ONE HUNDRED FRESHMEN COME FROM TWENTY STATES

Comprise One Hundred And Fifteen Class, One Fourth Enter on Scholarships, One Third From Ohio

EXACTLY one hundred students representing twenty states, will comprise the class of 1937, the freshman class in the history of Kenyon college.

Although 480 applied for admission, the Kenyon Faculty Admissions Committee could accept only 100, owing to the college's enrollment and financial limit of 1,100.

It is estimated that for many decades to come 250 men, Kenyon two years ago set the limit to 300 to meet the constantly increasing demands in the future.

The home state of approximately half of the class of 1937, has the school in its own right. Ohio leads the states in enrollment, with eleven students.

Others, with eleven students, follow in the order of the states from which the most distinct points from which Kenyon freshmen come are from Pennsylvania, Ohio, Wauwatosa, Pensacola, Fl., Long Island, N. Y., and Birmingham, Ala.

FIVE FRESHMEN HOLD PRIZE SCHOLARSHIPS

Total of Twenty-three Enter Men Holding Scholaship Awards

For the first time recipients of the Kenyon Prize Scholarship (which will enter Kenyon. These students, who are the awardees, evidently more than fifteen different states. These winners, which is more than half the applicants were able to come to Kenyon for the examiners.

Of the thirty-six high school seniors who entered Kenyon this year, only thirteen were rewarded the prize scholarships.

William Blackman, Akron, Richard L. Kent, Cleveland, for Physics; Robert M. Vanos, Springfield, for English; David Shaffer, Youngstown, for Mathematics; Walter N. Eggler, Jr., Springfield, for History; Edward J. Skaife, Columbus, for Chemistry.

Harvey K. Wilbarger, the only other student awarded a prize scholarship in the school's history, has come to Kenyon from Germany, where he had previously been awarded a scholarship in German on the basis of examinations.

UNDERGRADUATE POLO DISCONTINUED

After several years' backing, either from private sources or from the athletic fund, this intercollegiate sport will be discontinued at Kenyon.

Another reason for the discontinuance of the sport this year is, according to Capt. Frederick E. Eby, polo coach, that polo does not materialize for the construction of an adequate indoor arena, which is necessary for the proper practice and playing of home matches.

In place of intercollegiate polo, intramural competition will be stressed.

NOTICE TO NEW STUDENTS

All new students should report to the Treasurer's office immediately upon their arrival at Kenyon, where they may receive their receipt for the payment of their bill, N. Commons cards, containing information concerning the meals served in the dining room, and the privileges of temporary rooming quarters.

From the treasurer's office it will be necessary to report to the registrar's office, there to be given a faculty advisor and the time of appointment with him.

From the registrar's office new students will go to see the advisers at the appointed time, and when and where classes will be held.

Each returning man should come to the Registrar's office immediately after paying his bill at the treasurer's office.

DIETITIANS BEGIN COMMONS SERVICE TUESDAY MORNING

Roger Ayers Appointed Head Cook—Coffee Shop Prices Reduced

Breakfast at 7:15 on Tuesday morning, Sept. 21, will be the first meal arranged and served to the college by Misses Lillian G. Chad and Mildred Kimball in new cafeterias in the Commons. Monday morning, Sept. 14, has been serving setup meals in men's and women's football squad who returned early for practice.

Meals will be planned around a week's advance, according to Misses Chad and Kimball, and an attempt will be made to serve more fresh vegetables and salads as well as more hot broads at noon.

As before, home recipes will be prepared by students, are acceptable in practice.

In the coffee shop the dietitians have attempted to reduce prices, as well as making meals more complete in some cases.

The idea is to make the Misses Chad and Kimball that a Peirce Hall Committee can be formed.

A committee made up of one man from each division to represent student feeling toward the commons. So that the Committee can be active immediately, division heads are asked to appoint one man in each division to see Miss Chad and Mrs. Kimball within the next two weeks.

STABLES RECEIVE NEW POLO PONY

To the surprise of several polo players Mr. W. B. Foster, of Boston, N. Y. T. this summer added "Virginia," a dashing new mare. The pony, by Mr. Foster's own quarter- bred mare by an outstanding Leu stallion, Kenyon stable two years' famous teacher caught, is now the pride of polo ponies.

TWO NEWLY APPOINTED TO FACULTY

BRING TOTAL OF NEW MEN TO NINE

Mr. Norman Johnson, Harvard '38, to Teach English. Dr. James Roll Brown is Instructor in Romance Languages

Mr. Norman W. Johnson has been appointed Instructor in English and will be in charge of the office of The Kenyon Review.

A native of Detroit, Mr. Johnson was graduated from Harvard last June, taking honors in English. He was a holder of one of the Harvard Prize Fellowships, and as an undergraduate he helped to edit the Harvard Advocate and the Harvard Monthly. He is a member of Phi Beta Kappa.

Mr. James Roll Brown has been appointed Instructor in Romance Languages for the academic year 1937-38.

A candidate for the degree of doctor of philosophy in the University of Chicago, Dr. Brown holds the master of art degree in Spanish and English from the University of Cincinnati. He has carried on his advanced studies in Spanish and French at the University of Michigan and the University of Chicago.

Dr. Brown is a native of Ohio; he went to school in Detroit and took the regular course at the State Normal School at Ann Arbor, being graduated in 1924. He served as an officer of the United States Navy for a year or two before coming his studies at the University of Cincinnati. He has taught at the Ohio Military Institute in Cincinnati, the University of Michigan, and the University of Cincinnati.

MILLMOS JOINS DR. RIGGY-DIGGY. Shaffer Teaches

Five members of the Kenyon faculty have received contracts from the university, the first new man for the year, and the last to assume teaching duties scheduled for the fall. Dr. R. Daley is now teaching classics at the University of Oklahoma. Dr. J. Robinson taught during the summer at a college in Georgia. Malis, he will soon join the Riggy-Diggy at Oklahoma State Agricultural and Technical College, in Stillwater, Okla.

Charles A. Miller, Jr., assistant professor of Romance languages, has left for the University of Michigan and has resigned his position there to become assistant dean of the University of Cincinnati.

POWELL CONSTRUCTS COSMIC RAY CHAMBER

What is probably the largest cloud chamber in the world, designed to advance the scientific work in atomic and cosmic ray, has been constructed this summer by Dr. Harold T. Powell, Assistant Professor of Physics in the Kenyon College physics department.

The chamber was constructed previously built, D. Powell's cloud chamber men- tioned at a meeting of the electrical society and weighs about 200 pounds. Kenyon senior, Rodney Morton of St. Louis, assisted in the construction, taking charge of all electrical circuits.
EXERCISE CONSIDERATION

A man closely associated with Kenyon, who yearly gives away a great deal of his generously available time and training to Kenyon men and yet has never received the singing lifetime or professional consideration due him, is Dr. John Drake, '24, of Mr. Vernon.

As such the willingness with which he gives free medical advice to Kenyon men is known, few of the many men in school who have called upon his services realize the difficulties he must undergo in attempting to appeal gracefully the needs of his regular Mr. Vernon practice and the Kenyon men who call at his office.

Drake has devoted his life to the pursuit of medical care and his excellence has built up a practice that is large and must continue to be tremendously timely.

Chief imposition placed upon Dr. Drake is due to the in-comprising undertakings Kenyon has made to the medical attention which the college offers through the yearly medical fee. Result of the misunderstanding is that services given by the doctor to students by means that the obligation of payment rests upon the college and are not paid by the college which is under no contract to pay the bills. Consequently Dr. Drake, who has readily given his time and advice, receives no fee.

Dr. Drake will be in attendance in the dispensary at Rosse Hall during the next several days and any one may arrange to receive their medical advice at this time and not during Mr. Vernon office hours when students invariably disrupt the routine of the office. Miss Kenyon, the regular patient and impose themselves upon Drake’s good nature and generosity.

EXPLANATION DUE

Of interest to every man who attended Kenyon last year and every Kenyon graduate will be an explanation by last year’s editor of the Reveille of the reason for the entire suppression of Middle Kenyon from the year book. Made up of more than twice the number of students in any other division on the Hill, Middle Kenyon under the Drake-Davis system of discipline has given an impression of Middle Kenyon at Kenyon, certainly awaits an explanation with enthusiasm.

The Kenyon COLLEGIAN offers a column of this page to the ex-editor of the Reveille, wherein to edit this article to explain his effects.

ASCENSION HALL OFFICES ALTERED

pres. and T. S. Unchanged

Striking changes in the physical Kenyon which will be noticeable to returning Kenyon undergraduate and Kenyon alumni is to be seen in Ascension Hall and the college grounds. Most noticeable of these alterations is to be found in the first floor of Ascension, where the offices of the Dean and Registrar have been moved to the north, chapel facing and of the building. In order to provide for the present and the changes which has resulted in the new spacious office room, a new hall way had to be built which extends from the entrance of Ascen- sion Hall to the history room, to be seen by Miss Taylor’s office and before last year, the swimming laboratory. The new hall way leads from the entrance of the buildings.

STEEPLECHASE BUILD

In connection with the new construction for Kenyon horsemen, an obstacle course has been built in the fields adjacent to the Dinwiddie House of the course of four jumps, a hedge, a high log, a mound and a five-foot ditch.

SOCIETY

Mr. Ray Ashford has had as his breakfast guest for many days Mr. E. C. Weiss, formerly of Gambier, married Miss Hulda Holyoke, at the Kokoing Lodge, Gambier. Mr. and Mrs. Weiss were entertained in their hotel in the last summer months.

Mr. C. Ferguson from ASCENSION and Kenyon can twice to the last week end on the shores of Lake Erie.

Mrs. Few and her sister have spent a few days in Mexico this summer, and have returned home.
