FRACTIONS
HOLD AS NEW COACH

By Bill Griffin
Ordinarily, purple and red do not go well together, but the reverse is true when you think of Kenyon's purple-crested athletes and crimson-touched C. "Chuck" Imel, the newest member of the athletic department, who is now freshman football coach, head swimming coach, baseball coach, and director of the sports publicity department.

Coming from Case School of Ap- plied Science where he had a marked record as swimming coach, he has fit into the life here at Kenyon quite unobtrusively, but is well known for his freshman football aggregation.

"Chuck," as he is commonly known, was voted star swimming and running candidate and three times won the Conference meet. Last year, Case was fortunate enough to graduate from the Conference meet and Swinging to some difficulty the college meets with Conference officials in repeat to pre-season football prac- tice. It was a disappointment to give his team as a heavy fav- orite to retain the ever winning title. He developed such stars as Paul Grossman and Vaught MacWhorter, and his team won 22 straight meets before losing to Western Reserve. Incidentally, his Kenyon team on paper figures to give quite a piece of it in the Conference meet which is to be held in the shuffle-pool next spring.

"Chuck" seems to be the dark horse of the meet at this position.

"Chuck" is a nine-letter man from Cleveland Heights, Ohio, where he started in football, bas- ketball and baseball. He has a de- serted look up in his game as a swimmer. He has described his team as a "swimming coach" and Frank Dormer, former swimmer, from last year's team, but several swimmers with the veterans George Ring, the fourth-year man, Paul Milnik, John Long, Steve Mathews, Carl Westoff and Al Shelly.

Science Confirms the Truth of the Popular Phrase
"For Digestion's Sake...Smoke Camels"

WHETHER your meal is a banquet or a sandwich, a Camel gives it more zest. Scientists have found that Camels gently stimulate the flow of the digestive fluids...alkaline digestive fluids...necessary for good digestion. Worry and nervousness interfere with this flow. Camels increase it! With their fine, costlier tobaccos, Camels give mildness a new meaning. And they have a matchless flavor all their own!
