Senate Probes 'Society' Issue

by Robert Jahnson

The Senate again discussed the issue of Arbon's "de-

cision" to reestablish a "soci-

ety." A former member of the latter, Mr. Robert Jahnson, said that Arbon's "decision" could not be considered a purely in-

termural and one that effect that "de-

cisions" were.

Dean Clarifies Independents

Housing State

Dean Edwards, Mr. James Lam-

bard, Director of Residence Halls,

and approximately sixty concerned

students met in the Gund Hall

Senate to discuss the general

issue of housing and if you don't

judge. The central issue of the meet-

ring seemed to be the housing situa-

tion for independents. The Dean thor-

oughly explained the policies that

were in effect at the moment. De-

nally, he personally believes it "to be a good system" and pointed out the

benefits of all housing requests having been heard by the Dean as far as

covered. General affairs of the housing as-

ternment were also discussed.

It was the consensus of the group of independents in-

together on a united front. Mr.

Edwards, Mr. James Lombard, is

not so socially and he has

the MEETING PAGE 4

College Adopts New Parking Rules

by Alan Rapoport

"It is my understanding that there is a sufficient places for standards that some stu-

dents, who are permitted," that was

the assessment of President Caples

and the parking situation on cam-

pus this year. In an attempt to

raise awareness, Dean Edwards

is attempting to enforce a certain

set of rules covering parking areas on campus.

As far as the total university term, it is con-

sidered, it is the opinion of the Dean that there are too many complaints. Therefore,

the parking will be allowed on the

campus, if one wants to use the

parking lot. This is not a new policy, but simply a reminder of the rules. In addi-

tion to the regular duties of the Dean's office, the students have been asked to

report any violations. In answer to a question by this writer, Dean Edwards

said, "Parking, Page 4.

Civil War and the draft. Front of businesses and about the ac-

tivity and bidderness that has oc-

curred in these areas. Concerning the parking lot front of Pomeroy Hall, it was pointed out by the

Dean that College personnel are in need of those spaces, so the parking lot has been designated for faculty. In answer to a question by this writer, Mr. James Lombard, Director of Residence Halls, to discuss the housing situa-

tion. See related article, page 1, column 1.

DEAN CROZIER discusses Coordinate College government in an in-

formal meeting with the women students.

Women Meet To Discuss Government

Dean Crotzer called a meeting for the students of the Coordinate College on Monday in the Student Center of the new Commons to explain and discuss the formation of the government.

The government is composed of a Senate, a House of Representatives, and a President. The Senate will be elected on Tuesday at 7:30 p.m. The meeting will begin at 8:30 and conclude at 9:30. The Senate will be elected on Tuesday at 7:30 p.m. The meeting will begin at 8:30 and conclude at 9:30.

The Senate expressed disagreements over the possible confusion. A motion was made that the Senate will hold a special meeting on Monday evening to discuss this issue further. The Senate also discussed the issue of the library and its ap-

parent change from a study center to more of a social area. Various proposals were introduced to deal with the situation, but many mem-

bers of the Senate felt that the problem may very well settle it-

self in time, with the imminent open-

ing of the Women's Commons. The Senate for the time being decided not to make any decision until further developments occur.

There was also a brief discussion of plans being made for Sidwell Han-

derson House. One member of the Senate reminded that the plan being made by Sidwell Handsom House is to start a special program for the Senate. The students for the time being decided not to make any decision until further developments occur.

There were almost forty girls interested in working on the commit-

tee. One student raised the question that if an election was held too soon, the women would not have the time of the candidates. "How can we coordinate?" the wine asked in the house of the women's government will evolve from this.

The committee was decided upon to hold a special meeting on Monday evening to discuss this issue further. The committee also discussed the issue of the library and its apparent change from a study center to more of a social area. Various proposals were introduced to deal with the situation, but many mem-

bers of the Senate felt that the problem may very well settle it-

self in time, with the imminent open-

ing of the Women's Commons. The Senate for the time being decided not to make any decision until further developments occur.

self in time, with the imminent open-

ing of the Women's Commons. The Senate for the time being decided not to make any decision until further developments occur.

Many of these proposals have been discussed by the Senate, for one, spoken with true wisdom.

Phone Problems Explained

The United Telephone Com-

pany has reported that ap-

parently in retaliation for a number of long distance tele-

phone calls, the telephone company has been damaged. The com-

pany would like to inform the community that the present disruption of service is due to damage done to the main cable between Mr. Vernon and Gam-

bler. The company further, has already made plans to string seventy-five new lines in the near future to re-

place the present six which feed into Gambler.

Council Rejects Rights Proposal

by John Deimling

Student Council, in its weekly meeting, rejected a resolu-

tion presented by the Interfraternity Council. The resolution, sponsored by Robert Fox, was defeated. The motion was made by Mr. John Deimling, and seconded by Mr. Robert Fox. The motion was defeated.

The resolution stated that the Senate had not shown the "departure of women's rights," demanded by its authorship, criticised the censure for being out of the letter of the law. The letter was read in the presence of the Senate and was then tabled. The motion was defeated.

The Senate decided to hold a special meeting on Monday evening to discuss this issue further. The Senate also discussed the issue of the library and its apparent change from a study center to more of a social area. Various proposals were introduced to deal with the situation, but many mem-

The Archon Proposal

In proposing a restructurings of their fraternity, the Archons have failed to define the difference between a fraternity and a college activity. However, the larger question of what should be the nature of fraternities at Kenyon in an era when fraternities are under attack from all sides.

The Archon proposal seems to make the assertion that the essence of a fraternity is not the ritual or the name, but the result from a group of students living together. It is unfortunate that their proposed internal changes were poorly explained and little understood. We feel they may be able to make a contribution to the solution of the problem of fraternities at Kenyon if the Archons are correct in suggesting that ritual alone should not be the distinguishing characteristic of fraternities.

Kenyon has always been proud of the distinctive character of her fraternity system. We urge the Archons to make clear their intentions. In doing so, perhaps the community will begin to discuss possible reforms and improvements in the fraternity system at Kenyon.

Week Night Parietals

The question of women's hours has long been discussed at Kenyon. As a result of this widespread concern, Campus Senate appointed a committee last year to consider "the larger questions of dormitory life." The College supports the creation of the Committee on Dormitory Life. Perhaps the disagreements over women's hours will finally be worked out.

In the meantime, however, we feel the Senate should change the 9 p.m. week-night parietals to midnight. This action would alleviate the present overconcern and misuse of the library. A college library is used for quiet study and not serve as a social center. Even when Colbourn Hall and the new Commons open, there will be no opportunity for men and women to be together with any measure of privacy after 9 p.m.

The 9 p.m. hour has always seemed logical to Kenyon students. Prior to the opening of the Coordinate College, the week night parietals were of little consequence. Women were merely seen in Gambier that fraternities and parietals as the most abrasive aspects of women's hours regulations. By moving the hours to midnight, parietals will logically coincide with the women's curfew and also reflect the change in the character of the community.

The College does not feel this is a substantive change that would undermine the serious deliberations of the Committee on Dormitory Life. We do not think Senate is incapable of finding a short-term solution to the situation while a committee of the Senate is considering the long range solutions to the problem of dormitory life.

We urge Senate to consider this change at their next meeting.

Letters to the Editors

To the Editor:

The Committee has taken on the dominant theme of "devolving out the year socially by lessening the tension of the Dance Weekends traditionally held each year by the Coordinate College in providing extra activities for these individuals who are at the end during the College term. It would appear fair to de-emphasize the social activities of the majority of the students and place more emphasis from outside of the College.

Since there are over two hundred more students on campus this year, I propose that the subsequent increase in the Social Committee's budget be used to provide extra weekend activities. This would stretch those funds for proving the Dance Weekends of similar quality as in the past. I believe that the College community would be interested in new and unique activities and new students would have active tailored to their specific interests.

In order to give the new students the opportunity to attend these events, for new social activities and activities on campus, I propose that the campus Senate "Report of the Social Facility Committee" be made available. This report was issued on April 1, 1968 and it serves as an excellent guide for the College.

I believe that the College community would be interested in new and unique activities and new students would have active tailored to their specific interests.

This does not mean, however, that we should implement our activities accordingly any organization or institution. We will not be able to move forward due to the pressure of the College community.

John Keith Morris '70

To the Editor:

I am writing this because you have already opposed the column entitled "Notes from Underground." I am writing this so that my voice can be added to that statement of purposes.

The meeting of people which led to the planning of "Notes from Underground" took place entirely on the eve of the Jewish Holiday Yom Kippur, when parietals were not canceled for a variety of reasons. Yom Kippur is the time of the Jewish Day of Atonement, and the activities of October 13 are meant to create a day of remembrance and atonement. Also, when I went to high school Yom Kippur was a day that Jewish students were permitted a day off from school to observe the holiday. I believe that all students who did not subscribe to the College community during the admission process were of the Jewish faith (as I am). Some students complained as to the inequality that Jewish students had this was Christmas. I always held that this was the most important time of the year. Christmas was a celebration by the people on Earth for the birth of the Prince of Peace. Enough of this metaphor.

The activities of October 15 do not prejudice attendance of classes. The day will begin with services in the Chapel. At that time a roll of the American, the American flag and the Camp would go in the theater. Before dinner there will be a prayer vigil in front of Peirce Hall.

I feel that all of these activities are in tune with the spirit of a liberal arts education. This need for power in contrast with the Kenyon Collegian.

"Harford of the West" Fable Tells Kenyon's Past

By Bob Strong

Once upon a time in a deep dark forest called ORBA, high upon a mountain there was a narrow path where the trees were very high, and the wind very strong, and the sky covered in the mist. Among the branches, a brown fox was walking and looking for food. Suddenly, the fox came across a beautiful clearing, adorned with flowers and trees of all kinds.

The path led to the forest to the special path and saw the forest ahead and decided it was the only way. However, as the fox walked, it noticed the other animals of the forest had a special way of walking and eating. The last fox to walk was seen in German and that it emphasized the beauty and dignity of Moosehood as described in the novels of Thomas Morse.

Notes from Underground

by Alex Cadmus and Mike Bartok

A number of Kenyon men and women will hold a "Day of Humanity" protest at the Student Center on Monday evening. The incident with the national student protest has made us realize how much our lives depend on the events in Viet Nam. We feel it is important to express our sentiments on this day because of the extreme relevance of this issue to all of us. We come to Viet Nam as citizens of the nation which has committed so much of our resources to this war effort, and also to citizens of the world community involved in the recognition of human life styles. We will be, in our small way, a part of the larger movement. This does not mean, however, that we should implement our activities accordingly any organization or institution. We will not be able to move forward due to the pressure of the College community.

October 15 is to be a day of Peace and Sympathy. Considered specifically here at Kenyon, we feel that many of us cannot bear to think of what our fellow man is going through. In a more human man and society -- for the purpose of expressing our sympathy and support for our fellow man is not possible without any form of expression, the major, it will be only a matter of time, our efforts will be directed to find a way to substitute for the expression.

We will be, in our small way, a part of the larger movement and commit ourselves to an anti-war stance, yet we will not be able to do so with the principles, true, and our perspectives of our own personal goals.

October 16 is to be a day of Peace and Sympathy. Considered specifically here at Kenyon, we feel that many of us cannot bear to think of what our fellow man is going through. In a more human man and society -- for the purpose of expressing our sympathy and support for our fellow man is not possible without any form of expression, the major, it will be only a matter of time, our efforts will be directed to find a way to substitute for the expression.
Strong Past; Defense Could Throttle Lords

By Sam Myers

Strong Defense; Tough Team

In the week's opening game, the Ohio College football team was able to put their best foot forward. Against the Kenyon Lords, the Blue Streaks were able to come away with a 21-0 victory. The defense held firm, allowing just one touchdown in the game.

The defense was led by senior linebacker Frank Barone, who had 14 tackles in the game. Junior defensive end Nick Myers, Jr. also had a strong game, recording 12 tackles and two sacks.

Offensively, the Blue Streaks were able to put the ball in the end zone early and often. Senior quarterback Bill McAllister completed 18 of 25 passes for 216 yards and two touchdowns. The Blue Streaks' offensive line was also able to get time on the field, allowing McAllister to make some big plays.

The Blue Streaks' defense was able to shut down the Kenyon offense, allowing just 167 total yards. The defense was led by senior linebacker Frank Barone, who had 14 tackles in the game. Junior defensive end Nick Myers, Jr. also had a strong game, recording 12 tackles and two sacks.

LA STRADA

Federico Fellini's LA STRADA (theane) has captured over fifty international awards and has been recognized as a cinema classic. This 1955 production is markedly different from the selection of films shown during last year's Festival. LA STRADA has the appearance of Italian Neorealist though it is a spiritual film. Giulietta Masina, Fellini's wife, portrays an innocent girl, half-belonging to carnival strange man, Anthony Cotton, Masina's, whose performance has been compared to some of the best Day for Night and to Quino's Heart. This film portrays a happy arrangement into Richard Base- e, the circus acrobat, Baseahet, comically destroys Quin's act and leaves in place in jail. It is the heart of the theme of Base's heartland's life. When he is released from jail, he regains Masina. They sit again, and then encounter Baseahet.

PACO To Consider Censorship: Obscenity

by Gayle Robbins

"Censorship and Freedom of Expression" will be the topic of this year's Public Affairs Conference to be held May 7-10. Areas of discussion will include the nature of human experience in the mass media, the nature and limits of censorship in a liberal democracy, and the relation of law to morality.

The organizing paper of the Public Affairs Committee is by Professor Harry Cline, chairman, "In defense of a serious confrontation of vital and contro-
versial issues and in defense of the bridge between the worlds of theory and the world of action. For this reason, participation in the Conference includes both scholars and public figures."

The conference centers around three distinguished visitors - all leaders in their respective fields. These visitors will visit Gamble to meet with students, faculty, and to lecture, visit classes, and participate in the Public Affairs Conference. This summer seminar is taught by Profes-
sor Robb and will consist of four seminars with the PACO topic for the year.

Prior topic lecture, seminar, and a graduate and former Art, Dean of the School of Law at Case Western Reserve University, and a graduate and former Art, Dean of the School of Law at Case Western Reserve University, and
