VERBAL DESCRIPTION:

Elongated U strap handle from a ladle censer. Proximal portion - Shows the widening where the handle would have met with the bowl rim. Upper side is smoothed, but finger sticks above the paste - I think this is due to erosion. The underside is not as well smoothed. There are small lumps of extra clay that seem to have no purpose. Edges are rounded. Firing core is large & dark - takes up almost all of the cross-section. No paint, slip or decoration. Wet drawn.
