VOL. LVI

KENYON GOES WET ON PROHIBITION BALLOTS

Only 2% Of Students Vote

For Enforcement With

Majority For Repeal

BEXLEY

Strong For Modification:

Faculty Undecided

Kenyon College is decidedly not in favor of the present Eighteenth Amendment to the Constitution. A prohibition poll conducted recently by the College, in which the students of Kenyon and Bexley were asked for their opinions, in fact, revealed that the undergraduate students at both ends of the Hill are predominantly "wet" in sentiment, if not in reality.

This of course proves nothing, nor does it accomplish anything short of to confuse the specious of the connected with the College, yet it is interesting to note in comparison with similar polls taken by colleges in other parts of the country. A poll of fourteen eastern colleges finds their student bodies 76% in favor of modification or repeal; Kenyon boasted that percentage by 82% either "wet" or "marginal," which is almost as close to a unanimous decision as one could hope to get.

THREE ONE ACT PLAYS PRESENTED BY PHILO

Second Dramatic Venture, Under

Lydia R. Wilson, Is Success

On Sunday night, April 13, three one-act plays, "A Gentleman's Life," "The Pathefallon Literacy Society Program," and "The Vicar of Glastonbury," were presented by the Drama Club of Kenyon College. The plays were performed in the College Theatre.

"The Vicar of Glastonbury," directed by Linda Wilson, was the most successful of the three. The play, which is a comedy, was written by George Bernard Shaw, and is a sequel to his famous play, "The Devil's Disciple." The cast was composed of students from the College and the University of Ohio.

"Die Zauberflote," an opera by Mozart, was presented by the College Band and Chorus in the College Theatre. The performance was well-received by the audience, and was followed by a discussion of the opera's themes and significance.

"The Devil's Disciple," was presented by the Drama Club. The play, which is a comedy, was written by George Bernard Shaw, and is a sequel to his famous play, "The Vicar of Glastonbury." The cast was composed of students from the College and the University of Ohio.

PRESIDENT PERCE

TALKS IN MT. VERNON

Predicts New European Alliances in Talk To Chamber of Commerce

Dr. William F. Perce, speaking before a large gathering at the Mt. Vernon Chamber of Commerce luncheon, April 9, predicted the formation of two great new European alliances which will play important parts in international affairs of the future. One, he predicts, will be headed by the ambitious Italy of Mussolini, which will be joined by Bulgaria, Austria, and Hungary. The other, no less powerful, will combine under the leadership of a militaristic France and will include Poland, Russia, Czechoslovakia, and Jugoslavia.

SOPH HOP TO BE HELD ON MAY NINTH-TENTH

McKinney's Cotton Pickers Will Provide Music

The annual Sophomore Hop May 9 is to be held in Fairveil Hall on Friday and Saturday nights, May 9th and 10th. In order to provide a more entertaining program, the Sophomores have engaged the McKinney Cotton Pickers, an outstanding negro orchestra from Detroit. Under the direction of Mr. McKinney, the Cotton Pickers have achieved unusual popularity by means of field hunting, minstrel and violin rendering, and their appearance in Gambier is to be a grand event. While every musician in the group is a highly trained artist, he is also a trained comic, that carefree, unique, and inimitable manner of rendition which has made negro music so popular.

The second year class in fortunate to having started Jim McTahany as class president and chairman of the dance committee.

CARNEGIE FOUNDATION TESTS TO BE GIVEN

Entire College To Take Exams On May 6, 7

In 1928 the Carnegie Foundation for the Advancement of Teaching, in cooperation with the Association of Pennsylvania Colleges, prepared an objective examination for college students which would indicate the extent of the knowledge acquired in a four-year college course. The Kenyon Sophomore class of 1928 took this examination, a year ago, with very interesting results. The Kenyon Faculty has authorized the giving of this test to the junior and senior classes. The test will be given in the afternoon of May 6 and 7.

BISHOP ROGERS GIVES LECTURES IN ENGLAND

Speaks to College From Own Experiences

Kenyon men were able to learn much of England and the English today through the four lectures given in Pills Hall by Bishop W. L. Rogers. In the afternoon and evening of April first and second, Bishop Rogers, by his address, not only highly instructive, but enthralling to an extreme degree, since they were emphasized by a keen wit and a fine understanding of foreign life.

The speaker touched briefly at the beginning of his speech to the effects of his intentions to make a plea for England or the English, but that would be most unwise. He made it clear that he believed he would be both worth-while and amusing. In this respect, he was more than an equal, and men on the Hill owe much to the Bishop for the great deal that he has done in throwing light upon the masters which were the subjects of his talk.

EXTER! EXTER! "PETE" SAYS SENIOR CLASS IS TOO GENTLEMANLY!

DEMANDS COMMISSION OF JACK THE RIPPER, PETROLEUM'S AL CAPONE, AND NERO

Despite difficulties in selecting a cast which will perform with a good feeling and with capacity to pay their own expenses, the production of "Our American Cousin," the annual Senior class outing into the realms of the drama, upon nearly every last, these difficulties, while tremendous, are by no means insurmountable. In fact, following an inspector pointed out by Dr. W. P. "Babst," the principle of "entertainment" is understood by most students, and in this spirit every effort will be made to provide a program which will be in accord with the tastes of the audience.

Mr. Harry Alden, the police commissioner, who has been advising the students on their latest criminal tendencies in the Ray and the Ripper, Petroleum Al Capone, and Nero, after a short visit to New York, was unable to make a list of the principal characters of the original cast were led forth for a breach of soap air, was made with admirable results.

MILLIAN MURMERS

(Continued from page one)

(supra) to do much to the discovery of annihilation of mass in the stars. What most displeased it in these bodies is the evidence of nuclear changes reappeared in the dim recesses of interstellar space from the radiation of radiation back into mass again.

PROHIBITION POLLS

(Continued from page one)

Of the fourteen eastern colleges thirteen voted distinctly wet, with more than 75% in favor of repeal. The poll, of which 36,000 or about 76% were not in favor of repeal. The percentage was almost exactly paralleled by the vote of Berks, which was slightly over 75% in favor of repeal or modification. Individually, the Twenty-Plan were not as far on as the Kenyon poll. Kenyon's votes were cast slightly over 41% for prohibition, and a bit more than 56% in favor of retention from median on the earth.

Millikan upon this idea and sent-up balloons of his own, first developing special-wire insulated instru-
ments, then balloons, so long-balanced, that the expected rate of discharge of the elec-troscopes, raising the suspension. By connecting the radiation originated in the earth's atmosphere, and the balloon had approached the point of greatest disturbances and thum accustomed be-

stood. Scientific literature to be dis-

and with his asso-

bination is a series of mountain-

up to determine the penetration power of the strange collisions that do not originate in the air; ralier that it was not so powerful it passed through the atmosphere in the ventilating process of the atmosphere.

After preliminary work, Lean, Mahan, went to the mountain, conducting experiments under the bow of Mt. Whitney, last-

in the peak heights of the Andes. When the instruments were returned, Millikan, having studied notes in need of determining the mystery of the "hand" type, that is, after the soft part had been absorbed by the water, the "hand" phenomenon persisted to the bottom. The depth of 20,000 miles was decreased to 9 feet in size, or more than twenty times as powerful as any radiation known of as radium or radio-active! Furthermore, the rays were radiated at night as during the day, and showed no change in the direction of the earth's magnetic sphere. Hence the rays did not emanate from the sun or any of the other stars of the plane.

Millikan leaped to the conclusion that the rays were rads in mass, to the extent that we erroneously carry empty space; that since, according to Plan,

damy and energy are intercon-

variable—mass must disappear; when measured by the weight of the mass, or vice versa—the observed rays were the signals of the lighter element that was decomposed into heavier for-

ions. Calculations from Antoine's Curve indicated that if it was demonstrated that heavier elements down to iron would in their decay disinter a million and minimum and would at no time ex-

empt, there would be no more el-

ments that of the new rays. The other side of the curve, namely, that showing that the elements of ge-

atomic building up into heavier elements, would unite the conditions that satisfied the requirements. Millikan had now added the missing half to

JOHN L. CHESTER, '19, SPEAKS IN MONT. VERNON

Preparatory in Seabrook Case Upheld on Hemp and Drugs Charge

John L. Chester, '19, who gained nationwide fame through his unsuccessful defense in the Seabrook case, appeared in court here recently to undergo the initial phase of a murder charge.

Mr. Chester, who was introduced by J. T. Paterson, the defense attorney, made a plea to the judge for a trial by jury, but the request was denied.

Mr. Chester has been in the hospital for several weeks, suffering from a severe cold.

ALUMNI OFFICE NEWS

The General Alumni Office in Cleveland is continuing its campaign to increase the number of members in the Alumni Association. A series of letters is being sent out to alumni who have not renewed their membership, which was a starting appeal by President Pottenger.

The letters are designed to give information about the past year's activities and to encourage alumni to renew their membership.

COMMUNICATIONS OF INTEREST

The Alumni Office has received a number of communications from alumni who are interested in the University's progress.

The communications have been forwarded to the appropriate departments for follow-up.

KENYON MAN GETS STEEL PROMOTION

J. W. Hamilton, '86, Elected New President of Carnegie Steel

James W. Hamilton, '86, was elected secretary of the Carnegie Steel Company of Pittsburgh on April 31. Hamilton had been assistant secretary since 1897, having been with the company for a number of years.

Hamilton attended the Pittsburgh public schools, Park Institute, and was a graduate of Kenyon in 1887. He is a member of Alpha Delta Phi.

ONE OF FACULTY WIVES RUNS AUFOL THE LAW

Mr. R. D. Oshbbs Wins Two Tickets in Mt. Vernon

Mrs. Raymond Dubois Cabell, wife of one of Kenyon's alert and inspiring faculty members, recently sold to the long, strong arm of the law, much to her eternities and confiscation.

And for the benefit of those who believe Americans to be complacently slow, she was at a rather unaccustomed rate of speed. It is, after all, quite little thing and a little of which either Mr. Gray or Mr. Simmons can justly boast.

KENYON MEN'S TAILOR

Spring is here—and ping pong

Mr. O. O. Oshbbs believes it not, the Kenyon Men's Tailor has begun to strut their stuff. Through the kindness of Mr. Granger, a ping pong table was installed in a small room, and every afternoon two of the most enthusiastic players have been seen battling on the billiard table across the bureau.

The game is a popular one among the students, and the presence of ping pong has added greatly to the social life of the college.

THE MERIT LIST

As shown in the College's last issue, the Colle- giun published a rather lengthy editorial entitled "The Time Has Come" in which the editors advocated about the desirability of presenting a merit list at Kenyon. The critics were placed in the students of the Faculty who have been more or less successful in their studies; but that up- by the undergraduate student in any academic course, has been presented, it can hardly be

The question of the third element, that of the students who have been more or less proficient but not quite as successful as those who have been the most successful, is not one which has been or is likely to be discussed in the near future. It is a subject which will undoubtedly be the subject of discussion in the future, and it will be interesting to see how it is received by the students and the administration.

The second element, the class of students who have been successful in their studies but have not been quite as successful as those who have been the most successful, is one which has been somewhat neglected in the past. It is a subject which will undoubtedly be the subject of discussion in the future, and it will be interesting to see how it is received by the students and the administration.

The merit list is a device which has been used by many colleges in the past, and it is one which has been somewhat neglected in the past. It is a device which will undoubtedly be the subject of discussion in the future, and it will be interesting to see how it is received by the students and the administration.

Brauer's Hopper Crop Billiard Team to Play in Gala Years

April, as in the bridge tournaments, the young men from the greatest of the college divisions—Brauer's Hopper Crop, as it were—arrive in a bustling mood. Hopper Crop, as a one-act play as ever stood in a pulpit, hardly ever was better. Brauer's Hopper Crop, as a game of poker, ran a close second, and with its two-fold role it was expected to hit the town.

The tournament, run on a benefit basis, was an interesting affair. Hempstead, with a match, was a complete upset, appearing with an eighteen-year-old. Young boys play good billiards unexpectedly. No say what, Hopper has gained his play up from the Besos. Consequently, you can imagine Mr. Brauer's chagrin when the boys didn't get the plate last night, spotting defeat at the hands of the lesser player. Art Wolfe, erstwhile manager of everything that doesn't belong to myself and Lymon, was perused, as it may be.

Cal is not a bad billiard player, was green, the score of his life in one of the few games that have ever been in double figures was a grand slam, the first ten balls and not a second. The incident of the other day, where Hopper Crop, as a one-act play as ever stood in a pulpit, ran a close second, and with its two-fold role it was expected to hit the town.

THE KENYON COLLEGIAN

FOOTBALL MATERIAL IS BEDewed By Freshman

With the best of prospects for a good football team for the 1931 season, the men of Middlesex won.

The defense, while not stripping the field of the ball, showed that the young men of the freshman class are improving.

The team, composed of six new faces, was victorious over the team of intermediate class, which was expected to win.

The victory was due to the superior play of the freshmen, who showed that they are improving each week.

The team was composed of six new faces, which is an indication of the improvement that is taking place in the middle and upper classes.

TALK OF GEORGE EVANS AND A DUMB FRESHMAN

In Which Kenyon's Night Club And His Big Boss, Fagan, Intimacy For a Swashbuckling Freshman

Here is a pair that's too good to miss. And all about George Evans, too. And a Dumb Freshman.

George, in an ancient follower of sports, especially the gentle one of cricket, was noted as the most inquisitive of the local gymnasium. The other evening he made the "Employees Only" entrance of the Kenyon College gymnasium and found himself in the Peas Hill, situated on the high, school-like lawn, where the young men were playing basketball. This of course, left Texas Evans' Night Club with an easy master, situation of which the Peas Hill was so loudly expressed.

When Small Machines Were Big

MORE than a quarter century ago, the Commonwealth Edison Company, prophetically alive to the immense possibilities of the future, ordered from General Electric a 5000-kilowatt steam turbine—in those days a giant of electric power.

To-day, a General Electric turbine-generator of 208,000-kilowatt capacity sends its vast energy to the Chicago Metropolitan District.

College-trained men played a responsible part in the engineering and manufacture of both machines—just as they serve in important capacities in the engineering, production, and distribution of all General Electric equipment, large or small.

where he had practiced law for
many years.

- Dr. James Madison Smith, Jr.,
B.S., M.D., St. Petersburg, Florida,
is medical director of the Amer-
nican Central Life Insurance Co.,
that city. He has three hobbies:
big cabin in picturesque Roway,
town, Indiana, a collection of
antiques, and his friends. He is a
book

- Rev. Charles Clingman of
Birmingham, Alabama, is the lat-
est member of alumni elected to
the House of Bishops, but he later
did

- Guy D. Goff, also '95 L.L.D.,
United States Senator from West
Virginia, was the principal speaker
at the state-wide Republican ran-
al at Columbus, March 6.

- John L. Cable, '20 M. C. I.,
of Lima, member of Congress from
the Fourth District, has won the
title of "Defender of Women's
Rights" at the House of Represen-
tatives at Washington. In addi-
tion to being the author of the act
that gives an American woman
the right to retain her citizen
name after marriage to an alien,
he is making strenuous efforts to
have other nations adopt similar
laws with respect to women citizens.
He is urging that the United States
delegates at the Conference for
Codification of International Law,
in session, demand an int-
ernationally binding treaty pro-
viding for equal citizenship rights
for men and women.

- Fred W. Butler is the father of
four daughters but at yet there
are a number of his family eli-
- gible for enrolment at Kenyon.

- S. K. Lewis, formerly super-
intendent of operations for the Cin-
-cinnati, division of the Great
Western Rail Lines, has been promoted to
general manager of that corporation.

- John C. Hillhouse was
selected Mayor of Lebanon, Ohio, last
November and took office on Janu-
ary 1st.

- Henry O. Bunn of Mount
Vernon, is one of the directors of the
Preferred National Life Insurance
Company of Cleveland.

- Harvey C. Miller of "Circulate
Miller" reports as follows: "No news of me; news of my
friends is terrible; they all voted for
our Literary Digest poll of the day's
news."

- Herbert M. Basko extends an
invitation to all Kenyon alumni to
look him up when they visit the
golden west. His address is 708 Tiv-
by St., Los Angeles, Calif.

- Frank M. Modzelewski, Jr.,
son of Kenyon, joined the Navy on
March 1st.

- The arrival of a son and heir
of Mr. and Mrs. Deodah H. Harper
was announced by Mr. and Mrs.
Deodah H. Harper.

- "The King," a friendship of
the E. L. Tiffany, of Buffalo, was a guest at the College
reunion.

- Bernard F. Hall is reported
as having a very prominent part in
a new comedy, "The Vagabond King," which starts Den-
hom, May 5.

- Fred S. Weida and Mrs. Weid-
a will land in New York about May
1st, immediately after the Goodwyn
plantations in Sumatra.

- Father John, R.S.M., of the
Gothic church, St. Andrews, Kansas
City, will begin April 1st,
and is taking up most of the time
of its rector, the Rev. J. P. DeWolfe,
O.S.B.

- Marion Goodyear recently
married Mrs. Amy R. Black of
Philadelphia. Their home is
located in Lakeside Hospital, Cleve-
land.

- Dr. E. H. Herson is still at
work, trying to send half a dozen
more good citizens to Kenyon
each year.

- Douglas G. Mendenhall who
recently announced his discharge
from the medical department of the
United States Army, is a graduate of
the Kenyon Alumnus Association's
and has been appointed Kenyon
Alumnus Association's

- The Rev. Charles Clingman of
Birmingham, Alabama, is the lat-
est member of alumni elected to
the House of Bishops, but he later
did

THE CLASS OF 1932 announces the Annual Sophomore Hop to be given in Peirce Hall, May Ninth and Tenth.

Music will be furnished by McKinney’s Cotton Pickers

McKinney’s Original Victor Recording Orchestra
Don Redman, Director: Cuba Austin, George Thomas, Prince Robinson, James Dudley, Dave Wilborn, Langston Curl, Joe Smith, John Nesbitt, Edw. Cuffee, Ralph Escudero, Todd Rhodes.
The Rev. Oliver Frost Crawford, 12 A.M. D.D., D.D.S., rector of the Clinton Church, Kansas City, Missouri, has accepted a call to become rector of St. Mark's Church, New York, New York.

The B Rev. Thomas Jenkins, M.D. 90 Bex. ‘14, D.D. 24 D. D. Missionary Bishop of Nevada, was in Gambier during the latter part of the week of March 28. Bishop Jenkins is looking for men to come to the missionary field in Nevada. To that end, he is visiting several of the seminaries of the Church. He addressed his usual message formally on Thursday evening; Fri- day at Evening, Bishop Jenkins presented the case of the Bishop, the Church.

The Rev. Henry E. Williams, of the present Senior Class at Bexley Hall was ordained to the Episcopacy by The Rev. Henry E. White, newly consecrated bishop of the Diocese of Michigan, at Houghton, Michigan, on Passion Sunday, April 6. The Rev. Mr. Williams is the first of the Senior Class to be ordained to the Diocese.

The Rev. Harold G. Martin, 79 A.B., 74 B.D., who has for many years been Rector of Grace Church, Etna, West Virginia, has recently accepted a call to become rector of the Church of the Ascension, West- minster, Maryland.

INTRA-MURAL SINGING SPONSORED BY ALUMNI

Prices of $50, $30 and $20 Offered

In order to bring back the rather neglected tradition of singing on the Hill, a revival is to be sponsored by several of the alumni. Bob Weaver and Prof. Ebn. Smith, fraternity and non-fraternity division, respectively, have suggested three prices which have been offered for the competition worthwhile. The first prize is to be fifty dollars, the second thirty dollars, and the third twenty dollars.

A committee of the men has been appointed which will select the judges, name the time and place, and make the choice of the songs. Dr. Caball, Dr. Tum- bril, Fred and Wilbur have been selected to take charge of this work.

It is to be noted that practically all of the divisions on the campus have enough ability to put the matter over fine shape. Most of them are heard once a week. The event is scheduled to cover the middle of May.

HIGH SCHOOL SENIORS GUESTS OF COLLEGE

Visit Hill On April 5: 6; See Football Game

For the second time during the college season, when tickets were opened as guests of the college, on Saturday, April 6th. About 200 high school seniors responded to the invitation, and this time a considerable number of students, and especially the Senior Council, to give them some idea of Kentucky life, work, and traditions. On December seventeenth and eighteenth an itinerary was carried out, and it was that twenty-two men visited Gambier, most of them for the first time.

It was unfortunate that no spring sports were being held as early as April fifth, but the first of the season was planned for spring practice was played between the freshmen and the varsity. The weather, although displaying all of the tradition of Kentucky, was unable to cope with the var- iety weather. The final score was 30-12. The quarterbacks were scored twenty-seven and fifteen, and time-out were allowed.

Overall, the Mackeans were the outstanding stars for the freshmen in the backfield. Larmore, Hall, Tipton and Banks excelled in the line. Marty Hammond and Dan Black played their customary stalling games. Hughes, Heed, Johnson, Carleton, Hoy, and Swanson helped in carrying off the honors for the varsity.

GREATER GAMBIER

Almost 500 Strong

The census has come to Gambier.

Associated Press tabulations on early returns from Uncle Sam's denominate non-census, made public April 7, show that the mea- surements of College Township has 498 people.

This is an increase of 40, or about 12 percent, over the census in the preceding Census in 1900.

While group reports do not specify that this is for the village alone, it is evident that more than 200 of the students are not included, as they are counted in their respective home towns, and also an additional that goes for Harvard, too.

SIX MEN ELECTED TO PHi BETA HONORS

Six men were elected to membership in Phi Beta Kappa at the college's annual meeting Tuesday, April 4, in President Petree's office. Of these one is from the Class of 1930, and two are from the Class of 1932. Thomas M. Sheldon, 28 B. S., was elected on his full eight semester, or seniors, record. Mr. Sheldon makes the third member of the Class of 1932 to have attained to this distinction. The other members are: Mr. James M. Mann, 28 B. A. and Mr. Brad- ford Pascher, 29 B. A.

In the present Senior Class, the best elected were Mr. Harry H. Moxon, Jr., Mr. D. J. Mann, Moxon, and Mr. Clinton L. Moxon, Jr., 28 B. A. In 1930, 28 B. A., Mr. Jack Jenks, Jr., and Mr. J. L. Moxon, Jr., were elected.

The two juniors were Mr. Mentor G. Pohrash and Mr. Milton June, B. A.

In addition to these six men, one Honorary election was made at the meeting in January, at which time the election of Leonard Newman, Commis- sioner of Peoria Hall, was elected to the faculty. This Mr. Croome will be able to attend the formal initiation ceremonies which will be held before the next meeting, as he will be here.

Outspoken comments from the "Tree-Tops" of S. Sington's College Community: "The history of the late President Wilson has contributed to the intellectual life of this college. We wish the doc- tor many more happinesses. Amen! Amen!" Those two words were
