KENTON COLLEGE, CAMBRIDGE, OHIO, APRIL 17, 1934

HIGH SCHOOL WEEK-END
The Annual High School Week-End will be held this year the last weekend in April. Competent Personnel, along with part of the program, plans are being made to give you an essay on a course in practical accounting at a liberal arts college of adequate size to a certain number of the visiting high school seniors. It is hoped that the alumni and undergraduates will support this event this year as they have in the past.

GIVEN SENDS STRING QUARTET TO GAMBER

The Kenton Band will present their first program in Gambier May 5 at 8:00 in Peacock Hall. Admission is free. "The singers have already presented two programs, in Cleveland, the last of which included a group of Kenton alumni and friends. The Band, under WTAM, was listened to by Ken Tom in all over this part of the country. This program includes a group of both songs and instrumental music that are a real high type, well worthy of various notice.

SINGERS TO GIVE PROGRAM MAY 2

First Gambler Appearance Will Be Peirce Hall

The Kenton Singers will present their first program in Gambier May 5 at 8:00 in Peacock Hall. Admission is free. "The singers have already presented two programs, in Cleveland, the last of which included a group of Kenton alumni and friends. The Band, under WTAM, was listened to by Ken Tom in all over this part of the country. This program includes a group of both songs and instrumental music that are a real high type, well worthy of various notice.

KENTON'S NEW AIRPORT WILL BE FORMALLY DEDICATED APRIL 21

Planes Already in Hangar Many Alumni Expected Back For The Week-End

The Willard A. Cummings School of Practical Aeronautics will be in- augurated and the new flying field, Port Kenyon, will be dedicated Saturday. The program starts at two in the afternoon. A smoker will be held in the hangar of the event.

"An everybody now knows," Wilbur Cummings, 27, has been interested in aviation for many years and owns his own plane which he flies constantly for transportation pur- poses. When he determined to give aviation a permanent home in Port Kenyon, he realized he would have to go about it in a thorough manner. He is not only supplying the equipment, but will maintain the instruction. The field, completely equipped with hangar, run- ways, etc., has already been visited by many. The two planes for practice and instruction have arrived. Engines mounted on blocks and a great deal of other miscellaneous equipment material are being installed for ground school work, which will start April 28 at Mother Hall. Port of Dr. Cummings' gift includes an instructor, Mr. Donald McCullough Grater, who is a holder of the highest license issued by the department of commerce.

Naturally Kenton men are the first interested in the purpose and exact state of this school. The Editor of the Kentonian has the opportunity to quote President Peirce’s message to the Alumni.

“The School is not established for the training of professional pilots but it aims instead to give Kenton men the information about the rapidly developing conquest of the air which the men of education should possess. The School is to be of fundamental value in art and education as well as recreation. Students (Quantized on Page Four)
KENTON COLLEGE

The Purpose of Kenyon

There have been many changes in Kenyon within the last year, and some of these have been for the better. The change in the curriculum, for example, was a step in the right direction. But now there is much talk of more changes, and perhaps, that once the old fevers are cast away, the newly released prisoner should try to be as free as possible.

Some of the old ideas of Kenyon are feeling to change even further. We are not, however, the original ideas of Kenyon's plan of study.

It seems to me that a real study of this movement is very much in order. In the first place, we are very much afraid that some of those advocating more changes and less curriculum study are falling into a fallacy that is readily passed on. Kenyon seems to feel that whatever is best is worst.

We are very much afraid that many of the old ideas of Kenyon are feeling to change even further. We are not, however, the original ideas of Kenyon's plan of study.

The second we feel needs a word or so of explanation. It is the writer. Kenyon has been planning this project here for a number of years, and we think that it is interesting and important because of the local interest attached to the fact that the author is from this part of the country.

To the Editor of the College:

This year, for the first time in the history of Professor Hall, there was formed a Committee on the purpose of this project. The purpose of this committee was to serve as the overrider of any student who really needed work of some sort in order that he might be enabled to carry it on.

We think that it is interesting and important because of the local interest attached to the fact that the author is from this part of the country.

TODAY'S SHOW
MYSTERIOUS BALL ROLLS UPHILL

I SAW A MAGICIAN MAKE A BALL ROLL UPHILL LAST NIGHT...WITHOUT TOUCHING IT. HE WAS SIMPLY WONDERFUL.

THE MAGICIAN DIDN'T HAVE ANYTHING TO DO WITH MAKING THE BALL ROLL. UPHILL. THERE WAS A CONTORTIONIST INSIDE IT. BY SHIFTING HIS WEIGHT, HE MADE IT GO.

WHAT SHE SAW THE PERFORMER MAKES A BALL DEEP GRAVITY AND ROLL UP AN INCLINE AT HIS DISDISPANCE. ROLLS DOWN ROLLS UP AGAIN...OBEYING EVERY ORDER OF THE MAGICIAN.

DIID HE DO IT BY RADIO REMOTE CONTROL OR THOUGHT WAVES?

THAT'S THE BLINK GRIZZLY HERES THE REAL LOW DOWN....

MY GOODNESS BUT YOU'RE SMART. JOE. WOULI YOU HAVE A CIGARETTE?

EXCUSE ME. I DON'T LIKE YOUR BRAND....

CAMELS are made from finer, MORE EXPENSIVE tobaccos than any other popular brand. They are mild...easy on the throat. They give you more pleasure. Try Camels.

No tricks—just costlier tobaccos in Camels.
Golf Schedule

A reversal of athletic relations usual Ohio state University will feature the Kenyon college golf schedule this spring, as the hunters will be faced to the State teams on two occasions. In addition the schedule calls for eight other matches.

Ohio State will be met at the Mt. Vernon Country club April 29, and at Columbus May 5. Other opposition to be faced includes some of the larger schools in the state, Ohio Wesleyan, Wittenberg, Oberlin, and Denison. It will be one of the stiffest matches to be faced by a Kenyon golf team.

Kenyon’s last meeting with Ohio State was on the greens a few years ago.

The schedule:
April 29—Ohio State here.
May 2—Denison at Granville.
May 4—Wittenburg at Gracville.
May 9—Oberlin here.
May 10—Ohio Wesleyan here.
May 15—Oberlin here.
May 19—Ohio Wesleyan here.
May 28—Wittenburg and Denison.
May 29—Wittenburg at Springfield.

Baseball Schedule

The baseball schedules carries the Kenyon baseball squad through a campaign of nine games, all with teams from some rivulets; four of the encounters are slated for Bensons Field, and the remainder are ahead.

The first game is scheduled for April 29, when the Purple tangles with the agricultural nine at New Concord. Following that is a game at Capitol, and then Kenyon plays the athletic team at Ashland which closes within a week.

Two more road games and a home engagement carry on, and the season is officially closed on June 8 at Wooster.

The schedule follows:
April 29—Ohio State at New Concord.
May 2—Capitol at Columbus.
May 4—Ashland here.
May 9—Oberlin here.
May 10—Ohio Wesleyan here.
May 15—Oberlin here.
May 19—Ohio Wesleyan here.
May 28—Wittenburg at Granville.
May 29—Wittenburg here.
June 3—Wooster at Granville.

Tennis Schedule

The high point of the 1941 tennis season is the Ohio Interscholastic Tournament which will be held at Girrimer on May 24, 25, and 26. In addition to this event, there are seven dual match cards, three at home, four on the road.

The Kenyon tennis men will make their home on May 3 in the shadow of Old Kenyon. The Muskies from New Concord will furnish the opposition.

After two more home engagements the team will take to the road for two meets for added Ohio Conference competition.

The tournament is set in Apr. and then the season will be completed with a match at Wooster on June 1.

The schedule:
May 3—Mckinasingham, here.
May 4—Capitol here.
May 7—Grand Falls here.
May 10—Mckinasingham at New Concord.
May 15—Capitol at Columbus.
May 24—25—26—OHIO INTERCOLLEGIATE TOURNAMENT AT GARNER.
June 1—Wooster at Wooster.

WEST WING WINS VOLLEYBALL CUP

Deild Meet Leonhard Three Games In Four

West Wing defeated Middle Leonard in the finals of the Volleyball tournament with a score of 14-12. Middle Leonard played their games out of four. Although they didn’t much trouble in the early rounds, last year’s champions nevertheless looked at them and were clearly outplayed by the Dukes. Led by Monger, Dale, and Kizer of the West Wing, made a brilliant finish to come from behind and win the final game 14-12. The two teams packed 14-12.

Faced with the necessity of winning the next game or being the champions, the Dukes won the third game 14-10, but after that effort allowed the score of the fourth game to run 14-6 against them before they rallied. West Wing finally won 15-11.

At a meeting of the installation board, plans were laid for the Spring program. Harmony are to be played this year. The "in-door" baseball season will start when the weather permits, and track meet is scheduled for May 2. Tenis and Golf will start about the middle of May and the last of May, respectively.

As an all star basketball team was boker as follows, picking two from each school. Three championship squads:

Guard: Simms and Routes
Center: 
Forewarts: Keim and Morgan
Service: Greiner and Cardwell.
Center: Cramer.
Guards: Paul and McDonel.

AIRCRAFT DEDICATION
(Continued From Page One)
which complete the ground school work as a course in the department of Physics may, after undergoing a rigid physical examination and filling with the College the written terms of their parents, begin flying under Mr. Greice's instruction. Thanks to the generosity of Mr. Cummins, the expense is reduced to a minimum.

The amateur character of the school makes it unique among American colleges.

In the establishment of the School of Practical Aerodynamics, Mr. Cummins foresaw the day when he would leave the College a benefactor in the recognition of the development of a new development in transportion. In the organization of its new course of study, Kenyon has a position of leadership among progressive colleges. . . .

To make this possible, Kenyon College has never received a gift of greater significance. Let us all cooperate toward the future of Mr. Cummins who made the gift. . . .

LETTERS

(Continued From Page Two)
now unable to get necessary "money," or "medium of exchange." (Our present money is both a "valuable commodity," and a "medium of exchange." Bankers and speculators use the "commodity" feature of our money as a means of exchang-
ing what they produce for what they need. Consequently, as long as we use such a draft type of "money," we shall always have booms, depressions, hard times, unemployment, and business suffer-
ing, because the masses cannot get such money to use as a "medi-
um of exchange" unless our bank surplus is low, or our bank reserves are high. There is no opportunity of making a profit on the "commodity" feature of the same amount of money.

That means, in the United States Treasury, the demand for a "medium of exchange" is not forthcoming the bankers and specu-
lators withhold our money from circulation, causing starvation, depri-
vation, and unemployment, because the masses are unable to exchange what they produce for what they need to use. And yet, there is no suffi-
cient "medium of exchange." The solution to all our economic problems, therefore, is to cut the "COMMODITY VALUE" out of our money, or put a new value on a "MEDIUM OF EXCHANGE." That means, we must convert our private redeeming system into United States Banknotes (putting all bank employees on the public payroll just like our postal employees) and use them as branch dispensers and in the same capacity of a "credit me-
cy" under the direct direction of the United States Treasury.

By "credit money" I mean "flat," or "lawful," money issued by the United States treasury as evidence of earned credit.

Maintaining Permanent Employment
By using such "evidence of earned credit," as a "medium of ex-
change," we can place all unem-
ployed in the public works, and then these "evidence of their earned credit" direct from our public banking system. We can keep these men employed contin-
ually, because there is no limit to the amount of work that may be done, and should be done, if we had credit to sell. This means "evidence of credit," or "credit money" can also be used in main-
taining our government—national, state, county, township and even municipal. Why not? All gov-
ernment employees are "public" employees, regardless of the par-
ticular kind of government in which they may be employed. When private industry or house-
hold needs won, they can be trans-
ferred back on their jobs. A bal-
ance can thus be maintained be-
tween "private" employees and "public" employees, keeping up the buying power of the mass, with-
out the necessity of continually ren-
dering hours, and "marginal" em-
ployment in private industry. When a man is unable to obtain a job in "private industry" he can be im-
mediately engaged in some "pub-
лич enterprises until he is again needed in his old job. "Private" enterprises will be given prefer-
ence, using "public enterprise as a reserve source of employment to keep up the buying power of the mass.

Eliminating All Taxes
"Credit Money" may be in the form of either certificates, coins or checks. It may bear such inscrip-
tion as "This is evidence that the bearer (or name of the man who earned the credit) owns (one, five, or fifty, etc.) dollars worth of credit with The United States of America."

These "evidence of earned cred-
it" will originate in the United States Treasury and bear the all the evidence of our present "lawful money"—the (treasury and signs

ALUMNI NEWS
TOLEDO ALUMNI MEET

Following is a report sent us of a well-attended meeting in Toledo.

The Kenyon Alumni Association of Northwestern Ohio met at the University Club in Toledo on Saturday, March 21, for a most interesting and educational meeting held in some years.

More than fifty men turned out to hear Dr. Peterson's highly interesting story of the Willard L. Cummings School of Preachers of the same name which will be formally dedicated on the Hill, April 30. The alumni were also informed of George Shafter for the first time in his official capacity as Assistant Dean and to hear Harry Kester (bacteriologist) give his report, (to which he is finally decided to postpone until a later date).

The general consensus of opinion was that meetings are interesting, as we are sure, and that it is thoroughly entertaining to be one of the few, should become an integral part of Kenyon alumni activities in this part of Ohio.

Kenton, is a list of the men who attended. If we missed any, we're sorry:

Dr. Peterson, W. F., Peterson, 22; Athletic Director Rudolph J. Kestery, assistant dean George S. Shafter, 26; Charles Carpenter, Toledo, Ohio; Edward B. Brown, Reclining Action; Fred H. Zen, 31; Ray A. Aver, 29; Lawrence B. Elkins, 29; John M. Chace, 15; John A. Dickinson, 13; Harold A. Sparks, 14; Donald H. Smith, 15; Thomas W. Christon, 17; Robert S. Lovren, 18; Francis R. Rogers, 18; Harry F. Grossman, 22; Ross C. Flesch, 25; Andrew C. Brewer, 24; George H. Cramer, Jr., 24; Harry C. Shockart, 25; Donald H. Zawad, 27; Roy B. Anther, 27; Bert L. Watkins, 24; J. Perry Beall, 26; Rev. Richard O. Peterson, 29; Thad W. Taylor, 27; David J. Morgan, 29; Edward W. Max, 29; George H. Hinder, Jr., 29; Harry C. Shockart, 29; Robert T. Stanley, 29; James J. Johnson, 29; Robert Kemper, 34; Wm. S. Day, 34; Thomas F. Gallagher, 34; Robert S. Cunningham, 32; Charles M. Carpenter, Jr., 31; Robert L. Drums, 27; Harold A. Sparks, 27; Grant M. Dever, 25; Robert Reid, 25.

There were fifteen prospective students present.

Col. Johnston Dies

Colonel T. A. Johnston, Honorary Alumnus of Kenyon College, 27 LL., died February 6, 1934, at the age of 86. Col. Johnston, head of Kemper Military School, was born in an army, and very well loved in his native state, Missouri, and in other parts of the nation as well. He had been granted honorary degree by University of Missouri, as well as Kenyon.

More Strength Richer Blood

When you're tired, nervous, rundown, your system often needs more iron and malt compound for new strength and energy. It increases the supply of fresh blood and helps to fill up the gaps.
