JAMES N. GAMBLE, '54
KENYON'S OLDEST ALUMNI, DIES IN CINCINNATI

Famous As Philanthropist And Business Man

The tributary title of "oldest alumni" once more has passed to new hands.

With the death of James Norris Gamble, '54 A.B., 39 A.M., at his Cincinnati home July 2, the oldest living son of Kenyon is a Victor Smith Peirce (K. '29) and Mrs. Elizabeth C. Gamble, of Affiliated Chinese.

JAMES N. GAMBLE, '54

109TH YEAR AT KENYON OPENS

Small Enrolment

With an academic procession and music by Bishop Rogers and Dr. Pfeifer, the one hundred ninth year of Kenyon was opened in the College chapel Thursday, Sept. 30.

Once again, following the custom of a century, the student body was gathered together in the chapel and began the opening of the year for the 1923-24 term.

Small enrolment is noticeable from the number in college before the first week of the academic year. The number of returning students has been lower than in the past years.

The number of freshmen has also been less, and the number of seniors is smaller than usual.

The number of students has decreased over the past years, and the college is facing the problem of maintaining its financial stability.

The administration and the direction of the college will be in the hands of Dr. Homer and Prof. Keyser, both of whom have been associated with the college for many years. The college has continued to grow and to maintain its high standards.

the early history of Old Kenyon. This was a period in which the student who was most proud was her literary society. It was in the Deisy halls that the students met once a week for literature, music, and debate. Our prominent graduates made their first changes in consciousness speaking.

...We have eulogized halls, and we say, be very proud of the "1870" because it is our Phi Kappa of Phi, so that the society may be revived and the old halls may again resound to the stirring sounds of artistic and literary activity. This is not our purpose here, but we are asked to consider the early halls, and we confidently assert, as much intellect and character has been associated with these halls, the same intellectual and moral atmosphere that is evident in the Phi Kappa of Phi, so that the students may have their activities in the earlier halls. We have eulogized halls, and we say, be very proud of the "1870" because it is our Phi Kappa of Phi, so that the society may be revived and the old halls may again resound to the stirring sounds of the arts and literary activity. OLDEST ALUMNI DIES
(Continued from Page One)
Levitzki, a world-renowned mathematics prodigy, passed away on February 8th, 1927. He was known for his profound contributions to the field of mathematics.

Mr. Gamble often recalled that he "made Tom Edison one of his first and most significant developments. The young genius in chemistry was a phenomenon of the time."

Among his many inventions, the telephone was one of the most notable. Mr. Gamble was also responsible for the development of the first practical telegraph, which revolutionized communication and laid the groundwork for modern telecommunications.

In 1928, Mr. Gamble married Miss Margaret Penrose of Pendleton, Ind., daughter of Capt. William Penrose of the British Army. She died in 1931, but their two daughters survive.

Mr. Gamble was a prominent public figure, and his contributions to the sciences have left a lasting legacy. His influence can still be felt today, as his inventions continue to shape the world we live in.

KYNEN TO HAVE Glee CLUB
(Continued from Page One)
This was an unanticipated success, and already requests have been made for other broadcasts during the coming year.

Tryouts for the positions in the club were held last Monday and Tuesday, and present plans are for the club to consist of about twelve members. If the organization meets with success, the number of singers will probably be increased.

Look and listen for the chorus of "Good Morning, Head of the Home." It is the home of either Dr. Burner of the afro-Kenyon.

In the past few years, Kenyon has filled the leader of the glee clubs and the formation of one is certainly welcome on the Hill. In addition, the formation of an instrument club is predicted for the near future.

Vernon, Ohio, is the home of the Kenyon Singers, a group of talented musicians who have made a name for themselves in the area.

FOOTBALL PROSPECTS BRIGHT

The spirit that holds the lamplight at the present moment is football, and the prospects for Kenyon's football season this year look extremely good. Although the season's first game was not a complete success, there is nothing to show that the team of the future will be anything but blue.

There are seven letter men back for the team this year: MacNamee and Tribbick at center, MacNamee and Tribbick at halfback, and Judson, Critchfield, and Beek at fullback. These men form the main body of the team, and all are expected to be prominently represented by the recruit of this year. These, plus the position changes in the backfield are Bob Eiker, Matts away, Judson, Lippinsett, Mason, Mason, and Wood. Of these the outstanding contenders are at present, Judson, Mason, and Wood. Mason will probably see a good deal of service in his position of quarterback, halfback, and Judson both. Fill in at halfback, Eiker, who is one of the big men of the backfield, will undoubtedly play a nice game at full, when by chance a trip to Triath. We look to see Mee, the floating back man, as a touchdown maker per excellence, whom it has been a bit more experience.

We are glad that the rule allowing the coach to substitute a man back in each quarter is in effect, because we have more men and materials for the line. These who are out for guard, are: Danon, Dobbins, MacNamara, and Peters. At tackle are Critchfield, Kuyper, and Tribbick at the linemen, with Mason a close one. They will probably supply ample depth throughout the season, and will play. The underclassmen have a good chance to get in and do some good work.

KENYON TIES HOBART

Team Shows Up Well in First Game

Kenyon's first game of the season a 12-10 tie at Hobart, October 11, while not a complete triumph, shows good for the success of the team during the rest of the season. Kitten

There is a good chance that he isn't the most developed, but that the game was played in typical first game style. The tackling blocking, and running were all rather poor, but the passing attack, which was finally opened up was very strong.

First Quarter

After Kenyon kicked off, the team played a great deal of offense, and the ball still in Hobart ground.

Second Quarter

The play continued on the crisis end of the field, till a series of off-tackles brought forth the ball at the Kenyon forty-yard line. There Tribby intercepted a pass, on the thirty, and ran for a good touchdown. Wood kicked the extra point safely. The ball ended with no more serio

Third Quarter

In this period Hobart developed a surprisingly strong running attack, and kept the ball entirely in Kenyon's ground. They made their first touchdown by means of a short pass and run, aided by a difference in the desperate efforts of the blockers. On the kick-off, MacNamee returned the ball seventy yards. A big run was made to the Kenyon twenty, where the football was kicked, and a touchdown gained. Hobart gained possession of the ball, and, with the same excellent tackle and off-tackle play, four men running, an excellent pass was thrown, which was caught by Kenyon for ten yards. Hobart again returned the ball by means of a pass, and finally made a touchdown, losing the contest 17-11, in favor of Hobart.

Fourth Quarter

Kenyon opened up her passing attack in the main quarter, and made a touchdown in three minutes. MacNamee passed the ball from MacNamee across from the thirty yard line. Then the play for points failed, and the scoring was done by the Kenyon team.
