BISHOP HOBSON RECEIVES DEGREE

By exley Honors Church-
man in Granting Degree
of Doctor in Divinity

At an special convocation held
in Plough Hall on the morning
of May 28, the honorary degree of
Doctor of Divinity was conferred
upon the Rev. Henry Wise Hobson,
 Bishop of the Central Province of
Southern Ohio.

The academic procession consisted
of the choir, the clergy, the Bible
students and faculty, the
corresponding with a short biographical
statement by Dr. Peirce, the candidate
was presented by the Rev. Charles
Dean of Deley, in the President who entered the degree.

Hobson, who is not thirty-
years old, is a graduate of Yale,
where he was a member of the T. V.
and "Skull and Bone"
He was awarded his Bachelor of Divinity
degree from the Episcopalian
Seminary at Cambridgeshire,
Mass., with full honors.
Hobson, by receiving the degree,
automatically becomes a member
of the Board of Trustees of Kenyon,
which will bring about a closer
harmony and a greater spirit of cooperation
between the College and the
Southern Ohio Diocese.

In conferring the degree, Dr.
Peirce spoke of Bishop Robinson as a
"devoted and self-sacrificing
priest, pastor and soldier, chief
pastor and partner in the
development of a great diocese in
organized religious life at Kenyon College."

Thus far no anything about it as
the formal form, the
important introduction to a
successful life.

On Saturday afternoon from
quarter until midnight the informal
dinner at the home of
Dr. and Mrs. Ginn, Delta Tau Delta,
and Psi Upsilon, was held in the parlors of
Leatherman. Refreshments were
served to the Psi Pi Uter, while the
social went on in the other hall in
the same of the College. The
party received enthusiastic
attention on the entire Hill and it
is quite likely that such a woman
will become mayor of the top riv-
talents in the future.

A. K. TAYLOR, '05,
WRITES IN THIS ISSUE

A. K. Taylor, '05, has
many friends in the
Community who wish to
hear from him and it is
hoped that this issue will
be an encouragement to
him to continue his
writing. He is now
located in New York, Mr.
Taylor is in the habit of
travelling to the Public Library
in reading Coulborn often, but
he has been known to keep
in touch with the life on the Hill as
much as possible.

The idea of the need of
the Problem of Music at
the Hill and its
importance particularly with
this season's new term,
interest set in and ideas
and suggestions, and ideas,
which he has been well to
send up by word
of mouth.

Their slips aside, the Kenyon defense allowed little practice throughout the game.

Muskingum scored in the opening inning. As the ball was bunted and was dribbled to second base, and an error was made, Kenyon scored two in the top of the second inning, and Muskingum led, 2-0. In the sixth inning, Kenyon scored two more, and Muskingum was ahead by the score of 4-2. Kenyon scored four more runs in the seventh inning and scored three more in the eighth, and the score was 8-2 in favor of Kenyon by the end of the game.

Kenyon collected two more runs in the ninth inning, and the final score was 10-2, in favor of Kenyon.

BOB KNOWLES INJURED IN AUTO CRASH

Robert F. Knowles Jr., 18, was badly injured in an automobile crash on the Mt. Vernon road, just outside Gambier, the morning of Mar. 3. Knowles was riding on the back seat of a car, in front of which he was an occupant and that driven by Dr. Allen Collins, the college's security director. The car was driven as a result of an accident in which the injured man was hit by a car. It is the first time that such an accident has occurred on the campus while Knowles was driving.

SWANSON TO CONDUCT MATH, SUMMER SCHOOL

Robert Swanston, 33, has received the appointment from the College of Science to conduct the summer math session, which will be held for the first time in the summer of 1954. Swanston has been an instructor in mathematics for more than two years, and is expected to complete his work in the summer of 1955.

PHILIP MEN WORK ON NEW PLAYS

Philip has begun work on "The Malarky," a play about the life of the late poet, by Noel Coward, to be given early in June as a dramatic effort to raise funds for the college. It is the first play of more than one act to be attempted, but under the professional direction of the campus it should be able to render a very good performance.

The return of the play parties in the main living room of the Chateau de Paris shows that the spirit of the season is far from lost, and the time is placed somewhere in the eighteenth century. The cast will include: The Marquise—Philip Fox, Aline's maid—John Chambers, Raul de Vries—George Madden, Advancement's daughter—Frank Gale, Jacques Bijou, the secret—David W. Minton, Peter Clemen—Edward Balducci, Rubens de Don de Santiago—Robert Knowles, Minister's servant—Malcolm Knowles, Robert, Servant in the Chateau—John Tillis.

Under the direction of Charles Borer, two one act plays will be presented. The first is "The Happy Family," which will be presented on Saturday night, and the second is "The Enidred Trick," by Beulah, the day after.

KENYON MOVIE MADE OVER FOR PEEP SCHOOLS

A slightly shortened version of the KENYON movie viewing picture has been prepared with titles, for use in advertising the College through elementary schools. Dr. Lord has been in charge of the local end and the work, and together with the members of the original film, has succeeded in arranging a very attractive publicity picture. The pictures of the college give a fine view and are exhibited, the athletic films have been completely edited, and the music is complete. The pictures are now in progress, but the Science Hall scenes are those in the film, and in the week-end, the campus remains practically as they were in the first edition. Examples of the film have been shown in Westerville, Thomas and Starke houses, and others may be seen at the KENYON movie.

THE KENYON COLLEGE

to publicize the achievements of the last year and to anticipate the events of the future. The College has a very active and effective student government and a large number of student organizations. The student body is very active in community service, and the College is well respected in the local community.  

The College is situated in Gambier, Ohio, in the heart of the Midwest. The campus is located on a hill overlooking the village, and the College is known for its beautiful greenery and historic architecture. The College is home to a diverse and tight-knit community of students, faculty, and staff.  

In conclusion, Kenyon College is a top-tier liberal arts college with a strong emphasis on academic excellence and community involvement. It is a great choice for students looking for a challenging and supportive environment.  

THE SENIOR YEAR

The senior year is the final year of college and is a time of transition and change. Students are typically more independent and assertive, and they are often thinking about their future plans.  

The senior year is also a time of reflection and personal growth. Students are often more self-aware and are able to think more deeply about their values and goals.  

In conclusion, the senior year is a time of significant change and growth. It is a time of transition and a time of reflection. It is a time of opportunity and a time of challenge.  

THE GRADUATION EXPERIENCE

Graduating from Kenyon College is a major milestone in a student's life. The College holds a commencement ceremony each year to celebrate the achievements of the graduating class.  

The ceremony includes a keynote address by a distinguished guest, as well as a baccalaureate service and a valedictory address. It is a time of joy and celebration for the graduates and their families.  

In conclusion, the graduation experience is a significant event in a student's life. It is a time of reflection and celebration, and it is a time of transition to the next stage of their lives.  

THE FUTURE

The future is always uncertain, but it is also充满无限 possibilities. Kenyon College graduates are well-prepared for a variety of careers and continue to excite the world.  

In conclusion, the future is bright for the Class of 2023. They are a talented and accomplished group of students, and they will continue to make a positive impact on the world.  

THE END
"UNITE TO SING OUR ALMA MATER'S STORY"

By A. K. Taylor, '98

Kenyon has a challenge to meet. It is one which she can ill afford to have unanswered—the challenge of forming by organized college singing throughout the United States. Why Kenyon should answer and how she should answer are the reasons for this article.

Dr. Snow has been a development in undergraduate music which is of great significance and success. This year began a movement which has grown from a local undertaking to intercollegiate organization, to an annual nation-wide competition of more than one hundred thirty colleges. It has completely transformed the character of college singing and the public attitude towards it. Briefly, this is the story of the organization known as The Intercollegiate Musical Council.

The idea of an intercollegiate glee club was originated among certain members of the Harvard Glee Club in 1913. In the spring of the following year the first contest was held between Harvard, Columbia, Dartmouth, and the University of Pennsylvania, the four charter members. With colleges added to the group each year, by 1926 it had become an established annual affair, operating under definite rules. The initial regulations and the present contest.

From its inception this movement had need of support by a permanent organization sympathetic with its aims and for this reason the University Glee Club of New York became its sponsor. Thus, in 1916, Albert P. Parker, Harvard, who was the founder of The Intercollegiate Musical Council and is now its president, became a member of the University Glee Club and furthered this relationship. Of this graduate club we shall not say more later.

During the World War, glee clubs were disbanded in the colleges and the intercollegiate contests were temporarily discontinued.

At the close of the war there was a strong demand for their renewal, and a committee was formed by the University Glee Club to consider the question. By then the increased activities required so much work that organization on a more substantial basis was advisable. The result was the formation of a membership corporation, The Intercollegiate Musical Council, incorporated, to give it legal status. Its Board of Directors is composed of Associate and Active members of the University Glee Club. It has been developed solely from altruistic motives by the faithful efforts and interest of its officers, none of whom receives any remuneration. It is not a commercial body and is not underwritten or maintained for profit.

The intercollegiate glee club contest promoted by this organization are not recognized nationally not only as a means for raising the standard of music in college, but also as a means of creating and broadening an interest in music on the part of undergraduates.

The University Glee Club of New York offers a silver trophy for which the clubs compete. It becomes the permanent property of the club which wins it for the third time and was thus won by Dartmouth in 1926. The victims of previous years were as follows: 1925, Harvard; 1927, Harvard; 1929, Yale; 1934, Yale; the University of Wisconsin, 1928, Wesleyan, 1927, Washington, 1931, Dartmouth; 1932 Dartmouth. The 1930 contest held at Carnegie Hall on March 6th, was won by a new entrant, George Washington University, which thus added a first step to the newly de- veloped trip.

BUILDINGS

in Which

You Take Pride

On the campus, where class buildings and memorial structures are so often distinguished by their noble form, flood-lighting equipment serves to prolong the enjoyment of their beauty and to enhance pride in the institution. Such an application is made for the new 165-foot campanile at South Dakota State—magnificent gift of an alumni. Electrically operated chimes sound the hours and are heard in concerts. At night, shafts of light from General Electric floodlighting projectors effect a picture of superb beauty done in the school colors and white. From the air, the tower is identified by the beam from a G-E airway beacon surmounting the floodlighted dome. Thus, G-E equipment plays its part in promoting progress and fine appreciation. Back of every G-E product is an organization in which college-trained men are largely responsible for the planning, production, and distribution.
Glee Club (Continued from page five)

In 1922 the college competed with the University of Pennsylvania in a contest for the first time. That year both the contests had spread and there were many more participants from the country. Interest grew rapidly. College and university groups from all over the nation entered. A plan was therefore devised to take advantage of the increasing number of participants.

The contest was decided to divide the country into sections and hold sectional contests in the fall and national contests in the spring. The first sectional contest was held in the Mid-West, organized in September. After that the following groups were added: Missouri Valley, New York State, Kansas State, Missouri State, Ohio State, Southern Association. The University of Pennsylvania, Eastern Pennsylvania State, and the University of Illinois were added to the Intercollegiate Musical Council, there are over one hundred college and university groups representing every section of the country. Four sectional contests and the national collegiate contests are eager members and to enter the competition.

The Council has been largely helped financially by subscriptions, by gifts, and by the sale of the contest programs. It has now cleared over $7,000, which has been paid to the various colleges in the form of scholarships.

As a stimulus to this endeavor the Council has been forced to give more attention to the work of the General Secretary, to assist in the work of expansion; to expand the Carnegie Foundation, and to include more colleges.

All these were unattained, and were presented in recognition of the sacrifices and the contributions of the colleges, the Carnegie Foundation, and the national collegiate contests held by the Council. None of the members have been unacquainted with the benefits of the Carnegie Foundation, and have been committed to the maintenance of the contest.

The Council has been able to provide financial assistance to the colleges and universities.

While no criticism of the judges’ decision is intended, we must say that the word of the first place to George Washington University came as a surprise to most of the students and interested audiences. George Washington University’s reputation for producing smooth and correct in tempo and phrasing, and their own selections, were well received by the judges. It was decided to choose the better known clubs, such as Yale, when second place; Princeton, when third; and Harvard, when fourth. The judges’ opinion of the College Glee Club of New York, the Times, was also influenced by the college’s ability to meet the expense of the long journey to New York.

There is a place for Kenyon College in the future. The contest at Carnegie Hall on March 8 is a coming attraction. The George Washington University, Columbia, Freeland, Princeton, New York, Yale, Penn State, George Washington University of North Carolina, Ohio State University, and the University of California, of the Missouri Valley Contest, was also to be held in the college’s competition for the records of the long journey to New York.

The Glee Club of New York is a prominent club in the country, and the competition included New York, and some of the most famous clubs of the country.

TEAM LOSES
BATTLE TO ASHLAND

ELLIOTT WORKS WELL ON MOUND, AND ALBETFew Hit Fewly

Kenyon's "twinner" battery of El- liott and McErlor was again in top form in its 1923, May 14th, at Den- son Field, but Ashland outfitted and outnumbered them in a full- close baseball game by the score of 4 0, in which Elliott's low spit- curve curve with remarkable ac- curacy, held the visiting Ashland nine to just one hit. The game was starting time from the drudgery of the first half of the contest, Gingrich of Ashland. But Elliott made one bad mistake; in the second inning, with a man on second and nobody out, he grooved a fast ball to Workman, and the batter arched it over the running track in left for a home run. All the other hits off Elliott were harmless, as Ashland missed the opening.

Mauie put on a spirited rally in the eighth, with the score 4 to 2 against them, but just too late to hold the winning tally of Elliott McErlor had opened up the fronts by beating out a bunt which com- pletely crossed up the Ashland in- field. Gamson followed with a line single to left and was then second and McErlor lifted when Workman fumbled. With "Doc" stocky ball, the visiting board of strategy went into a conference, with the result that the ball was mishandled out a home run and a single in critical third to the plate was intentionally passed. When the bowling started, Dawson hauled. The situation was tightened again, however, when Swanson walked after he had taken two strikes, this forced in McErlor.

Ehlers invited to the third baseman and Vienolle, hitting for Howard, struck out. That was the last hit of the Kenyon attack, as they went out and the score 4 0.

Ashland was the first to score. In the second Lorenzo popped a fly be- hind first as the base line that Mc- Erlor reached but it trickled through his fingers. Then Willoughby stacked out his four-foul drive. The next three batters were easy.

Kenyon scored in the same in- ning when Stock, first up, picked a couple of runners in the infield, and baked in left for a home run. It was a beautiful drive. Dawson followed with a single up the middle that the runner survived on an error, but the next three batters were out.

Ashland's first big bony break came in the tail end of the 4th inning when Stock, first up, picked a couple of runners in the infield, and baked in left for a home run. It was a beautiful drive. Dawson followed with a single up the middle, and the runner survived on an error, but the next three batters were out.

Ashland's first big bony break came in the tail end of the 4th inning when Stock, first up, picked a couple of runners in the infield, and baked in left for a home run. It was a beautiful drive. Dawson followed with a single up the middle, and the runner survived on an error, but the next three batters were out.
