baseball balls were the same color, but one was made of rubber and the other of leather. The one made of rubber was lighter and easier to hit, but it also faded quickly. The one made of leather was heavier and harder to hit, but it lasted longer. The choice of which type of ball to use depends on the player's preference and the conditions of the game.
Skull Work, Blocking Featured in Spring Football Sessions

Coach R. J. Kutler began football practice Monday, April 9, in preparation for the 1941 season. Kutler outlined the program as follows:

"Spring practice at a college like Kenyon is always a problem because there is liable to be too much interference with other sports. So many men are participating in spring sports. This year, in order to avoid interference, the spring sessions will consist of two before and demonstration periods a week with actual practice on Sunday and Saturday. The spring sessions will be before three o'clock and will have the aim of acquainting the men with the system of offense and defense which will be used. The practice will be mainly devoted to blocking."

The practice will end with a two-day tournament of events in fundamentals. Ribbons for the first five places will be awarded in line blocking, open field blocking, tackling, punting, passing, place-kicking and running. The winner will be determined on the basis of attendance as well as high score and will be awarded a trophy. The general aim of spring practice will be to acquaint the men with the system and to prepare them for the fall season."

FUSILLY SLAGGERS

ROB QUALITY

Reverend Tom Barrett is coaching Kenyon's lacrosse team again this year. The current season will mark his second year as mentor of the lacrosse team.

Coach Barrett played baseball at Alfred University where he was a hurler on the school's Freshman team last year. He has moved from the varsity this year with almost every Fusilly slugger as a player a member of the starting nine. Tom's helpful hints have been a great help to the younger men, already responsible for the success of the last year's Fusillys."

BARNES INVITED

President Chalmers has invited Bruce Barnes to re- turn to Kenyon this spring as tennis coach. The prepare to mark his third year as coach of the purple and white team. At the present time, Barnes is in the East, which might make it difficult for him to come to Kenyon.

Spring Sports Give Added Life To Intramurals

With spring in the air we must now bid fare-well to winter and fill our calendar with strenuous intra-mural activities. There were many close races in the different sports with the most notable of these the basketball race in the White language which for three times produced a triple tie. Middle Kenyon finally came through to win the White league series and eventually the school championship.

Middle Leonard pulled more than their share of the prizes out of the match, but North's success in giving up and instance now is only thirty points out of first place. The race for the intramural cup is now almost a two-way event, but anything can happen between now and the last game. A difference of 156 points separates Middle Kenyon in first place, Middle Leonard in second, North Hamma in third, Middle Kenyon in fourth, South Hamma in fifth and finally South Leonard in sixth."
