Kenyon Runs Off Victory Over Marietta, 71 1/2 to 50 1/2

By John Hartmen

The Kenyon thirteens, parading on the field at Marietta College, proved to be the superior Während in an overtime game held in Marietta's Sacerday, 71 1/2 to 50 1/2.

RADIN RELATES EXPERIENCES AMONG TRIBES

In a number of lectures, said to be some of the finest given in the Larue Lecture series, Dr. Paul Radin discussed the culture of the primitive people and the anthropologist's approach to their language.

In describing the philosophy of some of the aboriginal tribes, Dr. Radin, remarked that there is a group which believes that all matter is composed of the four elements, fire, earth, air, and water and various combinations. The similarity of this belief with that of Kenyon philosophy was mentioned in Radin's audience.

Observe Winnebago Tribe

A first-hand fund of the Winnebago tribe of northwestern United States, Dr. Radin, related how he was able to capture some Indian men to relate the secret rituals of the tribe and how their language is written in a down in phonetic script with out understanding any part of the language. He was able, however, to read it to the Indians who were then convinced he knew their language.

That primitive people are not simple minded, and that their ability to understand and express in no way hinder their philosophic speculation were some of the points of Mr. Radin's talk.

Mr. Radin's book The Primative Grotesque, available in the library, further extends the ideas he presented in his lectures.

Library Societies Reorganize With Aid Of 'Collegian'

Following the policy of actively encouraging the re-establishment of the traditional Kenyon activities, the Kenyon College has helped to effect the revival of the Philosophic, the Pi Kappa Alpha Literary Societies. Several issues ago the KC printed an article asking for the revival of these societies but received no response from those who would be interested. Feeling more suggestion insufficient, the collection has asked Dean McGowan, Pi Kappa Alpha, and Dr. Tomlinke, Philo, with other members of the Phi Delta Kappa to be assembled in a central library, the TKA trophy cup now held by North Broad.

TKe Kappa Alpha, the society to which the former fraternity on the Hill whose members are elected for their distinguished behavior in debating and other speaking activities, is the student members on campus. Lloyd Derrickson and Bob Golden, are makink their appearance in the contest which, before the war, commanded sharp interest in the spring terms.

Choir Sings At Toledo

Invited by the Alumni Association of Toledo, the Kenyon choir directed by the Rev. Clement Welch traveled to Toledo on Thursday, April 29th, to sing Kenyon songs and other selections. On Friday the group was asked to the Temple's Museum of Art by J. Arthur McConnell, curator of the Museum and Alumni Association secretary. The choir received a standing room Kenyon, Friday afternoon.

Axtell, '06, Speaks

Ston Blake Axten '06, distingushed maritime lawyer, is to give a lecture on his return from the World's Pedestal at the National Convention in Chicago addressed to the Johns Hopkins University Hall on Monday evening, April 28th. His rose tusk is concerned with the need and nature of world government.

Three Years' Work Yields Plans for New Library

Utility and comfort are keynotes.

The ground work for the proposed library has at last been completed and plans are being drawn up to incorporate the requirements laid down by the committee and considered work is now being done to refine them and to make them the best possible.

The projected building that has already won enthusiasm from the committee is to be 115 feet by 45. According to the architect, the structure includes the best features of a Gothic and Neoclassical building.

Arrangements Made For Commencement

Kenyon College is completing plans for its 1946 commencement. This is the first full program and event of its kind at the college since the class of 1941 received diplomas, in May of that year, and it will be the 110th commencement of the college in Gambier.

The program will open on Friday, June 2nd and will continue through Monday, June 5th. Tuesday will be a full day and the day of the college will resemble in Gambier from all parts of the country. The event will be attended by 30 students, 25 of whom have been serviced in the armed forces.

A special feature of the program will be a ceremonial service, covering the year by the Rt. Rev. Henry Holm, Bishop of Southern Ohio, honoring the thirty sons and daughters of the class who live in World War II.

Honor is awarded to six men and seven women for distinguished services to the nation.

Before his appointment to the committee, Mr. Radin was an instructor in Physical Chemistry at Ohio State University and at Ohio University doing graduate work which will qualify him to receive the doctor of philosophy in 1947. He received his Bachelor of Sciences degree from Bowling Green University in Bowling Green, Ohio.
The Kenyon Infirmary

A few questions were raised in the recent criticism of the Infirmary, which appeared in the April 20th issue of P.S. It is to the interest of the student body that the questions be not only raised but answered.

Those concerned with the subject must first realize one important fact: the Kenyon Infirmary is not intended to be a hospital. The College Physician has been called for a decision. The College Physician and ambulance service are on call for any emergency.

In the accounts of the writer of the P.S. infirmary article did not realize that the conditions of which he wrote were abnormal. During the flu epidemic every Mory Hospital was filled. Palates recognized the halls before the situation was serious in Gambier.

It is also remembered that the Infirmary is a comparatively new institution here at Kenyon. Its service was inaugurated in 1943. Before that time a student who became ill stayed in their rooms; more serious cases whether a severe cold or appendicitis went to Mount Vernon. Be it known also that an infirmary for women only was the size of Kenyon is not as large, but rather the exception. Yet the student is afforded the same environment as he would have were he sick in the same way at his own home.

We are afforded an excellent health service for the assessment which we pay. Of the $10 fee, $2.46 is allotted to group insurance for hospitalization at accredited hospitals, such as Mercy. The insurance does not go to cover Infirmary expenses.

The rest of the fee is allocated to actual infirmary costs. It is a part purpose of the College Physician’s work in keeping the use of the fee merely to note that the infirmary staff numbers three: Doctor, Matron, and assistant. Other expenses are just as obvious. If you’re curious, examine the audit statement in the Treasurer’s Office.

In the two fiscal years that the Kenyon Infirmary has been operating the Health Fee has not covered the expenses incurred. The organization has been made up in the years 1943-1944 and 1944-1945 (through endowment income).

With the foregoing points in mind, it is evident that the Infirmary, on a necessarily limited budget, more than adequately fulfills its aim.

Students To Confer at Prague

An International Student Conference is to take place in Prague this summer from the 17th to the 21st of August. The meeting of the Conference has been stat in the appeal sent to all student organizations:

"We consider that the main problem confronting the World Student Congress will be that of organizing a representative international students' organization uniting in its ranks all the democratic student organizations of the world with the aim of ensuring a lasting and stable peace, of promoting friendship among all peoples and of defending the rights and interests of students." This conference offers a tremendous opportunity for American students to voice their thoughts and ideas for the cause of international cooperation for world peace.

A call to the Conference has been issued by the International Federation of University Students of every country. This Preparatory Committee is composed of representatives of student organizations of twelve countries and is in a development phase. The College Physician will be a delegate from fifteen countries to the International Conference at Prague in November, 1945.

The student body of the College is one of many confused and enthusiastic, and student responsibility for keeping the peace were considered. There was a strong

Kenyon Knighted by Rupp

The first annual meeting of the Kenyon Alumni Association was held on April 8th at the Marsity in the Alumni Room. The meeting was convened at 4:30 P.M. by President Robert H. Jones. The meeting was called to order by President Robert H. Jones. The meeting was called to

Tennis Team Nets Opening Game

With five straight wins in singles Coach Kenyon’s net pushed through to defeat Ohio 5-2 in the first match April 26. The boys had trouble in the doubles and due to the irregularity of partners the dropped all three matches making the score 4-1 come by the next meet vs. Wooster on April 29.

In the No. 1 singles Derham (K) defeated Walz (O) in a long hard fought match. Derham is a consistent and exciting match of the day. Redskins (K) defeated Blessed (O) 6-2, 6-4. In the No. 2 doubles Derham (K) and the winning derivative (K) defeated Byrd (O) 6-2, 6-4. Park (K) is evanished to the meet by defeating Rupp easily 6-2, 6-1. Smokenberg (K) is evanished to Byrd (K) 6-3, 6-4.

In the No. 1 doubles Byrd (K) and Van Meter (O) defeated Derham and Hohmei (K) 6-3, 7-5, 3-7. This was a long and drawn out affair as the Swedes (O) vs. The Swedes (O) was the Park (K) match. This was a tough one to call and the score was 6-3, 6-3, 7-5. The teams were then dropped the next two 7-5, 6-2. In the last match of the day Derham (K) and Hohmei (K) in a powerful set of doubles beat Smokenberg (K) 6-2, 6-2, to bring the score at the end of the meet Kenyon 6-2, 6-4.
The Kenyon men's team came through in fine style on April 29th to defeat Otterbein. There were many tough breaks in the doubles which ended in three straight losses but with a side at 6-8 the men shouldn't have any trouble in the future. The team started off with a bang with Derham, Shively, Hershberger, Harris and Park winning in singles. Derham played a marvelous game and came through in eight minutes. By this time this is printed I think the team will have three more wins to their credit. Keep adding the victories up, fellows.

Coach Pasin's Lords came through in fine style to defeat Denison 4-0. On April 24th but what happened in the Otterbein game? Let's not get our hopes built up just because of one victory. But the team started the ball rolling so let's keep it rolling. We've got the talent. Why not put to good use? The fault can't rest on any one person and its up to you. Mac, to pull a few more victories out of the bag and I know it can be done.

The tracksters seem to be very strong in the field events and with a few wins in the relays the team should go places. There are men on the campus now who are not participating in any athletic events and who can be of great assistance to Bob Parmele. Why not help bring in a few victories, men? Track relay men and sprints and with the help in these categories we should have a well developed team, but not until each man as these turn out.

**VICTORY BELL SOUNDS**

**BASEBALL TRIUMPH**

After a silence of over a year the old victory bell rang the game was a relay throw from McGregory to Zelinsky to Bowerman nabbing a Denison 26. Then allowed Denison runs on third. The team has a strong pitching staff and with the help of our boys and the good fielding the nine should add more victories in the fu-

Cruise with Luckner

Professor Frederic Eberle presented an illustrated lecture on his Caribbean cruise with Count von Luckner, to the German club, April 18th, 1946.

The voyage was made on von Luckner's 36-foot four-masted sailing boat, "The Faterland," in June and July of 1930. With Mr. Eberle and Luckner were forty-five American boys, trained in the technique of sailing.

They set sail from the Hudson river for Bermuda, then to Barbados, Martinique, Trinidad, St. Thomas, Porto Rico, the Bahamas, Cuba, back to the Bahamas, and again home. The two month voyage proved an excellent opportunity to learn much of the history and existing conditions in the various islands, related Mr. Eberle.

Inequality of wealth was most noticeable in Barbados. The English enjoyed luxurious living, while native culture was retarded by extreme poverty.

Throughout the island area were many cripples who attributed their injuries to the barracuda, most feared fish of the sea.

Included in the itinerary were visits to Mt. Pelee in Martinique and the fabled Asphalt Lake in Trinidad.

The adventurers enjoyed the generous hospitality of many prominent Americans. Theodore Roosevelt, Jr., then governor of Porto Rico, was especially gracious.

Mr. Eberle delivered the lecture in German, but augmented the simple German vocabulary with necessary English explanations.

A party in the South Hanra parlor Wednesday, May 8, will concluded the club's '45-'46 program.
