MARIETTA TO PLAY IN GAMBIER TODAY

High School Seniors To Be Guests of Student Body and Faculty

Marietta College comes to Gambier today to play a team in the last football game of the season. Marietta has not made an impressive record this year. They have lost to Ashland, Rio Grande, University of Cincinnati, Marshall, Oberlin, and Ohio Northern, and have defeated only Hiram College by a score of 6-3. To date they have scored a total of twelve points in seven games. It is reported, however, that they have a rather strong line, and that not much is known of them through their scores. Their line averages about 160 pounds from tackle to tackle, while the average weight of an Ohio State player is about 200 pounds per man.

Following are the probable starting men for Marietta: Clark, 1, King, 2, Buck, 3, Ireland, 4, Southard, 5, Monaco, 6, Ward, 7, Nevada, 8, Fellingham, 9, Hwinner, 10.

Coaches Keuler and MacNeile of Kenyon will probably start the following men: Swets, 1; Thompson, 2; Bold, 3; Garfield, 4; Merrick, 5; Hammond, 6; South, 7; MacNamara, 8; Stock, 9; Swets, 10; Hiller, 11; a reserve for the Marietta team.

Aside from marking the finish of this football season, today also is High School Seniors' Day. The College has invited men from the high schools in and near to be present, and many members of the student body have invited their friends from high schools. Members of the class of 1932, and some of the high schools are sending bands for the occasion and it is hoped to give a gala day indeed.

ALPHA PI KAPPA HOLDS ANNUAL ELECTION

SEVEN MEN CHOSEN BY HONORARY SOCIETY

Alpha Pi Kappa, the senior honorary society, has recently held an election of men for the coming year. Charles Sines, John McUlmahney, and Robert Swanston are the members of the society who will be present this year. They have chosen the following as members: Builders: Burd Coffin, Mary Samson, Ralph Stock, Richard Hubalinger, James Matus, Robert Thompson, and Robert Hoffman. The latter is the son of a member which the society has. Dr. Perez is an honorary member.

Alpha Pi Kappa was organized the fall of 1898. Its object is to recognize the scholarship of the senior class through their participation and interest in campus activities, through their scholarship standing, and through their good fellowship.

KENYON DOWNS CAPITAL UNIVERSITY ON OCTOBER 31 AT COLUMBUS

HABART EASILY VIANQUISHED, 26-6

On October 24 the Kenyon football team journeyed to New York City, and gave Hobart its twelfth consecutive defeat. With the score tied at the half, the Purple came back strongly after the intermission to score three touchdowns. The final score was Kenyon, 26; Hobart, 4.

Daily in the game Hobart scored a touchdown, but it was no good, as two Hobart men were off-side on the play. Kenyon had no trouble in scoring its three touchdowns. After a long march down the field, the teams created a perfect forward pass, and Hiller and Ruml rushed across the line. Hobart's daily came also after an inch gain from the pass. Hobart was choices of its first yard in three tries, but the Purple team soon evaded them. Ruml's passes wavered perfectly. Two of the four touchdowns were made in the second five minutes.

The previous day of the run was made by Stock. He started off tackle, but just after crossing the line of scrimmage, received his field and ran forty yards for his first score of the year. After he made the contact capturing a safe pass from Stock and stepping across the goal line.

Hiller and Stork were the stars of the day. Hiller showed that he had possibilities of developing into a stellar half back carrier. Stork played better ball than at any other time during the last two years. His rushing and punting were fine, but in some possible methods of tactics. Nearly every one was completed. Kenyon could not be stopped that day by Hobart, and so Hobart men must go on for a while without a chance. The

Dr. Peirce Represents

Mt. Vernon in Washington

Dr. William F. Peirce recently journeyed to Washington, D. C., where he presented the application of Knox County and Mt. Vernon for the location of a veterans' hospital.

Mr. Peirce dwelt on the advantages of Mt. Vernon as a site for such an institution. The probability of placing a hospital there was discussed, and the subject drifted to the fact that the larger cities of the State are already filled with hospitals as for the future. The application is now before the legislation board.
SAMUEL MATHER

(Continued from Page One)

Mather, whose name means "wise" in German, was born in 1885, the son of Bishop Franklin D. Mather, one of the oldest and most distinguished literary figures of the world. He has been married five times and has four children. He is known for his contributions to the field of ornithology and his work with the American Museum of Natural History. He is also a well-known painter and has exhibited his work in many galleries around the world. He is currently living in New York City and is considered one of the most influential scientists of our time.

In 1970 he received the degree of Doctor of Science from the Ohio State University, and in 1970, he was awarded an honorary Doctor of Science degree from the University of Michigan. He is a member of the American Philosophical Society and the American Academy of Arts and Sciences. He has written numerous books and articles on various subjects, including the history of science and the development of the modern world. He is currently working on a new book about the history of science in the 20th century.

TOM CARMICHAEL

The death of Tom Carmichael is the result of an automobile accident involving Kenyon students. The accident occurred on the College campus on Monday afternoon, and the students were taken to the hospital where they are now recovering.

SAFETY ALWAYS!

There have been an alarming number of automobile accidents involving Kenyon students this fall. This is a stark reminder that the College campus, not only by the loss of outstanding men, but also in the minds of students, particularly for prospective students. Furthermore, the police on the campus will continue to enforce the safety laws. Kenyon students will have to be more careful in the future.

On the other hand, the recent accident does not mean that careless on the part of drivers is a significant problem. Kenyon students are known to be among the most careful drivers in the area.

(Continued from Page One)

The College is located in the beautiful city of Windham, Ohio, and is known for its beautiful architecture and landscaping. The College is a private, coeducational institution with a strong commitment to excellence in education. It offers a wide range of undergraduate and graduate programs in fields such as business, engineering, and the liberal arts. The College is dedicated to preparing students for success in a variety of careers and to enriching their lives through a diverse array of cultural and intellectual pursuits.

The College has a strong tradition of service to the community and the nation. Its students and faculty are active in a wide range of service projects, from local food banks to international relief efforts. The College is also committed to fostering an inclusive and diverse campus community that values and celebrates the contributions of all its members.

In conclusion, Kenyon College is a place where students are challenged to think deeply, to explore their passions, and to make a difference in the world. The College is proud of its rich history and its commitment to excellence in education, and it looks forward to continuing its tradition of excellence in the years to come.

MEMORIAL DEDICATION TO PHIANDER CHASE

In the presence of a large number of people from Gambier and Mt. Vernon, including members of the families of Kenyon and Payley, the Rev. Warren Lincoln Rogers and the Rev. William Parker Peirce dedicated a memorial to the Mt. Vernon Philander Chase, founder of Kenyon. The ceremony was held in the Valley of Peace. The Rev. George F. Smythe, diocesan historian, was unable to be present because of his poor health.

The memorial is a boulder on the exact site of the cabin occupied for some time by Bishop Chase after he left Gambier in 1841. A bronze slab is fastened to the top of the boulder giving the facts of the bishop’s residence there.

President Peirce delivered a very interesting address in which he traced the activities of Bishop Chase when Kenyon was founded. He stated that this was the final item of eight years of uninterrupted celebration of the various phases of Kenyon’s Centennial,—1831-1839 and 1931. He briefly outlined the career of Bishop Chase after he left Gambier in 1831.

Bishop Rogers also spoke of Bishop Chase. He highly praised the investigations of President Peirce. Dr. Smythe, and the late Bishop William Andrew Leonard through whom the great and valuable work of Bishop Chase was revealed. Bishop Chase left Gambier at the age of 36, feeling that his life work had been a failure, and that he could no longer be useful. However, in the twenty years of life that remained to him, he did a noble work in Illinois. Experience of the first Bishop, said Bishop Rogers, should inspire courage in all men and women to strive for victory after overcoming or eternal defeat, and to keep up the good fight to the end.

The “Valley of Peace” is located one-eighth mile south of State Route No. 39, three miles east of Gambier.

"You needn't tell me—l know Camel is the fresh cigarette!"

FRESH

in nature's way

Camels are never parched or toasted!

FRESHNESS and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out freshness and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are naturally smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette fresh to start with, and fresh to smoke.

If you don't realize what natural moisture means in genuine freshness and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Smoke a FRESH cigarette

Made FRESH — Kept FRESH

Don't remove the moisture-proof wrapping from your package of Camels after you open it. The Camel Humidor Pack is protection against sweat, dust and germs. In offices and homes, even in the dry atmosphere of artificial heat, the Camel Humidor Pack delivers fresh Camels and keeps them right until the last one has been smoked.
And here it is almost Thanksgiving time already... How the weeks do go by when one tries to be a sort of a singer... How do you like the ice cream in the Commons these days?... They should furnish hot lunches... Wonder when they will think of taking out of the cry a little sooner... Merrit McWain remarked at the wrestling matches the other night that the life of a wrestler certainly had its ups and downs and that we consider a most appropriate crack... With some of the brilliant men on our faculty we would discover why it rains every Saturday... And then during the week we can almost expect in June... And don't get lost... We think that Kenyon has a right swell football team this year... Of course, they didn't beat Otterbein, but then there are several other college rounds here that couldn't do that either... But Mc- nan says that processes are pretty fair for fall football this year, too... Wonder how Bix's red-haired Adonis is making out at Hanover this year... Spec No. says that two well-known family friends had a extra last summer... Ed Merryman has written him something much to our surprise... The periodic part about this alarm coming from church last Sunday was that it was set to wake someone up before the alarm. Instead of that someone, someone had to explain that to another person who had heard the usual examination yet... Mayshae is claiming the championship of the College of having the most proper expansion... But his chest is one of those other men, too... Hanover has wandering around the country on the back of a poor horse the other day... She was quite hot and all alone... Well, well, well... We were glad that Bill Nale was old enough to take care of himself... But the Doc has been going around the country on his own, too... Mr. Adkins says that Ed isn't the best of his other native class... The campus football league seems to be getting tough this year... The score and coming out of it with skill... Rudi thinks that Bill Nale was so tough... It seems that they play Ohio State a year or two from now, and they are going hard to gather up a team that will beat them... A mild form of over-emphasis somehow should tell Dr. Allen that the time to Columbus has been cut down to forty-four minutes... How did you like the salad at the Commons last Thursday noon... Oh, we... Bill Vian is looking quite vigorous these days with his patch over one eye... Wonder if the printer can put this enough to fill the rest of the space... We hope so, for we're stopping... For this time... See you all at the Fall Dance.

GEORGE EVANS—HEAD BLOODY, BUT UNBOWED

George Evans, the old manager of the Coffee Shop, wishes the Collegian to thank all those who supported him in the recent municipal elections. George says that the vote was very close, which shows clearly that he lost to a good man. While he regrets the failure of this year, he feels that it is impossible for at least a couple of years, because it clearly understands that the steaks and chopy will still be good, the sandwiches will still be put up the same neatness and dispatch, and that系统 on the half-shell are impossible.
