GETTYSBURG WINS THREE EVENTS IN CON. MEET.

Team Gops Third Place In Conference Game Swim Meet

OBERLIN IS WINNER

Wooster, Runner Up Will Meet Purple Here Thursday

GETTYSBURG, PA., April 3, 1936 -

Aiden Wins Three Events in Conference Meet

Team Gops Third Place In Conference Game Swim Meet

OBERLIN IS WINNER

Wooster, Runner Up Will Meet Purple Here Thursday

Let by George Bagen, stellar swimmer, Oberlin, Kenyon accumulated 13 points to take third place in the conference game. Wooster, which has been favored, has only six points.

ACTION TAKES PLACE

Last Wednesday night up at Ashland nothing happened. Eustis, Cannon, S. W. and Stamm started out of the pool. From the first whistle, the Warhawks were on the offensive,致

* * *

Ashland began to play a tighter game, rushing the outer line of the Owls, however. Things looked well, white, of Ashland, and of course a little bit of a kick. But just as the team started to fancy itself a little, it was rushed off its feet. This was a very nerve-wracking game for Ashland 18, Kenyon 15.

The second half started at a pace even more exciting than the other team scored, and the score remained the same as they enriched with Ashland 25, Kenyon 35.

Gaffney had to leave the game late in the game, and Sam Stamm watched their shots closely as the second half drew to a close. The Owls might as well have been covered.

Near the end of the first half it looked as if it was the end. Ashland scored ten more points, which might have undoubtedly been called useless. But those ten points made the final score 10.

AMES TELLS OF WORK OF LEAGUE

Quotes Anthony Eden and Explains How Peace Will Be Sought

"The British government should take risks for peace." These are the words of the Prime Minister of Britain which were noted in the local newspapers. Anthony Eden, the Prime Minister of Britain, had held off because it deprived them of the right to war without another war. The attitude of Great Britain toward the continent is more direct than that of the United States, and the Prime Minister is more likely to have his way, according to the British league.

The language of Mr. Axtell and Andrew Furholt, President of the International Student's Union, is considered to be the important factor in providing evidence for peace. Without a doubt the active support of the League of Nations will be needed in the future.

The League of Nations was held in favor of a peaceful settlement.

It is the decision of the bulletin of The Daily News which was held in favor of a peaceful settlement.

It is the decision of Mr. MacDonald to treat in 1921 to strengthen the League of Nations by such amendments that to what should determine an agreement, the pressure and the influence that the League of Nations is held in favor of a peaceful settlement.

The announcement of Sir Axtel and Andrew Forrest, President of the International Student's Union, is considered to have been the important factor in providing evidence for peace. Without a doubt the active support of the League of Nations will be needed in the future.

The League of Nations was held in favor of a peaceful settlement.

Morons

...And when we refer to those mental
rebels of society, we talk about 15,000
souls, because we feel that they’re
irresponsible.

We’ve attended Kenyon
there has never occurred
an outrage which could begin to
come close to the size of that.
We don’t agonize over it.
They tend to discourage us and
force us to wonder just what kind
of attitude Kenyon now harbors.

We’ve always been led to
believe that Kenyon was
the place to be, and that admirable
quality which we used to
call “good taste.”

If the offenders are “granted”
by some reason or another with
regard to the Faculty, they should be
kept out enough to give their minds
space to the Faculty in a more convinc-
ing manner than they have their
place.

We believe that we speak for
Kenyon students, who unanimously
comy down to the Administration.

To the administration:

As most of us already know, the
enrollment on the class of 1939
letter is twenty-two students less
than the enrollment for the first semester.
We gained seven stu-
dents, but lost twenty-six.
Why do we lose 26 of these twenty-
two students? How many lost be-
cause they lacked sufficient funds?
How many lost to join the armed forces?
How many lost to go to other schools?
How many lost because they didn’t
want to take their final examinations?
How many lost because of improper con-
duct? How many lost because of
poor grades?

If our position is as con-
tinuously pressed in the minds of the
students, and nothing is done to
shore them up, life’s nails are
broken, private conversations and
discussions will not come to an
answer. The students are in
the woods not only because they
know nothing of the great grade system
but also because they know not
the great standing of the Faculty
or the College plans to do. All
that the students know they have
to work and to suffer.

The College has two publica-
tions which are known. There are
the last year and a half the Admin-
istration has made use of only one
of them more: Scoundrels of whose
nature is not easy to publish, the Kenyon
announcements which are the publica-
tions (or the administration)’s the fact
is that the publications are not
used to enlighten the students.
All the current news is out by book-crook. And just how
reliable the book-crook method is, nobody knows, but a menace to
that students have to rely upon the professors for all official
information.

The students do not expect to
know about everything that
happens in the faculty meetings, there are
many things that happen, in the
Faculty meetings for example, that
are not worth telling about. But
on the other hand, a number
of things must happen that are
important. And because the Admin-
stration makes us to inform the
students about what is happening.

We’ve got to “jump”
methods and appear out of the
previously best of official
“information” — often un-
realized. When the times come (and
it has come) that the student and
the student’s parent find
by student for faculty meeting
groups, something must be done.
What can be done? The Admin-
stration can announce to the
students about the publica-
tions or student assembly, the
actions or plans (as far as they con-
tact the student body as a whole if
faculty meetings or better still,
student assembly. It should not be
forgotten that a man’s judg-
ment is no better than his informa-
tion.

Respectfully,

Edward E. Bond, ’17, president,
The Chicago Alumni association,
and Robert E. Kenyon, ’10, who
presides over the Hill Club over the
past week.

They were both enthusiastic or
Kenyon’s many advances, in par-
cular, the Fisker pool and the
Samuel Hall, much of their
work was spent in watching and
watching the progress, of the
the campus and students.

Kenyon recently entered
the field of oratory when John
Trask, of the famous Ohio State
Choral Contest held at Witten
burg College. Eleven Ohio college
and university were represented
in the contest.

Frank A. ’34, of Akron, spent
Saturday and Sunday in Cincinnati.
After graduation, he has been
employed by the Firestone Rubber
Company.

A solo effort by Bill Insurance
last week brought another one
of the first students enrolled in
the Freshman course as far as this
year.

The University of the State of
New York has sent word that
Kenyon graduates may enter any
college or university in that
state without any special negotia-
tions regarding credits. This
new ruling makes a student in
good standing at Kenyon auto-
atically eligible to enter any
university in New York State
after graduation from this col-
lege, without the regular form-
ing of credit negotiations.

WITH EYE AND EAR

Radio.

Another of college’s talents unex-
cpected situations has been placed here. She is
Lucy Dalhuisen, NBC’s prodigy on the
daily studio party each
Tuesday evening at 9:30 o’clock. Lucy
Kennon can talk. She is reading this early, clear
his voice even if they
may not look at her beauty at that
touching this evening.

Lorh. Jlxford.

Assisted by Kenyon’s
regulars.

In the Winnebago Talk (Win-
nebago, Ill.) we give you the follow-
ing:

To Police, head of Kenyon
College’s, last week spoke in keynote
the advantages which Kenyon offers its
students. He also spoke of Abraham Lincoln
at Kenyon where this building was for
him;

He didn’t want to be wet, nor old
men, but haven’t you been holding
out on us just a little? And all
the time we thought Long Aik walked
twenty miles to school daily and
write his lessons on chairs.

Lever, R. J. Stanford.

He who has upon wasting
taxed travelers daily, last week
jumped up to the Lever residence in
brothers, knocked on the
door and invited Paul’s mate
who see E. H. immediately and
no, she couldn’t take the
message.

Bob—Sounds good. I just found
out something.

Bob—I just found out that Dan
Dennett moved to live in Mount
Vernon.

Reduction.

All of which means “having pow-
er to bring back consciousness or
life”... or, in modern physiology, by the
name of Youl’s... D. Hulme, retrieved a
marriage which will sober the drunk;
trunck as well. How about it.

Bob—Well, perhaps Skip Wright and Bill
Brown, who be interested in the
answer of this puzzle?

Hot plates.

We sort of hate to bring this up
because he might get so... and,
Marguerite on his week-end in
Cheswick with the Bubs and the
next thing we know have approached by a
few from the Queen, who turned out to be
university in

James; is a merely scientific
thing.

This is true

The story comes from Cornell.
It seems that Cornell professor was
addressing a group concerning
his work and what coffee does to it.
Here is the excerpt which comes to us:

“Excessive use of coffee under-
takes and generally raises the
blood pressure in the body.

An elderly lady in the back row
jerked to her feet indignantly and
screeched:

‘Young man,’ I’ve been drinking
coffee all my days and I’ve been
willing to put my stomach up to your
any old day."

O. C. Kohen, if it’s believable,
really patterned related the

Movie calendar.

Here are the highlights of
the books this week:

Teddy Sunday.

THE WANDERER
FOR DIGESTION'S SAKE—smoke Camels

Smoking Camel Cigarettes Aids in Assuring Natural Digestive Action

"Hurry—hurry—hurry" seems to be the order of the day. People get caught in the lockstep of modern life. Tension finds the weak spot, so often—digestion. Smoking Camels improves digestion... wards off the consequences of hurried, nervous living. Camels gently stimulate digestive action. They promote the feeling of well-being and good cheer so necessary to the proper assimilation of food.

In a word, Camels set you right! And, in smoking Camels for digestion's sake, you may enter a whole new world of smoking pleasure.

MAIL GOES THROUGH!

It's often a struggle for F. H. Fowler on Star Route No. 1922, Maine. "It's a-end-run with me," he says, "but I always top off with Camels. Camels are good for digestion—help along the natural processes—and certainly have a great flavor!"

HARD HITTER. Jane Sharp, tennis champion, plays a smashing game that carries her to the limits of exhaustion—often makes digestion a real problem. "Smoking Camels," she says, "makes food taste better—helps me to digest my meal. And Camels taste grand!"

COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.
