DELTS DEFEAT BETAS IN FIRST PLAYOFF

MIDDLE LEONARD VALLEY RAILERS WINS THREE OVER THREE-TIMERS

In an exciting series of games, Middle Leonard defeated South Leonard 15-13, 13-15, 14-15 in the first game. The Betas seemed to be the better of the two teams, with the first eight points theirs. However, the Delts came in with a late drive that carried the game for them. In the second game "Fine" Leonard of the Delts served the whole game of 21 points without a break. The first team showed the worth of their strength and stamina, while the other team was allowed by the Delts with no little difficulty.

SLEDGERS SING, SIP WARM MILK ON RIDE

Ten of Kenyon's loudest theators were busied last night, Friday night, to Cavern in the first snow.

Ten of Kenyon's outdoor laureate students, imbued with the winter spirit, met last Thursday to put a sleigh ride which proved more than a mere snow covering.

The ride started promptly at seven thirty and continued for two hours as the group moved merrily through and about Mount Vernon. Sledges were made and carried by the group and wasps was provided by a large can of warm milk, which was placed in the middle of the sleigh. The milk, which was of the right side of the track, was served by two large maids which were made after that.

SWIMMING SCHEDULE

The men's swimming schedule for the upcoming season has been announced. The Kenyon varsity will begin their season on January 22, 19-18.

For the intramural boards, Kenyon will host the annual Winter Swim Meet. The meet will be held on January 22, 19-18, at the Kenyon College pool. The meet will feature teams from various colleges in the region, including Kenyon, Knox College, and Carthage College.

We feel to hoisted the books pretty consistently from now on, but for those who are one day away from the weekend, "CAPTAIN BLOOD" will offer many satisfying film experiences. Now that it is a quiet picture by any means, it's full of pirates, ships, and much sex fighting and will relieve those who like some screen and haven't seen any in the screen for so long. It begins 8:00 late midnight and runs over the weekend until Tuesday is highly recommended.

Proud Whitman's orchestra is now to be heard a Sunday afternoon, at 3:00 to 3:30 p.m. (Gambler time) in which Paul has been given free reign to present and arrange the program as he believes, without restrictions. The result is a very entertaining program, full of good music, little chatter and is a novelty of some sort. This could be the classic of all popular orchestras, and, as though may come and go Whitman continues in public favor. Variety of presentation is probably the reason.

With eye and ear

Elliot and tomorrow, and tonight at the Vista is "MARRY BURNS, FIDDLER." Sylvia Ely has been one of those who have been the role of one who marries a peddler, without knowledge of his calling, and is not aware of how she lover makes, but rather police, but she has had a countenance service in the basis of his plot. Young love is sold by a return of "A" of Young Brain. And therein lies the clue, "LOVERS RETURN." Ely sings "Peasants, how are you at bowling?"

We have written many of our supposedly loyal gradals and asked them how many subscriptions in the year, but still call us to read the manner suited to a constructive spirit toward Kenyon College.

We don't want to insist too severely on Kenyon's students, but with this understanding, we can hardly do our part of way to put this on the back, for these boys have been entirely passive, and there is no answer.

If you want to find out what Pete, Joe, and Bob are doing, now some times they're back deserted, what kind of a job they have, etc., take a "time out" and tell us what you know of your old "buddies." You'll benefit yourselves as well as our classmates by sending in news of the fellows who planted the core in Gabley Allen's classroom. "How about it?"

An apparently insignificant sub-topic on the program depicts the beautiful scenery of "Fox River." On Friday and Saturday, "NIGHTY," and "CHARLIE CHAPLIN'S CHRISTMAS" make up the big bill. Of it can be said that there is entertainment. The title of the first practically explains itself, but is lost assured that it is possessed of the two most varied of all the world for the average Western. Waltz- Ohio, today's title is the only hit, and although we won't tell you. But Secret in this novel (Charles Dickens, "Oliver") we can say, that we the "secret" of the experience of this class series is his ever-changing, ever writing.

Unfortunately, some of us might feel obliged to let the books pretty consistently from now on, but for those who are one day away from the weekend, "CAPTAIN BLOOD" will offer many satisfying film experiences. Now that it is a quiet picture by any means, it's full of pirates, ships, and much sex fighting and will relieve those who like some screen and haven't seen any in the screen for so long. STEFANSSON TO TALK

He has filled in spaces that were blank on the maps of Arctic Alaska and Arctic Canada.

His determination to come through any undertaking that is humanly possible has achieved for him a record in polar exploration that has made him world famous. After twelve years spent in the Far North he is able to discard old conceptions of it, tell us where we got them and show us why we believe with one-half of our minds things that the other half tells us cannot possibly be so.

Mr. Stefansson in his lecture, "The Northward Course of Empire," discusses the tremendous importance of the North in the great air war that is for control of the Old World and the New, of the routes that are to be established, some of which lie across the Arctic, saving anywhere from hundreds to thousands of miles in distance between great commercial centers, while utilizing natural conditions which, on some routes at least, average better than those of the new thorough that pass exclusively through the temperate zone and tropics.

He was a future emissary in the North and he puts all his energy into revealing and interpreting it as a factor in the future of our race.

Mr. Stefansson is the author of many widely read books on the Far North and is a contributor to our leading magazines and newspapers. He is a member of the geo-physical societies of Paris, Chicago, London, New York, Paris, Philadelphia and Washington as well as of the Explorers Club of New York.

An important speaker, with an abundance of wit and the ability to popularize his scientific subjects.

Mr. Stefansson's lecture contains one of the very best combinations of educational and entertainment values and will present an entirely different aspect of the Far North than we have heretofore heard.

Dear Gentleman,

This is to renew your subscription to "The Collegian," the genuine student newspaper. It is published weekly for the three and a half years that he is enrolled in college.

Your subscription will begin January 10th, 1923.

KENT NOSES PURPLE

apparent, but the spectacle did not seem to bring about a Kenyon win. Starting slowly, Kent managed to score six points to our one and increased the margin to 13 at the half, an unheard-of quart of scor-
ing prevailing. In the second half, Keeney started to climb up to the visitors but could not quite make the grade. With a few minutes left to play, Keeney drew within two points to a tie, and with thirty sec-
onds left, Frank East led by a
desperate shot from the count. It failed to connect, and the gap was
reduced shortly afterwards, ending the evening's play. Bob Linville led the Kenyon scoring with six points.
