Two Graduates Write of JAPAN

ATTACK ON PEARL HARBOR

By Tom Snyder, Jr. and Bill Jenkins

(Opening the Coliseum gates) — With five
Kenten men in Hawaii and two in the Philippines, we
thought it only fair to present this account of the
permitting of the attack on the islands on Dec. 7. In Hawaii
Douglas MacArthur, Gen. Robert E. C. Bliss, Bob Mitchell,
Clyde A. Robach, and in the Philippines, Maj. Gen. Harry
R. Crocker, Jr. (Naval). The following is an eye without ac-
sion, according to Maj. Gen. Harry Jenkins (D.C.A.),

Service Enlistment
Program Announced

Since the question, why, when, where, and how to join the armed services is
in the thoughts of colonels,
we have listed ways of enlisting
in the army or navy.

Student Life

(Formerly New Student Life)

Student Life of America was the name chosen yesterday for the newsletter published at the Harvard convention of the National Student Life groups, held at Harvard University. The student life newspaper will be a monthly publication for members of the groups formerly known as the Student Defenders League and the Progressive Action Coalition, the two main organizations of the National Student Life, and is intended to further the cause of Democracy and America's Volunteers.

The constitution of a nation and the election of officers and a national executive committee closed the organization's convention. Said Swander in his closing remarks, "We have faced a crisis in the last five years. In the present crisis we have a tremendous responsibility to our nation and to the world. It is our duty to see that the war is won and that the peace that follows will bring a better day for all mankind."

The convention opened last Saturday, September 21, at the University Club, New York City, and was attended by representatives from the student life groups throughout the nation.

Tightening of credit is to be made in connection with the curtailment of college publications, according to the New York Herald Tribune. The move is designed to cut down on the amount of money spent on publications.

The convention was a declaration of intention in setting up defencé plants on the campuses of the nation to prepare the nation for the war. The students, according to the convention, are being urged to make every effort to secure a defencé program.

Among resolutions adopted by the convention was a declaration of intention in setting up defense councils on the campuses of the nation to prepare the nation for the war. The students, according to the convention, are being urged to make every effort to secure a defense program.

"Threshold" is a magazine advertising that it is "devoted to the presentation of the best writing and thinking of students." Through the pages of "Threshold," students are encouraged to think and express their ideas.

Eberle Statement

Captain Frederick Eberle, riding instructor at the University of Notre Dame, has issued a statement which we consider to be of great importance to the student life movement in the nation at this time. Captain Eberle's statement is an articulation of the position of the University of Notre Dame and the colleges and universities which have advised him of the same purpose.

"We have decided," he said, "that there are some fundamentals upon which we cannot compromise. These are: the freedom of the individual to think, to work, and to live as he chooses, without interference from the state; and the right to free and open discussion of all issues that affect the welfare of the individual and society."
