fencing,
soccer, gymnastics, wrestling, swimming
and improvements.

President Speaks

President Peirce delivered the com-
mencement address at the graduating
exercises of the Bladensburg high
school, Friday evening, April 20, 1917.

President Peirce delivered a very
forceful address to the Mt. Vernon
chamber of commerce at its noon-day
luncheon on Wednesday, April 18.

He endorsed, heartily, universal mili-
tary training.

Over 200 students and instructors
at Cornell are taking part in volun-
tary drill being conducted there.
