Distrust of Intellectuals, Part of American Tradition
by Fred Kluge

The "larger context of American history" and several pages of a forthcoming work formed the foundation of Richard Hofstadter's approach to "Anti-intellectualism in American life." Opening the first George Gund Lecture, the Columbia Professor of History observed that his speech would be based in large part on a written manuscript, and would emphasize on historical attack on the problem. We were then presented with an interesting, witty reading in history... and little more.

Skirting an attempt at definition of anti-intellectualism ("not the kind of thing you do define") Professor Hofstadter first identified anti-intellectualism with the American tradition of egalitarianism, ("the democratic impulse that is not necessarily egalitarian, but it is..."

"perhaps not incorrectly, said Professor Hofstadter, with privileged laborer" in the popular eye.

One extreme of anti-intellectualism came when liberal intellectuals (still an undefined quantity) were offended the "bumptious popular fighter") over Adams (the writes's "sickly-sweet nationalism"

"nationalism" embodied by Jack and opinion of Davy Crockett, regarded in American politics. LETTERS TO THE EDITOR

Dear Sir,-

The February 10th issue of your paper contains an article entitled "Political Survey finds only "Two Clubs Active," signed by Fred White and Barry Goldwater. Perhaps the name of Mr. Goldwater is not meant to be discouraging, but I think it is.

It is untrue to state that the Young Republican Club of Kenyon College had any part whatever in the visit to the campus by Representative Charles F. Goldwater. Barry Goldwater will be on this campus — as in the Congressmen Haleck and Levering. So will be as guest of the whole College and as speaker of the Lectureship Committee.

Sincerely yours,

Charles R. Ritcheson
Chairman

Biography Conference Returns to Kenyon

Kenyon College will host on March 16 and 17 to a Development Conference sponsored by the American Society of Zoologists through its Division of Developmental Biology. The purpose of the conference is to provide an opportunity for undergraduate and graduate students (as well as advanced undergraduates) to present and discuss their research. The conference will feature several invited talks from both panelists and informal group — usually 40 to 50 people, the results of current research in a few hours. Registration: $10.00 (early registration). Room and board: $10.00. Childcare: $5.00 per child.

Last year five regional conferences were held, and there have been three set up so far this year, with hopes for two more. In both years Kenyon has been honored in being invited to hold one of these conferences on its campus. In both years Kenyon has been able to host these conferences on its campus. In both years Kenyon has been able to host these conferences on its campus. In both years Kenyon has been able to host these conferences on its campus.

In the age of modern technology, there are few institutions that can match the facilities and services offered by Kenyon College.

In it the maudlin emotionalism of In short there may be a tendency on the part of some Kenyon students to settle for standards not entirely consistent with the exalted impressions they have of themselves. Although a relative stranger to Kenyon College, Professor Spitz had a point. KENYON 68 — OTTERBINE 51

They gave the Old Kenyon Victory Bell a few extra tugs last Tuesday night, for the Lord Basketball team had defeated the Otterbine Cardinals by the remarkable score of 68-51. Gathering in their 11th win, the Lords had reached the second round of the Ohio Conference Basketball Tournament, held at Capital University, where they will meet the Terriers, tomorrow night to decide who will win the Ohio Conference Championship.

Bob Ramsay, known as "Rams" by his friends, Bob Ramsay is the only senior on Kenyon's basketball team. For the last three years he has been a part of coach Harrison's rebuilding program which has reached its highest point in this current season. In the last three years he has been captain both his junior and senior years which in itself is an honor pointing to his ability and fine team spirit.

As a Freshman "Rams" did not receive a letter because of an injury followed by inelegibility; however, since then he has started every game. This year he scored a peak by slamming home 31 points to contribute to the victory.

Harrison notes that Bob has developed into a true team player with a strong trend toward less points for himself in favor of more for the team as a whole. In this capacity as playmaker his outstanding shots from outside have weakened many teams. In his first years on the team Bob was not outstanding on defense but through his determination he has improved such that he is a key factor in Kenyon's position among the top fifteen small colleges defensively.

Bob is noted for his aggressiveness which has at times been beneficial, while at other times, has been disastrous. Observers of his aggressive play have labeled him an "outliner"; however, Slade has been able to draw the team into a close working unit. When Bob plays his last game of basketball for Kenyon, the team will lose a fine player, sport and man. His absence on the court after all these years will be felt both by observer and participant.

WRESTLERS TAKE FIRST VICTORY;
NIP ZIPS, 17-11

by Ed McCellumb

After suffering defeat after defeat this season the Kenyon wrestlers came up with their first victory, winning an upset over Akron, besting the Zip matmen, 17-11, away, on Fri., Feb. 17. The victory saw Kenyon winning five matches, one on a pin.

Tom Novinson, John Sprague, Willard Van Horne, Henry Farwell, and Ivor Rollitt each won their matches, with Ivan pinning his opponent.

The triumph culminated a Kenyon winning trend which has been noticeable in the past several meets. The score has been, with a few exceptions, continuously rising in favor of the Lords. In a previous match, Kenyon was edged out by Denison Feb. 7. The Kenyon matmen took three matches, two on pins. VanHorne, 147 lbs., and the Field House. Dick Novinson won in the 123 lbs., and Westerhold and Taylor respectively of Denison.

The Hiram meet, February 10, wasn't as successful for Kenyon, as they won a "Purple Gang." Hiram downed the Lords 33-2 and Van Horne coming up with a tie for Kenyon's only points.

Bouncing back for the Wooster match, Kenyon came up with three victories on the Bots' mats. Novinson won in 1:21 lbs., weight class, and Sprague clinched a man who had been fourth in the conference last year. Rollitt came up with another pin, but this was not enough for the Lords who were dropped 21-11.

Tomorrow, Kenyon takes on Marietta in Hiram Hall in the last meet of the year, before the Ohio Conference Championships take place.

At AKRON February 24, 11 March 4

Game No. 1 Kenyon vs. Hiram

Winner No. 1 Winner No. 2

Game No. 2 Oberlin vs. Akron

Winner No. 1 Winner No. 2

Game No. 3 Muskingum vs. Wooster

Winner No. 1 Winner No. 2

Game No. 4 North Champs.

Kenyon vs. Mount Union 64

Mount Union is Kenyon's second victory of the season, coming up with a tie for Kenyon's only points.

Against Wooster, Kenyon came up with three victories on the Bots' mats. Novinson won in 1:21 lbs., weight class, and Sprague clinched a man who had been fourth in the conference last year. Rollitt came up with another pin, but this was not enough for the Lords who were dropped 21-11.

Tomorrow, Kenyon takes on Marietta in Hiram Hall in the last meet of the year, before the Ohio Conference Championships take place.

KENYON 70 — MT. UNION 64

Having to rely on its field goal accuracy throughout the present season, the Lords finally won a game, its first in 17 starts, from the foul stripe by senior Hal Smith, who tossed in 15 points, and then won going away. With the coming season the biggest problem facing the Kenyon matmen will be the absence of one of their top performers, Jeff Slade, who was dropped 21-11.

But this was not enough for the Lords, who were dropped 21-11.

Tomorrow, Kenyon takes on Marietta in Hiram Hall in the last meet of the year, before the Ohio Conference Championships take place.

KENYON SCORING: Livingston, 4-2-10; Ramosy, 7-2-16; Slade, 5-2-9. Dublin, 3-4-9; Echols, 2-6-10; Kousoulas, 1-4-7. Kenyon scorings: Livingston, 4-2-10; Ramosy, 7-2-16; Slade, 5-2-9. Dublin, 3-4-9; Echols, 2-6-10; Kousoulas, 1-4-7.

DOROTHY'S LUNCH

Getaway

BEER and FOOD

by Don Doerge

Drawings for the second annual Ohio Conference basketball tournament were held last Sunday, Aug. 10 at Akron. Kenyon, in the northern section of the tournament, drew Hiram as a first round opponent. The Drawings for tonight this year whipped the Terriers 72 to 60. Also in the first round half of the fourteen team conference, Oberlin will face Akron in the second game of tonight's triple header at Akrom's Memorial Hall. If the Lords can overcome the Hiram five tonight, they will face the winner of the Oberlin-Akrom match, in the second round tomorrow night. Since Bob Ramsay handled the Yeomen easily in their first round match of the season, it seems to be a reasonable bet that the game tomorrow night will bring the Lords into collision with the formidable quintet of Zip. Again relying on the season's results as an indicator, the third round will pit the Scots of Wooster against either Akrom or Denison. Although the Yeomen did not meet during the regular season, history indicates that it would be a pure guess. Considering the Lords' relatively good season with their third consecutive victory at the hands of Oberlin, 73-59, perhaps Slade and company will be able to bring a little bit of heat to the works at Akron.

In the southern section of the tournament, to be held at Capital's Alumni Fieldhouse, Dennel had the questionable luck of being slated to face the Tigers from Springfield. Again a strong favorite for the championship, the Tigers from Springfield were undefeated in conference play this season. Oberlin, strengthened at mid-season by the addition of a 6'4" guard transfer student from Ohio State, seems a sure bet to dump Marietta in the second round clash tomorrow night. Assuming Capital as the victor over inest Muskingum, the second round夯实 between the Fighting Lumberjacks and the Yeomen. Here, it is hard to see why anyone, who drew a bye for tonight, would seem to be taken-up. Both teams have had a successful season for the 1960-61 season and after the Capital match was over, it seemed that Capital was second and Ohio Wesleyan third in final conference standings.

Added hope for Kenyon's efforts in the tournament can be derived from the Lords' record against the two strong contenders. Coming close to major upsets in both encounters, Harrison's boys were dropped by Capital by four and by three to Ohio Wesleyan. If the Yeomen are to make a strong showing, it should for some mysterious reason happen against the Yeomen, there exists a definite possibility that the opening tipoff of next Saturday's conference tournament will have Jeff Slade jumping against Wittenberg's Best Price.
American Tradition
(Cust. from Pepsi L. Cola I)
issues of very recent history and our own times, that there was no indication of what the future might afford.

In the question period that did follow, one sterling chance did present itself, when Kenneth Swett, a Mount Vernon resident and graduate of Kenyon (Class of 1933) and Beekley, offered a prepared multi-part question covering everything from ivory towers to Latin America, socialist schemes to liberalism with money Professor Hofstadter replied that the great current anti-intellectual fear is not that intellectuals continue to live in ivory towers, but that they threaten to come out of them.

Hofstadter’s reply to another question defined the intellectual as someone who lives for ideas instead of off them, someone who uses the mind beyond the call of daily duty. Theodore Roosevelt and his "hairy-chested code of conduct" proved that reformers were capable of vitality, that "masses" and political reform were not really inimical to "The separation between intellectuals and politics was bridged in the early years of this country, when pro-gressive reform welcomed intellectuals, including an array of professors, writers, and publicists to its ranks.

Harmony between intellectuals and political movements was manifested in the New Deal, particularly in Roosevelt’s use of the "Brain Trust." Though the power of this group was largely exaggerated, it did probably bring the "force of mind into closer relation with power" than had been the case since the days of the founding fathers, Hofstadter noted.

Mermen Beat Scots, Tigers; Oberlin Next Rival Here
by Bob MacDonald
Kenyon’s swimming team will play host to Oberlin tomorrow afternoon at 2:30 and in their final home meets of the season and then will travel to Akron for the Ohio Conference championship ships next Friday and Saturday.

The team lost their first meet to the season to Ohio University on February 9, 57 to 38 and then came back to defeat Wittenberg 61 to 34 and Wooster 57 to 39 before dropping a hard fought meet to Cincinnati, 55 to 40, last Saturday, March 18.

Six pool records were broken at Cincinnati and the Lords to their first defeat at home this season. The outstering performer for Cincinnati was Gary Heinrich who set three pool records in the 200 I.M. in 2:17.1, 299 butterfly in 2:09.6, and the 440 free in 4:39.3. Jim Marchetti took the 100 free in a record breaking 50.6, won the fly in 23.1, and anchored the 400 free relay to another pool record in 3:31.6.

Kenyon’s 400 medley relay team of Phil Mayher, Tom LaBaugh, Lin Hayes, and Tom Hoffmann set a pool and school record with a winning time of 4:01.2. The 400 freestyle relay team of John Oliver, Steve Shapiro, Hoffmann, and Dave Evans set a varsity record while finishing second in 3:33.8. The Lords’ only individual wins were provided by Gene Ruth in the diving and Mayher in the 200 back in 2:11.6. Other notable times were turned in by Tim Pierce, 2:17.3 in the 200 free; Andy Jackson, 4:48.2 in the 440 free, and LaBaugh, 2:36.3 in the 200 breaststroke, in gaining second places.

Kenyon had little trouble defeating Wittenberg and Wooster. The Lords set eight pool records with Mayher contributing to three of them by winning the 200 I.M. in 2:17.4, the 200 back in 2:13.5, and leading off the 400 medley relay with LaBaugh, Hayes, and Oliver that won in 4:05.5. Evans took the 50 and 100 free in 24.1 and 53.7, Pierce copped the 220 in 2:19.2, and Jackson won the 440 free in 5:00.6.

The 400 medley relay of Mayher, Bob Querry, Hayes, and Hoffmann established one of the three pool records against Woon- ber with a victory in 4:04.2. Evans took the 50 free in 24.0 and Mayher triumphed in the 200 back in 2:13.3. Other Kenyon victories were contributed by Pierce, 2:04.5 in the 200 free; LaBaugh, 2:31.8 in the 200 I.M.; Hayes, 2:31.3 in the 200 butterfly; Evans, 54.5 in the 100 free; Jackson, 2:29.4 in the 200 free, and Jim Carr, a fast 2:31.6 in the 200 breaststroke.

Kenyon could only manage three first places against Ohio U. The 400 medley relay of Mayher, LaBaugh, Hayes, and Oliver won in 4:05.5. Evansopped the 50 free in 23.8, and Mayher took the 200 back in 2:24.2. Tom Boyce did an outstanding job for Ohio U. by winning the 200 medley in 2:11.6, the 200 butterfly in 2:17.9, and the 200 breaststroke in 2:33.6.

"I ENGINEERED MICROWAVE TOWER LOCATIONS"

When Bill Pigott knocked on the door of Pacific Telephone, he had two big assets. One was an electrical engineering degree from Seattle University. The other was a craving to jump mountains, knowing that his planning helped put them there.

Other important assignments followed: engineering maritime radio systems, SAGE systems—figuring engineering costs for Air Force Titan missile bases.

“Our people respect a man’s engineering training—you really get a chance to show what you’ve got on the ball,” Bill says. “I was up to my neck in all engineering problems right from the start.”

“If you want a job where you put your training from the work you hang up your hat—you’ll want to visit your Placement Office for literature and additional information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find.”
