Kenyon to Campaign For Two Million Dollars

A campaign to raise two million dollars for the College
is now being organized under unanimous approval by the Board of Trustees on July 19 at Cleveland. This will increase the total assets of Kenyon College fifty per cent.

Lasting three years, the drive will be directed at those indi-
viduals, inside and outside of the area, a Progressive Course
interested in the welfare of the college.

Of the two million dollars, $250,000 will go towards the
erection of a new library building or the enlargement of the present one; $200,000 will be for the endowment for the operation of the lib-
avary.

$200,000 is to be set aside for the building of a new gymnasium or field house with $100,000 allocated to its main-
tenance.

There is to be a $100,000 endowment of professorships and
chairs. This amount will be sufficient to raise Kenyon professors' salaries to a par-
ty with the leading colleges and universities of the United States.

Among the other items to be taken care of by the
fund are a chapel organ to cost $12,000; an organ for the hostel, $5, 000; aviation equipment to cost $600.

Leonard Hall Reopens

Leonard Hall, opened to students in September 1924, was
built by Ohio College as a tribute to its faculty member
Leonard the fourth bishop of Ohio. One hundred thousand
dollars toward its erection was given by Mr. Samuel Mather. At that time native Science Hall nor the Common-
s described was constructed.

Built in the collegiate gothic style, Leonard is designed to
house about a hundred men, its three divisions being as-
signed to Psi Upsilon, Beta
Theta Pi, and Delta Tau Delta. In 1945 those frater-
nities found it necessary
to move out of the dormitory to make room for Army Units stationed at Kenyon.

Leonard now has been re-
