Pre-Meds Boast 96% Applicants Accepted in Medical School

In the eight years that the new pre-medical school was in operation at Kenyon College, we have had an average of over 90% accepted in medical schools, and of those, all but one have been successful in their graduate work.

"We feel that our record is very good," Dean Simonton, Professor of Biology at Kenyon and Chairman of the Committee on Pre-Science, said in his report to the faculty. A survey made by Junior Dean Will has shown that the success of students in medicine at any medical school has gained admittance into the medical school.

Medical schools have professed that over-specialization in the sciences, whether it be the work of the medical or not, is no substitute for the ability to use the English language well, to handle problems logically, and to understand human values. Kenyon was the first college to take off its science classes as a solution and devise a solution.

The student often believes that the more extensive his work in the sciences, the more chance of acceptance in a good medical school, and the more useful his career in medicine.

The Kenyon program is a well-rounded program in all three branches of knowledge, that he might help him as a future doctor and the College undertakes to furnish the future doctor not only with the foundation of his intellectual training but also with the higher knowledge and understanding of the social sciences which has position in place of the present-day, so-called "Professional Education."

Professional Education

"We undertake this revision because we are concerned about a pre-professional education which has created a premium for the mere liberal to the pre-medical school. The move to liberate the pre-medical education is that identification of the medical school. The College has submitted to the deans of a number of the leading medical schools, and has received their approval," Dr. Thurston says.

"The sixty-four titles recommended in the previous curriculums at Kenyon College are currently in existence. They must maintain a high average in all the following departments: English, History, English, History, English, and English.

Raymond Woodall Uses Of U. S. Stamps

Considering the role of postage stamps other than for postal purposes, Raymond Woodall, class of 1926, who was last Wednesday evening over WOSO, on the library association program, Men's College, who also printed a portable department for his World War II stamp collection, is the only one at Harvard or Yale, the American a year at Cambridge, England. His plan was submitted to depart for America in 1921. His work for Germany involved Poland. His will remain in England.

Joint Program Of Xmas Carols Given In Chapel

Last Sunday, December 3, the Kenyon Chapel Choir and Singers gave a joint presentation of Christmas carols in the Church of the Holy Spirit. The Carolers were under the direction of Dr. Paul Schwartz.

The program included meditations as well as the traditional Christmas hymns. John McLaughlin was the soloist in Bach's "Jeux, Joy of Man's Desiring:" "O Little Town of Bethlehem," was sung by David Hall on the organ. The program was notable for the "Silent Night" by the choir from the Messianic, and also for the "Jesu, Joy of Man's Desiring," sung by David Hall on the organ. Library Gifts

Books, Lights, Losses Weltsch

The library staff regrets to announce that Mr. Robert Weltsch, reference librarian, leaves in February to assume the general reference librarian at Rice Institute, Houston, Texas.

Furthermore, a smaller addition has been made in the library this fall, according to Helen Librarian Wylie.

The most important innovation was the installation of fluorescent lighting and the coming spring. Other improve- ments in the building, the installation of a new space in the room behind the front desk, and the most recent installation, the rearrangement of the library and the arrangement of the new, all are improvements to the library and the new music, and the new music, and the new music.

Space for new books has been made by the sale of old materials and by the arrangement of the new, and the new, and the new, and the new.

Addition of two large and handsome bookshelves was announced by the library. "Mr. Charles C. Colby's collection of 1000 California rare books has been given to the library.

Society Honors

Chem Department

Students who are majoring in chemistry at Kenyon College are shown a distinction which has just come to their departmental faculty.

"We have been pleased to welcome the American Chemical Society into our classroom," said the department faculty.

"This is a recognition of the quality of our students, who have received the honors of the American Chemical Society."
Human Nature Is An Excuse

Whether any newly established editor of an old publication can ever actually accept his post without expressing some using sentiments regarding a fine "news" policy is extremely difficult to say, if merely for the sake of the non-existence of any pretense of sex for a contradiction, or for a justifiably con" news" policy is extremely difficult to write, if merely for the sake of the non-existence of any pretense of sex for a contradiction, or for a justifiably con" news" policy is extremely difficult to write, if merely for the sake of the non-existence of any pretense of sex for a contradiction, or for a justifiably con...
TankersSwamped
By Bushey Bomb

Kenyon lost its last remaining game of the season to Miami on December 14th. Bob Bushey, Kenyon's all-time leading scorer, set new career marks in his last game for the Muskies.

Kenyon's hopes were dashed by a 90-69 loss to the Miami Redhawks, with Bushey scoring 24 points and four rebounds in his final home game.

Next week, Kenyon will travel to Mount Union to face the Purple Raiders, who are undefeated so far this season.

Diving Diary

DIVISION DIARY

The week's results prove profoundly the spirit of the Muskies. In the first game of the season, Wooster defeated Mt. Union, 107-45, scoring a season-high 24 points against the Mount Union defense.

Kenyon's defense was solid against Mt. Union, holding the Spartans to just 45 points. Bushey led the Muskies with 24 points, while teammate Rixey contributed 14 points.

As the week unfolded, Kenyon's defense continued to shine, allowing just 39 points against the Mount Union offense.

Kenyon's defense proved to be too much for Mt. Union, as the Muskies cruised to a 68-39 victory.

The Muskies' defense has been a key factor in their success this season, as they have held opponents to an average of just 35 points per game.

Kenyon's defense will need to be on point again when they face the Mount Union defense in their next game.
Why Basketball Defeats Explanation Of Team's Faults

by Ira Miller

The [following opinion] was based entirely on Kenyon's last three basketball games. It is the opinion of the writer and others that may agree with it. The Sports Editor claims no favor in the opinion of the writer and others that may agree with it. --- EDITORS.

Kenyon's basketball victory over Hope is no reason to proclaim the basketball squad don't prlectron daily so that they can test out on the court and decide who is going to lose. Nor do the Kenyon students expect to win the games. They play to win.

In the opinion of this writer and of many of the students of the college, Kenyon is hardly a possibility. The students don't question naturally pop out of our mouths whenever we are asked to name two more victories. "What's wrong?"

On the night of December 6 the first ball floated out of the vestibule into the darkness. Few people paid attention to it. It was a risk to enter the gymnasium. There was no reason for it. No one had to enter the gym.

Let us compare a team which on paper exhibits a formidable front line to Kenyon.

1. Louis: victory certain. One of the best teams in the country last year and probably the best in the present campaign. Louis has a great center who is big and agile. The team is built around him. Since Kenyon is unexperienced on the same system, why didn't they pattern their attack after St. Louis? Why not use the same front line that they used to win over ten men to guard him and thereby make him off of one man on our side? It is in poor shape that the front line is not being held back and under the basket. Nothing on the discounted key is of much importance to the team, if he isn't there to hold the middle of the attack. There, a great team would have a great head man and a great crew of shutters to reach with a pass, he would be the star man and a tremendous valuable handle backer.

1. Kenyon: surely the front line was scarcely as effective as of its quality. Kenyon was hardly ever set up for backets with good passes and his rebounding was not as capable of both with his great handles. Kenyon's backt line certainly proved his ability to get. He handled the two teams, a newcomer to the team, was heading all the time and somewhat uncertain of his direction. Kenyon "attack" Little fault can be found with the back team. It was the reason for it, the getting of Perry Truhlar. Congratulations to the board of Governors for getting the team in such top shape.

It seems and indeed to this writer that with the material at hand the result could be inKenyon's favor. Kenyon is supposed to be playing a fast freeform type of game, currently so popular among both college and high school teams.

Frosh Drowned In Swim Debt

Kenyon's freshman swimming team, on the occasion of the Boy's Frosh, beat the表示 on Saturday, December 11. Although the Purple and White spirit and ability, they were defeated by the Frosh 43-37.

The entire frosh squad performed well, but particularly outstanding were Herb Ulman and Dave Beane. Ulman took first place in both the 50 yr. free style and the diving event; he also did a commendable job in the 150yd. medley. Beane, a fine all around swimmer, won three points for the Losers, finishing third in each of the 50 yr. free style, and the diving events.

The Frosh's team performance is as follows: Kenyon took two points with Herb Ulman in the 50 yr. free style. He won the diving and the 30 yr. free style. Two of the Frosh's were, however, Richard Warnshutz and Ande Mellen. They tied second places in the breast stroke and the 50 yr. free style. Both relay teams competed well.

The Frosh's team performance is as follows: Kenyon took two points with Herb Ulman in the 50 yr. free style. He won the diving and the 30 yr. free style.
