Flying Assured for Next Year

It was announced last week that continuous flight training in Practical Aeronautics and Flight in Kenyon College is now reasonably assured. Only unforeseen exigencies of the National Defense program will interfere with carrying out the arrangements now completed to re-establish the regular program of instruction in aerodynamics for college students in Aeronautics.

The announcement comes after a period of several months in the Aeronautics program in the College following the resignation of the head of the school and the hiring of a new instructor under whose direction the flying school was carried on. Kenyon, the pioneer in college flying, in 1914, College authorities have taken many months to re-establish the program in order to secure the unusual merits of the Kenyon flying system, a method of instruction which had been notably successful.

Paozolli Receives Football Award

Football captain Gage Paozolli of Gambier was selected by Coach Kuyler to receive the Outstanding Player Award. The award is given to the player who shows the greatest amount of cooperation, sportsmanship and improvement during the season.

Husband Buys Wife's Cooking

“Good morning,” is a man’s Habit which he takes when he stands in line and pays for his cooking. As a rule the times will vary from 6 a.m. to 8 a.m., depending on the husband’s status. At around 7 a.m., the wife’s biscuits will be ready.

Arrangements Made for Summer Term

This summer for the first time in its history the College will hold a summer session, offering courses from the regular curricular program. The summer school will begin Monday, June 23, and close Friday, August 1. Classes will meet five times each week, and each student is limited to two courses. Tuition is $40 per course; room for quarters in the College dormitories will be $15. One of the main features of the College will be the addition to the College course of a special program for those who wish to graduate in the College within four years by taking classes in summer session.

Labrecs Club Feted in Peirce Hall

On Wednesday, May 28, the Peirce College of Gambier held its last meeting of the year with a luncheon in the private dining room of Peirce Hall.

Lattner Enters Tennis Tournament

On June 11th the Kenyon tennis team consisting of Ken Dally, Alan McDowell, Bill McMillan, and Carl Mitchell were accepted into the University of Chicago to compete in the NCAA tennis tournament.

The Lords will undoubtedly come out against the strength of the competition they have to face. They will be in competition with the big ten and the single champions, Seymour of Rose Bowl, and U. of Michigan. It will be a welcome change to win the tournament with a doubles championship.

The Army Wants You!

An Army Scout has just a rise in the Signal Corps for a special group of officers. Personnel is undertaking a drive for men to make up this group.

TEN ARE AWARDED HONORARY AND
AS CLASS OF 43 JOINS ALUMNI RANKS

Summer Conference To Begin June 16

From Monday, June 16 to Tuesday, June 24, the 25th annual Gambier Summer Conference will be held on the campus of the College. This year’s theme is “Resources for Christian Living,” with Rev. Thomas A. Carruthers, president of the National Baptist Convention of the Episcopal Church, who will be the speaker for the week. The conference will be held from the 16th to the 22nd. The College will be open to the public, and there will be several general sessions.

The Rev. Thomas Barrett, chairman of the conference, will be assisted by the Rev. Benedict Williams, members of the faculty and the student body; Miss Edna Beardley of the Christian Analyst; and Mr. Peter’s Church, Albans, N. Y. will be a day conference as a part of the program.

In addition to the courses, participants, the members of the college and local social and social activities, using the facilities of the college in which their buildings are housed.

Flying Team Out to Regain Championship

On June 11th the Kenyon College Flying Club will hold its last meeting of the year with a banquet in the Peirce Hall dining room.

The Club has been invited to compete in the National Intercollegiate Flying Meet at Fairmont, West Virginia, in late June.

The Club will be represented by three registrants for each of whom is flying and would carry the weight of the program. The Club has been asked to send three entrants from the College of Kenyon College, at least one of whom will have flying experience.

The Club asked if the College could help to support the program, and is asking for the College’s support.

This is an opportunity for the College to come out against the strength of the competition they have to face. They will be in competition with the big ten and the single champions, Seymour of Rose Bowl, and U. of Michigan. It will be a welcome change to win the tournament with a doubles championship.

Mumble Mumble

We eat in an orange corner of our Universe for the first time. As we were raising a generous portion of salad from our plate a terrific clatter arose from the vicinity of the Senator table. We glanced up to see the headwaiter bending over a table, trying to pick up something. We were going to make another announcement.

The headwaiter stopped pounding, stepped up onto the platform, and shouted from the attack, and yelled: "There will be a very important announcement to be made thru the loud voice he is not understood by anyone sitting more than ten feet away. We decided that something should be done by next September. We have beenstraining to hear those voices to keep our hall clatter for years. So far we’ve understated just half of one announcement.

So after a lot of research we are able to make the following suggestion: install a loud speaker system.

It is possible we here find that loud speaker systems are not too expensive. Many of the instructors have sold for less than fifty dollars (even though they have sold for more than sixty dollars). But we are sure that it could be set up inexpensively and its use would be almost unlimited.

Besides making all announcements and speeches, they are capable for the first time to be heard by the people in the gallery. We are able to make the announcement that we have long expected.

We won’t say, then, that our re-employment policy for the coming year is going to be just the same as in the past, but it will be very similar. Many of these cards are stacked against the class of forty. On the contrary, never in any period of the history of the University have we had such opportunity for good men. We do not imply that there is going to be any easy way to make everything rosy. It will be hard. Times will be hard.

A lot of young college men who are graduating this year will not be able to realize any profit on their big investment in that college education. The outlook is uncertain, and none of the advantages set out below.

Many’s graduates, however, have spent four years at Kenyon College. They have the opportunity to experiment and are better prepared to shoulder responsibilities. Many’s graduates are the day gone when one could say, "they are sure to succeed," but they have the opportunity to experiment. Many’s graduates have had four years to try to decide what to do with their lives. The odds are just about even.

Harry James fully earns his designation as an Bix Beiderbecke’s trumpet with an amazing two-armed virtuosic piece "Trumpet Rhapsody." The trumpet he uses is a very excellent brass instrument and is a product of Tuscaginini or Hokostel. From the same symphonic acoustic registry, Harry switches over to swing on the second aide and he really goes to town in typical James fashion, with a lot of high notes and very fast tempo. This is the second recording here is the first recording of his collection of jazz masterpieces.

"Trumpet Rhapsody" (Columbia)

Tommy Tucker, one of the up-and-coming young Trumpet players in the music business, expresses his first dance number with the Swing time which should meet with popular acclaim. Lou Brown is an extremely effective vocal. Don Brown is featured on the other side. "You Are the Sunshine in My Life.""

"You Are the Sunshine in My Life." (Victor)

Savoy Kaye of Swing and Savoy fame turns to recording which are always pleasing to the ear, as are the titles offered by Peter Pauper in previous records. The Peter Pauper Private Press was founded by Dr. S. P. I. Saule, a Belgian couple who want to publish books and magazines of high quality, regardless of the cost. In ten years operating from their establishment in New Rochelle, they have printed a varied number of titles and have won considerable acclaim as for the beautiful printing and binding of their books.

This year’s edition includes The Wicked, and Confessions, such an bound appropriately in bright floral cloth over paper with the titles offered by Peter Pauper in previous records. Dr. John Drake’s annual party for the seniors was held on Friday night. Many classmates and friends who are likely to have enjoyed themselves immeasurably by their presence have been waiting. We are sorry that the guests missed the last part of the party. The guests enjoyed themselves and were more holding their own.
DALBY WINS SINGLES FROM MCDONALD; McMURRY, MITCHELL CAPTURE DOUBLES

KINGERY CHOOSES TRACK CAPTAIN

Kingery was elected captain of the 1942 Kenyon track team. During the current season Kenyon was one of the main stays of the team due to his splendid running in the distance events.

Ken also is a member of the Ohio Conference champion swimming team, on which he excelled in the distance events. Athletic Director Rudy Koster has stated that the following list of men as members of sports teams will receive varsity awards.

Golf—Revere, Cheselick, Capt, Lindt, Tangest, Tietze.

Tennis—McKee, Bolton, Dalby, Holt, McDonald, McMurray, Mitchell.

RIDERS HOLD FINAL PARTY

Members of the Riding and Polo Club and their friends enjoyed themselves at the club's final party on Friday at the Kenyon-Culver jumping course. The winners were awarded by Dr. Ashford and Wittenberg. This year and plans were discussed for next year. Beer was drunk and songs sung.

KINGERY PLACES IN CONFERENCE MEET

Denison university won the Ohio Conference Track Meet at Wooster May 31 by 11 points over Oberlin. Two points in the Kenyon men's race became examinations listed with the plans of going to the meet. The Lord's lone entry was Kingery, next year's track captain, who went two miles of his life to finish in fourth place and Dobbs of Ashland won the event.

Coach Roxy Keller is very happy over the outcome of the meet and of the five boys over the the ten inch and the Lords were able to add the scores to the in the fall of the the meet. Herrick went the entire route for the Gambler team.

dlo on the best of the three meetings.

To Wittenberg.

On May 19, the Kenyon College baseball team finally hit its stride when it battered Capital University in an 8 to 5 setback on the Hanley diamond for the first baseball victory that Kenyon scored over that team for five years.

The Kenyon nine bunched their hits getting four runs on five hits in the seventh inning to go ahead.

A few days later the Lords encountered a mighty Goucher team on the Reverend Boswell field but only to best it in a thrilling and thrilling game that went into extra innings. Witter and McLeod led Goucher for a similar contest in October.

LAFAYETTE, INDIANA—A Purdue student was discovered by a group of columnists in the library on a dance night doing homework for his "party girl" while she had a date with another fellow.

"Purdue Express!"

AKRON, OHIO—There is a room in Hope Hall just for tired students. It is a fairly large room, equipped with the most modern bed, chairs, and even a bed on the room, a table, and a table with a green leather cushion. It has ten prints, lots of books, and a lot of cool beer in the room. But even a sitting room and a microwave, even with a six-footed area can be covered with one sixteenth of an inch of dust.

Just what the doctor needs. The rubber chemistry lab is the same floor.

"The Akron Bulletin"*

OSWEGO, OHIO—Some have lost their faith in God, some have never faith in male and all others have lost their faith in themselves. Students are up to say, "See what college has done for them." But they don't know it would have happened otherwise, whatever came to college or not.

Is it all a loss of faith? Some have found some inspiration, some have found a touch, and still others have found themselves, that is two often bandied about without thought—love.

THACA, N.Y. (ACP) College of Religious is the right mind to the extent that in granting Cornell a university money.

So well attended are the Sunday services and activities of the United Religious Work program that the board of trustees has planned plans for enlarging of Buck Chapel. The chapel was built in 1875 by Henry W. Sefo and later called. Now the trustees have authorized an extended construction, accommodating an additional 200 persons.

Muskingum Win Central Ohio Track Meet

Muskingum College emerged as the winner of the Central Ohio track meet held at Denison May 29, as the Denison team performing before a home crowd finished in second place.

The Local track team gained all of their points in the running categories, they did not place in one field event. Len Shell ran his usual good race in the mile and in the half-mile, finishing third in the former race and fourth in the latter. John Konopak flashed home in fifth in the 160 and the 220 yards dashes.

Ken Blevins proved once again that he is constantly improving when he crossed the finish line in second place in the ten-mile grind. The Kenyon mile relay team of Koday, Abena and Storm collaborated to gain a fifth place.

The SUNSET CLUB
Friday and Saturday Night Floor Show
10:00—12:00—1:30
TINY BRADSHAW and HIS FAMOUS BAND
Sunday Afternoon—3:00 to 6:00
JITTERBUG JAMBOREE
Also a floor show

The show was all about the teams and the teams were all about the students. In each of these programs, and in most of the others that the Committee is preparing, it is assumed that the student intending to go on to advanced engineering work will take summer courses at engineering schools, while he is still an undergraduate, in order to dispose of the necessary technical prerequisites before he goes on to advanced work in engineering. So such courses in most cases would be surveying, arranging, drawing, and such courses in surveying which are run by the technical laboratories for their own undergraduates. This technical nature, in technical in nature, will be counted toward the Kenton major in Engineering Science, and toward the advanced engineering degree; it cannot, however, be substituted for any of the 120 academic hours of credit required for a Kenton Degree. Students planning to go on into engineering, especially those preparing to go in to industrial or other activities important to National Defense, should plan to take additional technical courses during the summer of their undergraduate years in order to reduce to a minimum the time required to earn an advanced degree in engineering after graduation.

Preliminary talks have already been held with The Ohio State University and with the Case School of Applied Science for the purpose of working out a summer and detail the summer courses in pre-engineering work which should be taken by men who plan to go to these institutions.

Some in the books, a Kenyon graduate who has taken a major in Engineering Science will be able to get an advanced degree from these institutions in a minimum of four quarters. On Thursday, June 5, Dr. Borton visited Massachusetts Institute of Technology in order to make similar arrangements. After the Commencement he plans to visit Carnegie Institute of Technology.

As soon as all the details have been worked out, Dr. Borton's Committee plans to release a bulletin detailing the new major in detail. Meanwhile, students who are interested in the new major should consult with Dr. Borton or other members of the Science Division as soon as possible in order to plan their work effectively.
