11-20-1942

Kenyon Collegian - November 20, 1942
METEOROLOGY TRAINING ANNOUNCED

Announced November 15 by Dr. Chalmers was a program by which college students with a knowledge of mathematics and physics may enter the Army Air Corps to study meteorology. There are three classes of study. Under Class A instruction in meteorology is given at five specified institutions. Enlisted in Class A have an eight months training period during which they are cadets and receive $75 per month salary. Only students who have had courses in mathematics, through calculus, and in physics, through heat, are eligible.

Entrants in Class B must have had mathematics through calculus and at least one year of

THANKSGIVING FINDS MEN ON HILL

Since under the present cut plan most students cannot afford the double cuts given for the last class in each course before and the first class in each course after Thanksgiving, most Kenyon men will remain on the Hill for the turkey dinner to be served in the Commons at one-thirty P.M. Thanksgiving Day. Breakfast on that day will be served from eight thirty to nine and there will be no evening meal. There will be no academic appointments to be met Thanksgiving Day which is the only holiday of the term.

The Church of the Holy Spirit will hold a joint religious service at the Methodist church Thanksgiving morning.

DEAN HOAG ABSENT FOR THREE MONTHS

In connection with the new meteorology training program for the Army Air Corps, Dean Gilbert T. Hoag will be working away from Kenyon for approximately three months. Dean Hoag will be engaged in selecting students for the Class A and Class B programs, but will not be concerned with Class C. He will carry on his work in the Fifth Corps Area, that is, Ohio, Indiana, Kentucky, and West Virginia. He will be visiting educational institutions throughout this area, and thus will be travelling most of the time.

During Dean Hoag's absence, Mr. R.B. Brown, Alumni Secretary, will be acting dean. His hours in the deans office will be from 2:00 to 5:00 every afternoon, Monday through Friday.

Dr. Paul A. Palmer, Service Representative at Kenyon, will

KENYON TO HAVE METEOROLOGY GROUP

According to a report from the Dean's Office, Kenyon will have a group of Class C men under the Army Air Corps Meteorology Training Program. The presence of this unit will unavoidably affect the college, but it will nevertheless continue to operate for Civilian exactly as before.

There will be a temporary disruption of the living situation caused by the entrance of so many more men. Mr. Brown and the Senior Council are now working on this problem.
STUDENTS LEAVE FOR ARMED FORCES

Since the opening of the present term in September, seven Penvon men have left school to enter the armed forces. These include Leonard Snellman, who completed his work for graduation at the middle of the term, and Hank Spelman, Bill James, Andy Morgan, Dixon Hunt, Jim Garber, and Mac MacCormick.

Snellman, who is enlisted in the Army Air Force Enlisted Reserve, is now at his home in Philadelphia, waiting to be assigned to a meteorology school for further study and preparation. James and Spelman left to enter the Marines. James resigned from the Marine Reserve. Hunt and Garber asked for active duty under the Army Enlisted Reserve Corps Plan of which they were members. Both left school early in the present term. Morgan is to be drafted soon and is now awaiting call. MacCormick left school intending to enlist in the Marine Corps.

NAVY PROGRAMS NOT CLOSED

The statement made in last week's Collegian concerning the closing of the Navy V-1 and V-7 reserve programs was in accordance with directions received from the Director of Naval Officer Personnel. It has since been announced by the Office of the Dean that this announcement has not been confirmed and probably is not operative. Therefore, men who do not fall under the classification listed in this paper last week, but who are desirous of enlisting in one of these programs may still have an opportunity to do so.

The Penvon Editorial Board, which includes Leon Leonard, Henry Pitts, and Robert Ballantine, has been active in preparing the Penvon Collegian.
BASKETBALL PREVIEW

Ever since the beginning of the fall term the basketball team has been holding practice three nights a week. During these evening workouts Coach Imel has been stressing the fundamentals of the game, and developing the team’s accuracy by devoting several minutes every evening to free throwing.

Last year the basketball team ended the season with nine wins against seven defeats. Though this may not appear to be a very impressive record, in reality it was a very successful season in that it was the best showing that any Kenyon team has had in a long time. In addition to this, the ’42 squad broke an all-time Kenyon record for scoring.

With this encouraging record behind them, the Lords have been working extra hard this fall in hopes of bettering last year’s record. With only a few weeks practice behind them the prospects look fairly bright.

Returning from last year’s squad are Capt. Tom Smith, Bert Jenkins, Bob Davis, Dave Taylor, and last season’s high point man, Russ Lynch. With a year’s experience behind them, these men will probably form the nucleus of the team. Their positions, however, will be hotly contested by Dave Shannon, Bill Reffner and Palmer Harrison. The latter is a freshman, who has turned out to be one of the outstanding prospects of the season, and the former two are mainstays of last year’s freshman team. In addition there are Phil Doughten, manager of last season’s team, and Warren Moore, who has played a considerable amount of high school and independent ball.

With the close of the football season it is expected that several more will report for the team. Among these will be Jim Graves, who appears to be the outstanding find among the freshmen.

FOOTBALL LETTERS AWARDED

Coach Rudy Kutler has announced for publication the list of varsity football players who will receive letters this season.

Heading the list, of course, is Captain Paul Herlick, who is one of three seniors to merit an award. The other two are the veteran Bill "Red" Lehecka, and Rupert Anderson, who played his first year of football this fall. Andy was captain of last winter’s basketball team.

The list of Juniors is headed by Russ Lynch and includes six other men, all veterans of last year’s team. They are Bill Lane, Bill Kindel, Don Ross, Dick Weaver, Jack Jewett, Dave Taylor.

The Sophomores seem to hold the majority of the lettermen, indicating that next year’s team should be well grounded in the Kutler System, should the men be able to return to college then. Don Knapp, captain of last year’s freshman team, and Groff Collett are notable among the soph lettermen. Both of these men were backbones of the ’42 Lords. Other Sophomore lettermen include, Andy Morgan, Pierce McLeod, Tom Murphy, Hal Doremus, Knowles Fitman, Art "Sparky" Vail, Clyde Rhein, and George Whitaker.

This year for the first time in modern Kenyon football history three freshmen will receive varsity football letters. Jim Graves, Brayton Lincoln, and Wilson are the trio selected by Coach Kutler as worthy of the Kenyon "K".

COMMANDO SQUAD LEADERS NAMED

Rudy Kutler announced the names of the sergeants for the squads in the physical training course about a week ago. They are: Dalby, Benseman, Ford, Harrington, Levison, Octigan, Konarski, Faton, Timberlake, Veasey, Herrick, and Parke.
HERE AND THERE ON THE HILL

Strollers on the Middle Path rubbed their eyes and looked twice at Bexley Hall this week. The ancient building has been painted green, a delicate pea green, as a matter of fact. Perhaps the Maintenance Department is striving after an effect of age—that is, moss covered stone. Perhaps white paint—the purest of white paints—would have been more appropriate. At least the new paint job is noticeable.

Don't be alarmed if you see smoke pouring out of the Library any afternoon at three o'clock. The joint isn't on fire at all; Dr. Timberlake has just dismissed his upstairs class. The dozen or so members of that class sit for two hours in the tiny room, doors, windows closed, and smoke. They quit smoking usually when they notice that they are weeping violently and that they can no longer see across the room. Then the class is dismissed. The students stagger down the stairs, followed by a huge billow of smoke. Miss Hicken is wearing a distrested look these days.

DEAN HOAG ABSENT FOR THREE MONTHS
(Continued from page 1)

... act as faculty adviser on the armed forces. Dr. Palmer will be in the Dean's Office in this capacity at 9:00 every morning from Monday through Saturday.

"Lucky Strike Green has gone to war!" Certainly every loyal radio listener has heard that phrase spotted dozens of times during the Lucky Strike programs. Well—the announcer is telling you the Lucky Strike package is no longer green, but white.
