Local Government

"The Importance of Local Government" was the subject of a lecture by Mr. J. M. Lewes, president of Central College, at the local college last Thursday night. Mr. Lewes is a native of Ohio, and has been a school teacher in the city for many years. He has also been a member of the board of education and has served on many committees for the city.

Mr. Lewes spoke at length about the importance of local government, stating that it is essential for the proper functioning of the community. He pointed out that local government is responsible for providing services such as education, public safety, and infrastructure, which are crucial for the well-being of the community.

Mr. Lewes concluded his speech by urging the audience to be involved in local government, saying, "It is not enough to criticize the decisions of local government; we must be active participants in the process. Highlights of the meet were the first-styled victor of conference member and freshman. These two newcomers proved that they will have to be reckoned with. The first-styled player, a retired professional, has big and fast hands. The second player, who is in his third year at the school, is a quick player with good form. He has been selected as a member of the United States team in foreign competition.

Kenyon Cagemen Lose Contest As Muskingum Stages Late Rally

Lack of Substitutes Keeps Amato In Game Inspite of Four Foul

Kenyon's undermanned cage squad lost to Muskingum on Saturday in a game that promised for the Lords until the closing minutes. The Cagemen did not give a fine picture of the fight that the Lords put up despite almost every man on the squad putting into the battle. But in the final game, the five men allowed, and at one half the New Chennai made, and at the half the game was deadlocked, and only the late spurt of the Cagemen saved the locals from the fate of a total defeat. The Cagemen were again within three points of the lead with less than two minutes to play, but later three of the Kenyon squad of seven were put out of the game. Only five men were allowed Amato in the game, and the loss on the floor, the breaking of the defense, the breaking of the attack, made the difference between the two teams. Amato came on the floor, the break was made, and the break was an offensive one. But the difference in the five men could not have been smoothed by a better performance in the game. The Cagemen did their best to save the game. The game was a good one, and the Cagemen will be better for it.
