FRATERNITIES PLEDGE FIFTY-THREE NEW MEN

Eight Sophomores Are Included in List of New Selections

Fifty-three new students were pledged by the eight fraternity chapters during the rushing season which ended Monday, September 25. Of the fifty-three students pledged, eight are sophomores and forty-five are freshmen.

The list follows:

Delta Kappa Epsilon
Laurence Jones, Kansas City, Mo.; Thomas M. Hawver, Jr., Hilda M.; M. Hoekert Lyday, Dayton, Ohio; R. R. Miller, Dayton, Ohio; Richard C. Ohlm, Mansfield, Ohio; Robert W. King, 39, Columbia, Ohio.

Alpha Pi Tau
Robert G. Also, Hartport, Arkansas. (Continued on Page 2, Col. 2)

ROYAL ORDER BOUND With "HOKA" READY

Bika, Kenyon's literary magazine, begins its second volume this fall with a combined September-October issue. The first number will be on sale the early part of next month.

When asked about his plans for the year, Editor John C. Swifft, Jr., stated that eight issues will be published, each one month from October to June inclusive with the exception of January.

"Bika is primarily an organ for the expression of undergraduate creative impulses," he explained. "There is no limitation on the kind of material that we will publish. We already have stories and essays, and this magazine will be very glad to print poems if any are submitted." Mr. Nett added that manuscripts will be welcomed from members of the faculty, alumni, and indeed any interested.

"Some of the departments start (Continued on Page 2, Col. 2)
REYNARD THE FOX

Well now, that the College is once more running on a more or less normal basis, it's time that we could all be colored and encouraged. The first thing that we should all consider is the Saturday Night Fall Football. The opinion of the views of these suturers have become entirely too high. Luckily, Mom has decided that this fall a seminar has sometimes felt the need to drop dry, and at the same time has found that they are in need of payment for the movie. This seminar (the house has not altogether met with the approval of the ladies) and that they have been able to come to some decided opinion on the question, all concerning me most important.

Oct. 8, 1947

KENYON COLLEGE

From the files of the College,

November

The authorization Harcourt-Page Company to be able to quash the200 student was unanimous, and the vote was in favor of the proposition. The view of those students who have become entirely too high. Luckily, Mom has decided that this fall a seminar has sometimes felt the need to drop. dry, and at the same time has found that they are in need of payment for the movie. This seminar (the house has not altogether met with the approval of the ladies) and that they have been able to come to some decided opinion on the question, all concerning me most important.

Oct. 8, 1947

Kenyon College Oct. 25 to 9 at

Gravelly,

March, 1948

It is very interesting to note the advancing improvements in Gambier. It seems to have grown considerably over the old lamp system of light. Not only this, the new lights and the college gymnasium makes the place. At some future time probably old Seniors will be lighted by electricity.

Sept. 20, 1948

The Campus Club is not organized as yet. Luckily something is being done. It seems that the members of the college will make this branch of sport too uncomfortable to be enjoyed.

Sept. 20, 1948

From the looks of the new fresh men cups, it seems that in some classes the first year men wearing women's clothing will continue to surpass its predecessor in the next year. This will be a tremendous change. The college will be pleased to see this new development to come to our attention.

Club News

About the latest news is that the Hump Club is in full swing, and wishes all new men to join the club to see him as soon as possible.

It has been rumored that the shady disciple "Ioose Hump" has been seen frequenting the campus of the campus of the college and is causing a great stir. Attempts to capture the subject have not been successful.

"With the playing solid showing by the Kenyon College football team, it is not justifiable for the citizens of Gambier recently in the company of Tom Finkle to decide that he is trying to organize his football club which is a part of the new movement. By this last meeting. The old "Paw" will reward the initiates with a handsome reward.

Just in time

Since Kenyon has opened its doors to the students for another year, the business at the well known Moose Trapper has jumped up considerably. Among those present Saturday night were none other than the famous sophists, "Touchdown" Thacker, accompanied by Honorary Saloon, Son Mat they three. Many of the smaller institutions once enroll men in "freshmen" clubs, and literally "springing men" as much restored to rejoin in order to win games. This year's KENYON team is a most offensive combination."

Oct, 1948

The Philanthomaniac Society has been organized and expects a very prosperous year. Unfortunately, No. 5, Pi Kappa has fallen into a state of insolvency, and several of its members have decided to change to the Philanthomaniac Society.

LAMBERT SPEAKS BEFORE ASSEMBLY

Urga Support of Football Team at First Student Meeting

A plea for support from the Illinois sterilization controversy was made by Coach Lambert at an assembly held on the evening of September 28, 1947. Coach Lambert was introduced to the assembled Director, Dr. Joseph Klotz, who explained the arrangements for the Denman game.

The assembly meeting the first gathering of the school year was poorly attended.

Roachian Deluge Swaps Kokoosing

Scene comparable to those at the 1948 Kenyon College Homecoming festivities was enacted this summer in Gambier during the territorial rains and in the fields surrounding the campus. The Kokoosing rose with ease, threatening the town with flood of its normal level. Below the college the land along the river's edge is low enough to be flooded by the rise, and flooded the area through the valley to Howard.

The valley road to Howard was in many places more a stream of mud than a road, and the village of the village's illegal channel of the river washed itself across the eastern approach and washed off what had been a pasture. Western Ohio is a sandy creek and a few more insignificant remains adopted the road, but saw their new home and made traffic impossible for some distance. Some of the present road bed is a few lower than it was before. One observer said that his barnyard had been flooded to the water's edge near this point, went over the running boards in water, and had to climb out. The water emerged with the note so familiar to every Ohioan in the valley who wasinvited to go further was dismissed by a local resident, who was. When the observer asked him what his barnyard looked like the valley the present appearance of the a lake, with burned crowns of filling lay in the view. Some fields stood today brown, where yesterday it was green, and a stretch of decaying vegetation. Beyond the county line no report was made as to any effect it would have on the rice. The town of White is directly badly off on a hillside.

Less damaging than the 1947 flood, which swept away the railroad bridge, tore out a new channel near the old mill, and flashed off the completed dam, this flood of 1948 has swept away for possible the fen's Kenton, the dolyses of the 1948 caused considerable losses in livestock and property, and was a spectacular feature of the Gambier summer weather.

ROSEHALL BAHR ALTERED

Old Stage Removed and Play- ing Floor Extended.

The current building, upon which more than thirty years of effort and expense has been spent and which has been removed to make possible the furtherance of Kenyon's athletic facilities. It was in existence at the time the town's hopes and dreams of the Fud and Powder Club have either risen or fallen. little. Badly burned, the building was then a completely remodeled, giving it the latter. It was at this time that 1948, the building was put into service.

To replace the old stage, a new and probably portable and more stable stage has been built. The new stage is that it can be moved into any of the college's athletic fields. It is built in sections, and can be carried into the small "open house". The basket ball court has been successfully setup in position, and the lack of space for audience. After the appearance of the stage has greatly enhanced the Hall and has provided a splendidly well, decorated and attractive "open house." The basket ball court has been successfully setup in position, and the lack of space for audience. After the appearance of the stage has greatly enhanced the Hall and has provided a splendidly well, decorated and attractive "open house."
Kenyon College

Sports Added to Intramural List

Berley Resealmitted to Hillock Loop as intramural sports

Innovations designed to make Kenyon’s intramural athletic program more complete and helpful to a greater number of students were revealed by Athletic Director Robert J. Kutler at the final meeting of the intramural board on Thursday evening, September 14. In addition to retaining last year’s activities in touch-volleyball, basketball, speedball, basketball, swimming, track and tennis and playground ball, Mr. Kutler has added several new sports. They are: broom, jai alai, polo, water polo, equtation, wrestling, boxing, touch football, and badminton. In color that more students may play basketball, which was the most popular intramural sport last year, each division will be permitted to enter two teams, an A and a B team. The basketball tournament will also be conducted on a double elimination basis, each team meeting with eight other teams. The final meeting was held in the gymnasium.

Denison Defeats Kenyon

Carl Baker’s Kenyon, who broke brooks from scrimmage and injuries, was defeated 7-2 by Denison for the final watering of the day.

In the main Kenyon looked much improved, and really should settle down and play some good football, and there are now fewer eager to win, and exhibited plenty of spirit, as evidenced by the first half put up for three quarters. Bill Carr played almost the entire game for Kenyon and was deservedly awarded a world of credit for his exhibition.

Kenyon: Jumper, 3, Jenkins, 0; Teams, 159, 165; Burs, 7, 15; Carr, 1, 3; Rogers, 1, 1; Ten, 1, 1; Hunsaker, 1, 1; Taylor, 2, 1; Stewart, 2, 1; Murphy, 1, 1; Crisp, 3, 1; Anderson, 1, 1; Billions, 1, 1; Rupr, 5, 1; Seabold, 1, 1; Phillips, 1, 1; Millikan, 1, 1; Milburn, 1, 1; Raymond, 1, 1; English, 1, 1; Different: 0 0 21-27 Kenyon 0 6 6 6 Touchdown: Jumper, 2; Hunsaker, 1; Extra Points: Holt, 3.

Pojo Team Plans

AMBITIOUS PROGRAM

(Continued from Page 1)

Driving Club, and several other army and navy groups, are meeting weekly. Last year, games were played with several of the teams on the schedule, on a Tuesday night, and in a number of them the Kenyon group has scored well.

With the experience of a year of play behind them, the new team will look forward confidently to an exceptionally good season.

Farewell Reception

A reception for President and Mrs. L. J. Bailey will be given next week at the home of the president. The entire party is invited. The reception is at eight o’clock.

New Gym Requirement

(Continued from Page 5)

ed activities and upon the presentation of a book review of "The Principles and Practice of Hygiene" by John Richard Cutbush, he will be given the physical education requirement for the students of Kenyon.

Upon entering college each student will be given a physical examination to determine the past presence of defects. From the evidence of this examination in conjunction with the examination of the family physician, students will be classified into four groups: those having no defects; those having minor defects, not able to participate in the regular program; those having defects which can be corrected by the college; and those having defects which cannot be corrected by the college. Shortly after registration the student will be given his preferred activities from two groups: the student must select three activities from the first group of "immediate needs"; football, swimming, track and tennis. Students in the second group of "carry-over activities" will be given the choice of track, field, archery, badminton, horseshoes, swimming, polo, ping-pong, bowling, jai-alai, touchdown, touch football, basketball, rifle, and badminton.

The men placed in the last two classes by the physical examination will be given special attention in re-examination at different intervals. By following their selection of activities, and corrective exercise to be taken at the student’s discretion. To aid the student in becoming oriented in his choice of activities, periods of instruction will be offered which the student may attend if he so desires. These periods will be scheduled as follows:

First Six Weeks

Football, basketball, cross-country, golf, wrestling, archery, baseball, badminton.

Second Six Weeks

Speedball archery, volleyball, badminton.

Third Six Weeks

Basketball, bowling, polo, boxing, swimming.

Fourth Six Weeks

Handball, polo, touch football, jai-alai.

Fifth Six Weeks

Ride shooting, canoeing, track, multifield, polo, baseball.

Sixth Weeks

Playground ball, golf, hunting.

Objectives of the program as stated by Mr. Kutler are: To provide regular wholesome exercise to develop by rational exercise the organs of the body; to aid in acquiring a satisfactory literary pastime; to teach game skills that will stimulate participation in pleasant recre- al sports in competition in college; and to teach same and sport skills that will carry over into adult life.

The 1935 Football Schedule

Sept. 27—Denison at Granville (night)
Oct. 12—Rochester at Rochester
Oct. 19—a Home at Gambier (Homecoming)
Oct. 26—Hobart at Geneva
Nov. 9—Miami at Gambier
Nov. 16—Ohio at Gambier

Football Personalities

What 1935 Alumni Are Doing

Harvard has snapped up three of 21. Robert O. McDonald, Richard J. Arnold and W. Allen are attending the law school. The others had scholarship in the law school.

Father Ryan asked for England on September 24 to enter King’s theological school. Francis Drake is also expected to enter. General Theological Seminary in New York.

William Mosko is studying sociology at the University of Chicago, while Jack Catefield and Samuel Holmes are studying law at western Reserve and Northwestern respectively. Frederick Price is studying medicine in Cincinnati.

The Freeland Company has taken on two graduates, William Parker in Cleveland and Frank Ask in Akron. Robert Hines reports to leave soon for California to take on a "marines job," and Crawford Chandler has just returned from a European cruise to take up duties with the Pittsburgh Plate Glass Company. In Cleveland "Moon" Donald is working for Superior Steel and Wire Company, and Ben Pack is with Woolworth’s.

Meteorites Admire the John-Knake Ballerina

Weddings Among The Alumni Several weddings have occurred among the alumni in recent weeks. Miss Alice L. S. Clark, '21, was married to Miss Martha Marcy in June. J. Jeffrey White, '21, recently married Miss Dorothy Witten of Rochester, Ohio, and Eugene Poit, '22, was married in June to Miss Josephine Parker, daughter of Congressman Park of Arkansas. The announcement has also been made of the wedding of Bill O’Hare, '21, of Bridgeport, Ohio, William Vekes, '21, and James Wood, '21. They have announced their respective engagements.

Alumni Smoker

9 P.M.
Twenty upperclassmen, in new departments of instruction, this fall are inaugurating the plan of honors study adopted by the Kenyon faculty last January. These men, doing special work in the field of their major study, and enrolled where practicable in honors sections, are candidates for the bachelor’s degree with honors. At the end of their college course they will present comprehensive written and oral examinations on the whole field of their work, and if successful, will graduate with First, Second, or Third Honors.

The history department heads the list with six men: Walker R. Armstrong, ’22; Robert C. Headlin- ton, ’22; John H. Orrel, ’22; Raymond K. Kestler, ’22; Arthur F. Schmidt, ’22; and Lawrence A. Berens, ’22. Economics has four: Peter Craig, ’21; Franklin Marks, ’21; Paul T. Miller, ’22; and John K. Eubank, ’22.

Other departments have the following candidates: English, John W. Blighman, ’22; Harry W. Brown, ’22; Robert J. McClure, ’22; John C. E. Day, ’22; A. R. Greene, ’22; and R. P. Stamp; biology, Geoffrey A. Cook, ’22; and Thomas E. Gray, ’22; Greek: Robert E. Davis; psychology, Paul Thompson.

The purpose of honors work at Kenyon, as at other colleges where the plan is in use, is to enable the exceptional student to do exceptional work in his chosen field. An applicant for honors work must be accepted by the group of departments to which his study belongs. Whenever possible he attends special honors classes or sections, which go much more thoroughly into the subject than the ordinary college course, and call for much individual investigation and reading by the student. When asked to define the difference between an honors seminar and an ordinary class, Dean Car- dans P. Gilford pointed out that the basic difference lies in the higher ability of the honors group. "More responsibility can be thrown on the individual student," he stated. "The method of conducting a seminar differs, of course, with every department, according to the nature of the subject matter. In history, for example, each member of the seminar engages in private reading and investigation of topics, on which he makes written reports to the group. In science or literature other methods apply: but in all of them the basic responsibility lies on the student rather than on the instructor."

At present some departments at Kenyon have too many students to be able to form separate honors classes. In these departments the honors student is assigned to the regular course, but is expected to do more work and to have a higher standing than the ordinary class. It is expected that in the future, with an increased teaching staff, all departments will completely separate the honors work from ordinary class work.

Separation of honors and non-honors students has long been carried out in the English department, and an increasing number of American colleges of good standing have undertaken some form of the same thing in recent years. With the beginning of the present academic year Kenyon has joined this select group.
