The invitation so cordially extended by the Editor of the College is accepted with pleasure. This opportunity of reaching the Kenyon constituency—students, alumni, friends—a half of happy possibilities and aspirations for the College glutted endeavors occasionally to comment on certain aspects of Ken- yon affairs. To the readers of the College, its students, faculty, and alumni, through the perspective of the ad- ministration may prove interesting and possibly amusing.

In the college world surveys, and the polls, we enter the world of opinion-poll- ing. To the self-complacent they often provide causes of congratula- tion while the scopes of reform and progress is stimulated more vigorous efforts by the usual results of such a survey, Kenyon men will really reflect upon the distinguishing characteristics of their college and its mission in the field of American education. In all, briefly indicated, are four essential Kenyon tracts:

1. Kenyon is the only College in the entire west historically associated with the Episopal Church. Like other colleges founded by the missionary spirit for educational ob- jects, those Kenyon men have been the Phidippides, First Bishop of Ohio. To the Kenyon men, other colleges have attempted to establish other religious affiliations. In Nebraska, Saint Paul's, Kenyon, Shelby, Baldwin, have passed into history and are now a part of the great horn of school furry growth.

2. The name, Kenyon, is almost the only college for men Wabash and certain Roman Catholic insti- tutions in the state. Its tradition is a tradition in a field where educa- tion and religion are combined.

4. In Ohio Kenyon is conspicuous in maintaining the integrity of the college body to the Board of Trustee degree. Nearly all western institutions credit certain technical positions or teacher-training courses toward the Bachelor's degree but Kenyon carries its inter- esting and valuable college course of four years.

These essential characteristics naturally provide Kenyon men with four articles of an educational creed.

KENYON COLLEGE, GARNER, OHIO, OCTOBER 20, 1928 — NO. 1

DR. REEVES TAKES A YEAR'S VACATION

In Living In Europe With His Family

Dr. and Mrs. Reeves have been traveling abroad this past year. Beginning in France they have established headquarters in Paris and have been traveling about the continent. Doctor Reeves, with a wife and two children have traveled in the highlands and lowlands of the British Isles and in Europe. In Italy they have turned south to the more southern parts of the peninsula. They have returned to Paris for the opening of college next fall after having made a thirteen-month stay in France.

FRATERNAL PLEDGES A LARGE GROUP OF MEN

Fifty-seven Freshmen Don Ribbons As Result of Rushing

The entertainment of freshmen by the various fraternities began this year on Sunday, the 30th of September with the entering of the Pan Helix Council. Every four men of the entering class visited some of chapter pledges during the afternoon and evening of Monday. Rushing parties were held on Monday, Tuesday, and Wednesday nights. And on Wednesday, at eleven o'clock, bids were sent. Before the rush came men from all parts of the college and on the coast of the members of one of the seven fra- ternities represented on the Hill.

This is the third year that the system of deferred rushing has been employed. Superficially, it may seem that the rush week this year will not go very well indeed. Rushing week this year went off much more smoothly and calmly than last year. There is, however, consider- able discontent being voiced against the existing scheme. No one has as yet been able to submit a bet- ter plan, and it looks as though the present rules for deferred rush- ing will apply next year exactly as they have in the past three. There is no doubt that the system has its decided advantages.

Once again this year, Zeta Alpha was permitted open rushing privilege during the last two weeks of the college year. Men in the other fraternities did not permit us to speak unemphatically to new members. The men of this local chapter, in petting their daisies, have spread enough for the Delta to report that they have pledge- seven men, the usual number.

NEW CMOMS NOW GROWING RAPIDLY

Generous gift Announced At Commencement

Cornerstone Laying

Attend by Large Num- ber of Guests

On Thursday, September 20 the cornerstone of the new Physics Hall was laid by the Right Reverend Wil- liam Strickland, Bishop of Ohio, the new building which will be used as a common and club house for Kenyon students. Bishop Strickland, the Bishop of Ohio, was accompanied by the Right Reverend Frank H. Glenn, 36th Presi- dent of Kenyon College; Mr. and Mrs. W. M. Cromwell of New York city.

Despite the prevailing bad weather, a large number of alums re- turned to the Hill to witness this important event in the history of Kenyon College. There was a small student body gathered on the west side of the foundation of the new building, which was fol- lowed by President Petrie, Bishop Sturges, and Bishop Strickland, who proceeded across the campus to the site of the new commons. Dr. Petrie ad- dressed the group and told of the plans for the Hall and the sources from which the money had been derived for its erection. The choir sang "Psalms Chorus," which re- vealed the story of the founding of the college. Following were the brief services, including a reading of the ceremony of a large poplar box which was placed inside the cornerstone. Finally the stone itself was put in place with Bishop Leonard widening the opening so that the phrase "The Thrill to conclude the ser- mon."

Immediately after this ceremony a luncheon was given in Filo Hall to Bishop Strickland and other invited guests. Unfortunately neither of the donors were able to be present, but each sent a representative to express his gratification and both sent tele- grams to the same effect. The speeches which were given were mostly in praise of Dr. Petrie, for whom the commons is named, in appreciation of his splendid work and lasting efforts for Kenyon, and in praise of Mr. Glenn and Mr. Crom- well, who have given this magnificent gift in the college.

The contractors, Cowell and Little, expect to have the basement completely roofed over before winter sets in so that the interior work can begin im- mediately. No definite date has been furnished for the com- pletion of the building, but it is ac- cepted that it will be ready for dedi- cation and Commencement next year, at which time an alumni luncheon will be given in the huge main din- ing hall.

The resources from which the commons is being built are signif- icant, although Mr. Glenn and Mr. Cromwell are supplying the bulk of the money. The Diocese of Ohio is donating a sum of $79,000

So forth of last August. Since land- ing in France they have established headquarters in Paris and have been traveling about the continent. Doctor Reeves, with a wife and two children have traveled in the highlands and lowlands of the British Isles and in Europe. In Italy they have turned south to the more southern parts of the peninsula. They have returned to Paris for the opening of college next fall after having made a thirteen-month stay in France.

M. A. ’23—J. H. Kanoko has left New York City for a year’s study at Harvard.

Box—Rev. James Philip Bercowitz, D.C.L., was ordained to the Priesthood at the Convention held at Gouverneur, N.Y., on Oct. 27th. The Rev. Warren L. Rogers, D.D., was the Ordaining Bishop.

At the graduation of Doctor of Medicine from University of Penn., Dr. J. M. D. Starcher was awarded the degree.

MAHONING VALLEY ALUMNI MEET

The Mahoning Valley Alumni Association, which was organized in April, 1896, held its first dinner and meeting at Wickliffe Inn, Sept. 4th. There were 22 Alumni and 6 M. A. men present, the class represented ranging from 1896 to 1929. Mr. C. B. Soti, president, presented and appointed Mr. A. J. Ashby, 12, classmate. Several speeches and Kenny songs were enjoyed by all. It developed that there are about 100 Alumni in this valley, therefore, the organization should be strong and permanent if members mean anything. Athletics were discussed and the meeting went on record to support the coach in his endeavor to develop winning teams for Kenyon. The organization will welcome any suggestions as to how this support may be given more specifically. It will be this organization’s endeavor to develop the alumni of the Ohio of the great student athletes from this vicinity to go to Kenyon. It is now working on a class of eight.

Some dissatisfaction was expressed by some of the Alumni at the lack of Kenny spirit among the present undergraduates as displayed at the 1927 Homecoming Game and 1926 Commencement. The meeting of the Mahoning Valley Alumni Association will be held in January.

Sheasby’s Garage General Repairing

Gambier, Ohio

WORK STARTED ON REVEILLE

Work on the 1926 Reveille is already well under way, according to Robert Kenyon, editor of the publication. The engraving contract has already been signed with the Babcock Engraving Company of Columbus, Mr. Kenyon stated that the printing contract are being considered and it is expected that a definite choice of these competing houses will be made in the very near future. On the eleventh and twelfth of October a representative of the White Studios of New York was in Gambier. During this time the individual pictures of the upperclass men and football group pictures were taken. Kenyon announced that several radio departures from the customary make-up will be observed in the 1926 Reveille, which, he hopes, will improve the character of the book considerably.

ALUMNI COUNCIL MEETS

The Alumni Council met in Gambier on the week-end of October 17th. The Council arrived on Friday and met of its members remained in Gambier over Sunday. During this visit to the Hill the Council conversed on several occasions, and with several different groups. Mr. Templein, the Secretary of the Alumni Association, announced that the election of the next year will be held Saturday morning of the College, giving a complete and detailed account of the business as transacted by the Council, the decisions that it reached and any proposals that it made. As yet this material is not ready for publication. While in Gambier the members of the Council were able to attend the football game played against Oberlin on Saturday afternoon. At the half-time and rally held by the undergraduates the Council presented the college men at this rally, and in his speech made a plea that the college spirit, which seems to have lapsed recently, be restored.

The Council expressed a great deal of interest and satisfaction in the manner in which the new comers were given up.

INDIANAPOLIS BOARD ELECTS C. C. UNDERWOOD

On August 1st, Clarence C. Underwood, Kenyon ’26, took his new duties as Agriculture Superintendent of Schools in Indianapolis. Mr. Underwood entered Kenyon in 1927 from his A.B. and M.A. degrees here, and did graduate work at Cornell. Mr. Underwood has been Superintendent of Schools in Painesville, Ohio, and Crawford, Indiana. During his stay at Kenyon, Mr. Underwood was a member of the Philomathean Society and president of the Ohio Inter-collegiate Republican club.

RUSSELL DRAKE DIES

Mr. Russell E. Drake, Kenyon, ’22, died at his home, 1326 West 1611 St., Cleveland, on the 14th of last July. He had been ill for nearly a year, but death from complications came unexpectedly.

Mr. Drake was a graduate of Akron Central High School, before entering Kenyon, and after his graduation here he was employed by the Mohawk and India rubber companies in an advertising capacity. About four years ago he left Akron and became interested in promoting commercial business concerns, being employed at the Alexander Hamilton Institute and the Welcome Company. He was with the Welcome company in Cleveland at the time of his death.

BEXLEY NOTES

Beasley Mall Theological Seminary welcomes a new member to its faculty this year. Rev. William Clinton Nick, Kenyon's 19th chaplain, has placed marks vanished by the death of Dr. David F. Davar. Rev. Betta comes here from Christ Church, Springfield. He obtained his Bachelor of Arts degree from Kenyon in 1939, and since that time has yearly of the degrees of Master of Arts, Bachelor of Divinity, and Doctor of Sacred Theology. He is a member of the Delta Pan Delta Fraternity.

Oscar E. Waterhouse, Bishop of Biller, and Charles E. Brey, Dean of the Kenyon Faculty, have returned from Washington, where they attended the Annual General Convention of the Protestant Episcopal Church.

Two new students, Ralph Madison and Stanley Plattenburg, both juniors, have enrolled at Beasley this fall bringing the total number of students to fourteen. This number includes three seniors, six juniors, and five freshmen.

The Beasley Society at this year headed by John Simon, a junior at Beasley Hall.

LOCAL CLERGY PREACH

It has long been the custom for the president to address the student body at 8 a.m. just prior to the first Sunday morning of each college year. In accordance with precedent, Mr. Byer, who delivered the sermon in the Church of the Holy Spirit on Sunday, the first Sunday of September. The Right Rev. William Andrew Leonard, Bishop of Ohio, preceded by the college the following Sunday. And on the last Sunday of October, the Reverend Louis Bailey, rector of St. Mark's Parish and chaplain to the college was in the pulpit.

Electricity opens a new era of ocean travel

Miraculously quiet and vibrationless, luxurious and swift, the new electrically operated S. S. California, largest American-built passenger ship, has opened a new era in ocean travel.

Electricity drives the California so efficiently that the fuel bill for the initial coast-to-coast trip was even less than the Canal tolls.

Electricity masts the winches, bakes the bread, makes the ice, polishes the silver. And electricity cools the cabins and provides passengers with the comforts found in the finest hotels.

Complete electrification makes the California an engineering marvel and a commercial success; it is booked far in advance, a sister ship has just been launched, and another is under construction.

On sea or land, in every walk of life, electricity is in the van of progress. Undreamed of yesterday, the electric ship is a symbol of the electrical industry's part in modern civilization and a prophecy of even greater accomplishment.

THE KENYON COLLEGIAN

Page Five
The junior and senior classes were intensely aroused recently. At the same time the freshmen were quite demoralized. Four times since sophomore class day has been delayed. The occasion was a certain Sunday soon after the commencement—The Fourth of July. It was a day that all Ohioans hope will be repeated, to be exact.

Among the festivities for the seniors, the singing of a song little known, but occasionally sung, the song of the famous former students. The sophomore class stood collectively in the gym to sing with all the spirit and enthusiasm that is "There is a bell for Freshmen." The song started in such a way that there would be no excuse for the class not to participate, and the scraping of the blackboard, which is always there, and the clink of the glasses, did not detract from the spirit of the occasion. The junior class was not far behind. When the socks of the fourth class were needed to make a满意ei, they were produced by force, and the song was finished in a most hearty manner.

The officers for the class of '50 have announced their intention to give a "ring dance" to the class of '51. The dance will take place on the night of the Fourth of July, and the officers are now busily at work to prepare for the occasion. The exact location of the dance has not yet been decided, but it is probable that it will be held in the gymnasium. The seniors have already been given a preview of the arrangements, and they are looking forward to it with much interest.

The freshmen class has also been active in recent days. They have been planning a "ring dance" for the class of '51, and the officers are now busy making arrangements for the occasion. The date of the dance has not yet been announced, but it is probable that it will be held on the Fourth of July.

MRS. WEST ENTERTAINS

On Tuesday afternoon, the 2nd of October, Mrs. West, dedicated a large part of her home to the entertainment of a group of guests. The guests included several members of the faculty, an equal number of guests from Gambier, and Mrs. Hattie Sturgis of Mansfield, who is a relative of the hostess. The entertainment was a most enjoyable one, and the guests were unanimous in their praise of the hostess and her guests.
THE KENYON COLLEGIAN

LAST COMMENCEMENT

very well attended.

The one hundredth Commencement of Kenyon College and Benning Hall took place on Monday, Friday, June 11, with ceremonies commemorating the gradua-
tion of the first class at Benning Hall. A address was given in Philo Hall by the Rev.
George C. Polk, of the Philadelphia Divinity School. In the evening, the Benning Hall to place in College Hall. Several excellent speeches were de-

divered to the banquet by Alumni of Benning Hall and by students.

On Saturday, June 10, the Annual
meeting of the Board of trustees took place in President Peirce’s new reception room. Alumni were
registered in the East Division Par-
or of Middle Kenyon during the day, and in the afternoon several class reunions were held. In the even-
ing, the Class of ’21 presented the

Ten Nights in a Bar Room,” in

Ross Hall, where it was enthralled by a large audience.

At 11:30 a.m. on Sunday, June 11, a celebration of Holy Communion was held in the College Chapel, fol-

lowed by 10:30 by the Ordination Services in the Chapel. One of the interesting events of the week was the K. M. A. reunion held at the College Commons on Sunday even-
ing. Much enthusiasm was evidenced at this reunion, and the former K.

M. A. students promised continued support of the plans made by K. M. A. officers. In the evening, the

Baccalaureate Service was held in the College Chapel where the ser-

vice was by President Peirce.

On Monday, June 18, the Class of ’28 had a corporate Communion in the College Chapel at 7:30. At 9:30, Morning Prayer was read in the Chapel, after which the aca-
demic processions marched to Ascension Hall, where the Renovated Ascension Hall was dedicated by the Rev. William Andrew Leonard, Bishop of Ohio. President Peirce gave an historical outline of the building and use of Ascension Hall. At 10:30, the procession marched to Benning Hall for the One Hundredth Commencement, where forty-nine men received their bachelor’s degrees, four received Master of Arts degrees, ten received degrees in divinity and three men received honorary degrees.

After the granting of degrees President Peirce made several an-

ouncements of interest to all un-
dergraduates. Merit Lists for the first semester of the year 1927-28 were announced, several changes on the Faculty were made, and new members on the Board of Trustees were named. The most interesting announcement, however, was that of the receipt of a letter of donation from Messrs. Cromwell and Ginn, in which funds were granted for the construction of a new College Com-

mons, according to plans drawn up by Alfred Granger. In the afternoon of Monday, June 18, President and Mrs. Peirce were at home to callers; in the evening, the various divisions on the Hill held their banquets; and in the ensuing event, the Junior Reception for the graduating class took place in the form of a dance at Benning Hall in the evening.

FOOTBALL TEAM MAKES POOR EARLY SHOWING

Material Good But Co-ordination Lacking

It can be said without danger of contradiction that the football season has so far been an utter failure. This is not to say that the loss is not real, but two of which it certainly should have won. Both of these games it has lost by large scores, and the reason for the respective losses was the inability of the team members to mesh together in a cohesive game plan. While in theory the team may have been top notch, the actual on-field results have not been reasonably expected to win. It is thus a disgraceful large margin loss where the inferior side, as yet, been discovered—or if it has, the discovery has not yet been made public.

We are certain on one point. And that is that the new coach, Mr. Clinks, is doing everything in his power to reclaim the present unfavorable situation. Any man coaching a team for the first time is bound to do some experimenting. He does not know his men, their former methods of play, or the conditions under which they excel. It is a difficult task for even a coach of great experience to overcome a handicap, and has, in a large measure, succeeded in doing so. His efforts will be supplemented by the men, who are working hard to learn the system under which they are being trained.

The team has been working hard to achieve the desired results. Time and again it has been shown that hard work and practice can make even a mediocre team into a winning team.

KENYON LOSES FIRST GAME

Kenyon lost its initial game of the season to Kent Normal, 35 to 8, at Gambier, Ohio, on Saturday, September 30th. The visiting team earned one touchdown and recovered three fumbles and intercepted a pass and a bloomed. Both teams are members of the Central Ohio Athletic Conference. The game was played at Gambier, Ohio, at 1:30 p.m.

The Bucknell team's expertise in the field has made their opponents second place. The team's defensive strategy is based on its ability to stop the opposing team's offense. The team's success is due to the hard work and dedication of each player.

Kenyon's lost game was against the powerful squad of Kent Normal. The game was held at Gambier, Ohio, on Saturday, September 30th. The game was played in front of a enthusiastic crowd, with the final score being 35 to 8 in favor of Kent Normal.

In the second half of the game, the Bucknell team took control and scored three touchdowns, increasing their lead to 35-8. The team's defense was the key factor in their success, as they were able to stop the Kenyon offense.

The Bucknell team's strong performance in the game was due to the hard work and dedication of each player. Their success is a testament to the power of teamwork and determination.

The Bucknell team's win was a significant victory, as they continued their impressive streak of success. The team's hard work and dedication have paid off, and they are now firmly established as one of the leading teams in the conference.

The game was a testament to the power of teamwork and determination. The Bucknell team's success is a result of the hard work and dedication of each player, and they continue to impress with their strong performance.

THE ROVER

The Rover and Smith campaign managers in Ohio would like to have the sentiment of the college with regard to the forth-coming election reflected by a straw ballot. They would appreciate the co-operation of the college men in this matter.

Kindly detach this ballot, put a check opposite the name of the candidate you approve and drop the ballot in the box which will be placed in the commons for that purpose.

OTTERBEIN WINS, TOO

On Saturday, the 15th of October, Kenyon played Otterbein in its third game of the season. The weather was poor, but the college atmosphere was not, and they beat Otterbein 14-0.

They scored two touchdowns by superior play and a generous gift from a third by a beautifully eight yard run which went through eleven Kenyon men on the strength of his meritorious effort, and not because of any lucky break. And yet Kenyon snubbed Otterbein most of the time. The Kenyon defeat may be attributed to the fact that it has not had a double attack at the punch, that was the morning it was scored, and that every time our team got the ball in a good place they did something about it. Otterbein scored once in the first quarter, once in the third, and spam in the last period. The Kenyon team was a duly and held a determined Otterbein try for a touchdown at the end of the first quarter, and during the third quarter made a strong bid for a touchdown itself. Walking started for Kenyon. He was into every play, and made four tries by the opposing team at all. Much of the credit must go to his line, and it is probable, by his line, he would have been radically different. Upguard at half-back, Elrod at end and Taylor at half-back. The line to the forming, turning in very creditable performances for the day.

Unfortunately, Hughes, Marcus, Upguard and Greenslade all received injuries, and they could not be removed from the game. It is feared that Hughes and Greenslade will be out of the line-up for at least a couple of weeks.

Kenyon's forward pass defense proved itself once again to be one of the weak spots in the team's make-up. Otterbein completed forward passes almost at will, while our team, usually strong in that department, completed comparatively few, and the one that was completed was intercepted.

At times the team looked good, but at other times it looked awful. It was beaten by an inferior team in Otterbein.
