Homesteading annually results in more increased dividends being paid to the shareholders. The directors purchased the full-insured building before the war and are planning to produce more of the company's earnings from the loan made to V. A. of America. They have increased their dividend to shareholders by an average of 30%. The company's stock is still held by the original shareholders. During the war, the company has been able to increase dividends on the stock by 30%.

**S. CRUDELL—Koby SELLER—Guard MAY—Tackle IONES—End**

A gay which may need filling due to the weakness of France's injured infantry. It was in an end position that France entered as a high-school threat in Cleveland. In case Hancock was moved up to the line, Sammy Curtis will go into his place at quarter.

DICK OLIN

*Varsity Captains*

"Kenyon has been steadily improving since its first two games," said Coach Dwight Hatfield, when interviewed Friday. "It is especially in the line that remarkable improvement has taken place, and we hope that by the last game of the season the squad for the first time this year will be equal to the strength of the entire line." Joe Warner, "41, has begun to get in shape, and this continued with his outstanding aggressiveness, will do much to bolster a previously erratically directed line. Hancock may go in at end during the game against...

Two new airplanes to replace 'Fleet,' "Curtiss Fledgling" Double Program Of Economy And Increased Safety Made By Donor and Inventor

**Kenyon athletic department head, Instructor Gerald Graver, in-**

SSON'S RIGHTS IN THE "WISACRE*" intelligent, to the right of the Kenyon Annuals Department to purchase two 1935 model Taylor- craft airplane with engines for use at Kenyon college, to replace the present equipment.

"Mr. Graver said: "This purchase is part of a double program of improving and increasing safety. The equipment in airplanes was originally scheduled for next year, but T. W. Graff, donor of the Department of Aeronautics at Kenyon, has announced his intention to add two "all-air" airplanes from monomotor Curtiss 'Fledgling' models to the fleet, to be ready for use in Delightful.

"Mr. Graff went on to explain that the Curtiss 'Fledgling' planes is preceded by the Taylorcraft tractor plane, which is a small but dependable machine, that will be at the center of the campus on Friday night.

**BOTHWELL ELECTED FRESHMAN PRESIDENT**

Meeting in a bid, the first of the 1934-35 Freshman men, who were elected president of the Freshmen class last year, and Don Kane made the election. The election was held in Phi Hall with Jack Oh, seniors president, acting as chairman.

"A World of Living Things"
Politics on Way Out

Within the last four years, inter-fraternity politics, previously rampant on the campus, have been reduced to an almost invisible condition. Shifting examples of the current good effects which this transition has brought about were evidenced last week on the occasion of the freshman elections.

Two freshman representatives from each division were chosen to comprise a nominating committee. Through these representatives, each division was asked to nominate a slate for the president's office, with the members of each of the three offices to be voted upon. A vote was taken which resulted in the following tally: Freshmen, 187; Sophomores, 187; Juniors, 178; Seniors, 178. The three men receiving the highest number of votes for each office were:

President—Henry B. Hulbert, B.A.;

Vice-President—George A. Preston Jones, B.A.;

Secretary—Martin H. Kline, S.B.

The “Wettest” Man

He who really shows himself to be the “wettest” sophomor in his class in respect to freshman hunting invariably passes without much opposition. Such a man is M. H. H. Nimir. Freshman riding is annually exercised by the petrified individual who hereafter has had little or no chance to assert what he is quite sure is his due in authority. He is fun to watch for he realizes that the span of his authoritative enforcement is fleeting and he needs must crowd most of his wit ness into a few short weeks.

Stamp Out Syphilis

Elsewhere in this week’s issue of the "Collegean" will be found a brief report of a campaign inaugurated at Ohio University to aid in the country-wide drive to check and eliminate syphilis. The purpose of the campaign is to educate students of the University and other youths about the disease, and to encourage the success of the nation-wide plan proposed by the Massachusetts legislature and Dr. C. W. Stirling of the The Rockefeller Foundation.

Kennedy freshmen have yet to hear the Kennedy Victory Bell.

WHO WILL REVIVE “FATS” FANCY FOR CYCLING ON INCINERATING RHYTHMS?

For years some ambitious freshman at Western College, used to ride his odorless motor bicycle over the campus, was the object of some calls and many sighs from the members at that time. ’Cussie! A biker is the kind of fellow who can make you see the campus might cause "Plais to view with alarm the wearing of "scurvy bicycle" upon the innocent people of the land. If you knew the origin of the word 'scurvy', you would think twice before you'd don one of these rusty steel contrivances that typify "scurvy bicycle". This "scurvy bicycle" which is nothing to "Bike and the Derelict" in Cleveland "twister" when commuting between Harvard Dormitory and "Stool Nuts". Can it be that a new fad or innovation is on foot to please the public during these days when the thought of a new idea in dress or food is one that sounds the word 'scurvy'.

If you haven't yet seen the "scurvy bicycle" then you are one of the fortunates who has not had a chance to see a most peculiar occurrence that has been happening quite often lately. No doubt you have noticed the noise made by the "scurvy bicycle" while it is in motion. One Kennedy man was recently identified, and strategy to fight the fad in favor of the more correct method of travel, was made. This plan was to be put into effect by the end of the week.

Poll Waterman Test

In a recent campus survey at 190 Ohio University students at Athens, Ohio, asked, "What is the best defense for the campus?" the question, "Should a student be required to take the Waterman Test in order to receive an admission to the university?" The required number was two, but the number which was equal and the balancing number was not. The number of votes was 

There will never be an understanding of expectation, with everyone watching for the next move to be made the first break.

The freshman class is ready to adopt the plan or to bring it into the open where it may be properly aired. At present, the dons are not in favor of a change in the freshman admissions test, and the amount of difficulty that will be encountered with the plan, has prevented the plan from being put into effect.

Off the Tombstone

The freshman class attended a reception at the home of President Ethan Chandler, which was held on Thursday evening. The reception was in honor of Mr. Lockwood, who has been elected the new president of the college. The reception was attended by many students and faculty members, and was a great success.
**CONVOCATION OCT. 29**

By Jack Barlow

Monday, October thirty-first, the students of the University and faculty members will assemble in the gymnasium for the annual Convocation. All students are expected to attend the assembly.

**SEASON PLANS MADE BY KENYON SINGERS**

Kenyon Singers held their first rehearsal of the fall yesterday evening in Phi Alpha. Nearly forty singers were assembled on members of the group.

Kenyon Singers is a men's glee club led by Dr. C. E. K. Scheller. The club's main goal is to provide an outlet for students to express their musical talents. The group practices weekly and has a robust repertoire of songs.

Intramural Football to Finish This Week

A place at the starting line of the four-week intramural football league reveals that the competition is roughly equal to last season's four-week league.

The two participating teams are the White Lanterns and the Blue Lanterns. The White Lanterns are currently leading the league with a perfect 2-0 record. The Blue Lanterns have a record of 1-1. The championship will be held on November 14th.

The White Lanterns are expected to win the championship, but the Blue Lanterns are not to be underestimated. The Blue Lanterns have shown great resilience in their games, especially in their recent victory against the Scorpions.

The White Lanterns' star player, Tom Johnson, has been instrumental in their success, scoring two touchdowns in their last game.

The Blue Lanterns, led by Tom White, have also shown great potential, with several key players stepping up in their absence.

The championship game will be held at the university's football field, with thousands of fans expected to attend.

Athletic Ass'n. Opens Season Pass Drive

(Continued from Page One)

The Athletic Ass'n is excited to announce the opening of the season pass drive for the upcoming football season. These passes are available for purchase for both home and away games. The pass includes entrance to all home games and a discount on away game tickets.

The season pass drive will be open until November 1st, after which time the regular ticket prices will apply. The Athletic Ass'n encourages all fans to purchase their season passes early to ensure their seats for the upcoming season.

The season pass will also include access to the exclusive fan areas, including the locker room and the team's dressing room.

More smokers everywhere are turning to Chesterfield’s refreshing mildness and better taste. It takes good things to make a good product. That’s why we use the best ingredients——a cigarette can have—mild ripe tobaccos and pure cigarette paper——to make Chesterfield the cigarette that smokers say is milder and better tasting.
